Notes:

- Number of domestic households are rounded to the nearest hundred.
  - Figures may not add up to the total due to rounding.
  - Figures are compiled based on the survey results of the General Household Survey (GHS) from January to December of the year concerned as well as the mid-year population estimates, and may be regarded as referring to the average situation of the whole year.
- (1) Domestic household consists of a group of persons who live together and make common provision for essentials for living. These persons need not be related. If a person makes provision for essentials for living without sharing with other persons, he/she is also regarded as a household. In this case, the household is a one-person household. Households comprising only non-Hong Kong residents or Mobile Residents are not classified as domestic households.
  - (2) Subsidised home ownership housing includes flats built under the Home Ownership Scheme, Middle Income Housing Scheme, Private Sector Participation Scheme, Green Form Subsidised Home Ownership Scheme, Buy or Rent Option Scheme and Mortgage Subsidy Scheme, and flats sold under the Tenants Purchase Scheme of the Hong Kong Housing Authority. Also includes flats built under the Flat for Sale Scheme, Sandwich Class Housing Scheme and Subsidised Sale Flats Projects of the Hong Kong Housing Society, and flats in Urban Renewal Authority Subsidised Sale Flats Scheme. Subsidised sale flats that can be traded in open market are excluded.
  - (3) Private housing includes private permanent housing and temporary housing. Private permanent housing includes private housing blocks, flats built under the Urban Improvement Scheme of the Hong Kong Housing Society, villas/bungalows/modern village houses, simple stone structures/traditional village houses and quarters in non-residential buildings. Subsidised sale flats that can be traded in open market are also put under this category.
