二零零六年中期人口統計已於二零零六年七月至八月期間進行。中期人口統計提供很多有關香港人口的社會及經濟特徵的資料,有助對社會不同的層面進行研究。

本報告概述二零零六年中期人口統計的進行過程,詳細描述由籌劃,至數據搜集、處理及發布的程序。它補充其他載有二零零六年中期人口統計結果的報告書,使用者能更了解有關數據。

《主要報告》共分兩冊:第一冊載列二零零六年中期人口統計結果的詳細分析及詮釋;而本冊(即第二冊)描述中期人口統計的設計,數據搜集方法,執行程序及技術。有關資料素質的評估亦載於第二冊內。

中期人口統計的結果已刊載於數份已出版的刊物內,當中並包括載有分區統計數字的報告書。另一本報合學的報告書。內載資料之一本報告的統計資料。此為大學的主題性報告的統計資料。此者、一系列有關人工等的的主題性報告亦將發表。二零零六年中期人口統計的刊物名稱已詳列於本報告的最後部分。

政府統計處處長 馮興宏

二零零七年十一月

The 2006 Population By-census was conducted in July to August 2006. The By-census provides a wealth of data on the socio-economic characteristics of the population in Hong Kong, thus allowing studies to be undertaken on various facets of the community.

This report provides an overview on how the 2006 Population By-census was conducted with detailed descriptions on various aspects from planning, to data collection, processing and dissemination. It supplements the other reports that contain findings of the 2006 Population By-census and it enables users to better understand the data.

The "Main Report" consists of two separate volumes: Volume I presents detailed analysis and interpretation of the results of the 2006 Population By-census, and this volume (i.e. Volume II) describes the design, data collection method, operation procedures and techniques of the By-census. An assessment of the data quality is also given in Volume II.

Results of the By-census are available in a number of publications, including reports containing statistics at district level, that have been released. Another report "Main Tables", which will be published shortly, contains detailed tables on the population, households and quarters in the whole territory and may be considered as a complement to this report. There are also a series of thematic reports on population sub-groups like youths, older persons, single parents etc. A list of the 2006 Population By-census publications is given at the end of this report.

1. Introduction

背景

- 1.1 根據慣例,自一九六一年起,香港每十年進行一次人口普查,並在兩次人口普查中間,進行一次中期人口統計。香港於二零零六年七月至八月期間進行了二零零六年中期人口統計。
- 1.3 爲提供更多最新的人口資料,在兩次人口普查中間會進行一次中九次年、在統計,故香港在一九六六年、中九八年年進行一九九六年年進行了中期人口統計並模不相有不同,中期人面大規模。至其中期人口統計資料。至其人口特徵的詳細資當的統計資料,則根據適當的統計資料,與推議適當的統計資料,與相樣調查結果推算而來料,其精確程度稍遜於人口普查。
- 1.4 二零零六年中期人口統計已於 二零零六年七月十五日至八月一日的十 八天期間進行。中期人口統計乃一抽樣 統計調查,用以搜集有關人口的廣泛社 會及經濟特徵資料。全港約十分之一的 屋宇單位被選中,而單位內所有住户均 爲訪問對象。

Background

- 1.1 It is an established practice from 1961 for Hong Kong to conduct a population census once every ten years and a by-census in the middle of the intercensal period. The 2006 Population By-census was conducted in July to August 2006.
- 1.2 Population censuses were conducted in 1961, 1971, 1981, 1991 and 2001. For both the 1961 and 1971 Censuses, the entire population was counted and enquired of their socio-economic characteristics. In the 1981, 1991 and 2001 Censuses, while a complete headcount of all persons and their age and sex information was collected, the detailed socio-economic characteristics of the population was conducted on the basis of a large sample. This design represents a more cost-effective approach.
- 1.3 In order that more up-to-date information on the population could be made available, a population by-census is also conducted in between two censuses. Thus, in 1966, 1976, 1986, 1996 and 2006 there were population by-censuses conducted. A by-census differs from a full census in not having a complete headcount of the population but simply enquiring on the detailed characteristics of the population on the basis of a large sample. The size and characteristics of the entire population are inferred from the sample results in accordance with appropriate statistical theory. As a result, the statistics obtained from a by-census may be slightly less precise than those from a census.
- 1.4 The 2006 Population By-census was conducted in the eighteen-day period from 15 July to 1 August 2006. It was a sample enquiry on a broad range of demographic and socio-economic characteristics of the population. About one-tenth of all quarters in Hong Kong were sampled and all households therein were included in the enquiry.

1.5 人口普查/中期人口統計搜集所得的資料,對政府在規劃和制訂政策至爲重要。小區人口資料是政府制訂地區發展和服務計劃的基礎;而詳細人口分組例如長者、單親家庭等的資料與可大大幫助政府策劃特定的福利政策和社會服務計劃。而最重要的是,人口數據系統中編製人口估計的基準資料。

1.6 編製人口數字的方法相當繁複,所需的資料來源亦很廣泛。其中,人口普查及中期人口統計系列的統計結果,是整個編製過程的根基。這些基準資料,加上透過其他行政系統(例如出生、死亡及出入境記錄)及抽樣統計調查(特別是持續性的綜合住戶統計調查)所得資料,編製而成的統計數據,連結成一個人口統計數據資料庫,供編製人口數字及其他眾多用途使用。

中期人口統計的時間

1.7 從一九八一年起的過往人口普查/中期人口統計都在該年的三月內進行資料搜集,爲期九至十三天。爲配合教師及學生參與人口普查/中期人口統計的外勤工作,及學校提供校舍作爲外勤工作站之用,會在有關資料搜集期間安排超過一星期的特別學校假期。

1.8 在審慎考慮有充足的臨時外勤工作人員供應、避免學校需要安排特別學校假期、天氣情況及工作成本等因素後,政府統計處決定在二零零六年七月十五日(星期六)至八月一日(星期二)的十八天內,進行二零零六年中期二人口統計。當中特別考慮到由於外勤工作五暑假進行,無須安排特別學校與作。此外,在決定外勤工作期方面

1.5 The information collected in population censuses/by censuses is vital to government planning and policy formulation. Data on small areas form the basis of district development and service planning programmes of the government, while comprehensive information on population sub-groups, such as the elderly and single parent families, facilitates the planning of welfare policy and social service programmes. Most important of all, results of the censuses/by-censuses are the benchmark data for the compilation of population estimates in the Population Data System.

1.6 The system for compiling population figures is complex and requires data from a wide variety of sources. The results of population censuses/by censuses form the corner stone of the system. These benchmark data are taken together with statistical data generated from administrative systems (such as births, deaths and passenger movement records) and sample surveys (in particular the continuous General Household Survey) to form a population statistical database which serves a multitude of purposes, including the compilation of population figures.

Timing of the By-census

1.7 In previous censuses/by-censuses since 1981, data collection was conducted in a 9 to 13-day period in March of the respective census/by-census years. Special school holidays lasting for more than a week were arranged to enable teachers and students to participate in the census/by-census fieldwork and school premises to be deployed as field centres.

1.8 The 2006 Population By-census was decided to be conducted during the 18 days from 15 July (Saturday) to 1 August (Tuesday) 2006 after due consideration of such factors as secure supply of temporary field workers, avoidance of the need for special school holidays, weather conditions and project cost. In particular, specially arranged school holiday was not required because the operation period fell in the summer vacation, thereby without causing any disruption to the normal school calendar and school

亦可有較大的彈性。相比以往人口普查 /中期人口統計的九至十三天外勤工作 期,二零零六年中期人口統計採用一個 較長的工作期,即十八天。由於外勤工 作期較長,每名統計員可訪問更多住 戶,所需的外勤工作人員便較少,這亦 可減少招聘、培訓及管理臨時外勤工作 人員所需的資源。

統計範圍

1.9 二零零六年中期人口統計採用「居住人口」方法,以涵蓋所有居港人口。政府統計處自二零零等年八月開始,採用了「居住人口」方法,來編製香港的人口估計。作出這個改動的原因,是「居住人口」概念在統計理論而言,較適用於計算一個地方的人口的香港人口居住和流動模式。

1.10 二零零六年中期人口統計的點 算時刻(即二零零六年七月十四日凌晨 三時)的居港人口包括「常住居民」和 「流動居民」。「常住居民」指以下兩類 人士:(一)在點算時刻前的六個月內, 在港逗留最少三個月,又或在點算時刻 後的六個月內,在港逗留最少三個月的 香港永久性居民,不論在點算時刻他們 是否身在香港;及(二)於點算時刻在 港的香港非永久性居民。 operation. Furthermore, there was greater flexibility in determining the duration of the field operation period. A longer field operation period of 18 days was adopted in the 2006 Population By-census, compared with 9 to 13 days in previous censuses/by-censuses. With more household visits made by each enumerator in a longer operation period, fewer enumerators were required. Resources required for recruitment, training and management of enumerators could also be reduced.

Coverage

1.9 The 2006 Population By-census covers the Hong Kong Resident Population under the "resident population" approach. The "resident population" approach has been adopted to compile the population estimates of Hong Kong since August 2000. Such change is effected in view of the greater relevance of the "resident population" concept from a statistical theory standpoint in measuring the population size of a place. It is considered particularly appropriate to do so to take account of the changing residency and mobility patterns of the Hong Kong population in recent years.

1.10 The Hong Kong Resident Population at the reference moment of the 2006 Population By-census (i.e. 3 a.m. on 14 July 2006) covers "Usual Residents" and "Mobile Residents". "Usual Residents" refer to two categories of people: (1) Hong Kong Permanent Residents who had stayed in Hong Kong for at least three months during the six months before or for at least three months during the six months after the reference moment, regardless of whether they were in Hong Kong or not at the reference moment; and (2) Hong Kong Non-permanent Residents who were in Hong Kong at the reference moment.

1.11 至於「流動居民」,則指在點算時刻前的六個月內,在港逗留最少一個月但少於三個月,或在點算時刻後的六個月內,在港逗留最少一個月但少於三個月的香港永久性居民,不論在點算時刻他們是否身在香港。

報告結構

- 1.12 本報告書共有八章,涵蓋二零零六年中期人口統計由策劃至數據發布等各方面。策劃的工作早於中期人口統計的的二零零三年已開展,第二章闡述二零零六年中期人口統計的策劃工作。
- 1.13 决定中期人口統計的內容並不 是一個簡單的過程。中期人口統計的數 據項目是經過廣泛的諮詢後才落實的。 有關的諮詢過程及選定數據項目的準則 載於第三章內。
- 1.14 統計員在中期人口統計期間共 訪問了 238 800 個住戶。問卷上搜集得的 數據經過一系列的電腦系統的處理後方 可進行分析及發布。第四章載列數據搜 集方法,外勤工作組織及程序、和數據 處理工作的詳情。
- 1.15 全港約十分一的屋宇單位經由 抽樣方法選出並對單位內所有住户進行 訪問。有關樣本的設計及估計程序在第 五章內有詳盡的描述。

1.11 As for "Mobile Residents", they are Hong Kong Permanent Residents who had stayed in Hong Kong for at least one month but less than three months during the six months before or for at least one month but less than three months during the six months after the reference moment, regardless of whether they were in Hong Kong or not at the reference moment.

Report Structure

- 1.12 This report consists of eight chapters, covering different aspects of the 2006 Population Bycensus from planning to data dissemination. Well before the By-census, planning had already started in 2003. A general account of the planning work for the 2006 Population By-census is given in Chapter 2.
- 1.13 Determination of the By-census contents is not a simple process. Wide consultations had been conducted before the data topics to be included in the By-census were finalised. Chapter 3 describes the consultation process and the factors considered in choosing the topics.
- 1.14 A total of 238 800 households were visited by the enumerators during the By-census period. Data collected on the questionnaires were processed through a number of computer systems before being analysed and disseminated. The data collection method, fieldwork organisation, operational procedures and data processing details are contained in Chapter 4.
- 1.15 About one-tenth of all quarters in Hong Kong were sampled and all households therein were included in the enquiry. Chapter 5 summarises the sample design and estimation procedures of the 2006 Population By-census.

1.16 二零零六年中期人口統計是一項規模大而複雜的工作。本處雖然已盡全力確保資料搜集、資料審核及處理各方面完善,並得出準確的結果,但統計資料仍有機會存在些微誤差。第六章評估中期人口統計所搜集數據的素質。

1.17 本報告書最後兩章(即第七及 第八章)提供中期人口統計內所有數據 項目及地理分區系統的分類、概念及定 義。這些資料令用者更了解統計數據, 以便決定及界定他/她們的數據的要求。

代號

1.18 本刊物內各代號的含意如下:

- 零

.. 不適用

N.A. 沒有數字

0.0 少於 0.05%

1.16 The 2006 Population By-census is a large scale and complex operation. Although every effort was made to ensure that the enumeration, data validation and processing were complete and the final results accurate, there remains a chance that some errors may still be found. Chapter 6 makes an assessment of the quality of data collected in the Bycensus.

1.17 The last two chapters (i.e. Chapters 7 and 8) in this report provide the classifications, concepts and definitions for all topics covered and on the geographical demarcation systems adopted in the Bycensus. Such information is important to users for a better understanding on the By-census data, in particular when determining and specifying their data requirements.

Symbols

1.18 The following symbols are used throughout the publication :

- Nil

.. Not applicable

N.A. Not available

0.0 Less than 0.05%

零的數字

1.19 本報告內以'·'代表零的數字。 不過,由於當中根據抽樣調查所作的估 算有抽樣誤差,所以零的數字可能是指 一個數值小的數字而非零。

數字的捨入

1.20 由於進位原因,統計表內個別項目的數字加起來可能與總數略有出入。

Nil Figures

1.19 Nil figures are indicated by '-' throughout this report. However, it should be noted that since estimates based on sample enquiry are subject to sampling error, a nil figure may mean a figure of a small magnitude but not zero.

Rounding of Figures

1.20 Owing to rounding, there may be a slight discrepancy between the sum of individual items and the total as shown in the tables.

2. Planning

中期人口統計辦事處

By-census Office

- 2.1 Preliminary planning 2006 for the Population By-census started in 2003. After taking into account the experience from the censuses/by-censuses, consulting users on the data topics for the By-census and making reference to the latest directions adopted in the population censuses of overseas countries/territories, the 2006 Population Bycensus Plan was drawn up in April 2004. summarised the proposals on the contents of the Bycensus questionnaire, the fieldwork operational procedures, data processing strategy and methods, staff requirements and the overall budget. The plan was considered by the Administration in May 2004.
- 2.2 A "2006 Population By-census Office" consisting of five different sections, was established in October 2004 to prepare for and carry out the 2006 Population By-census. The Census Planning Sections (1) and (2) were responsible for the overall planning and coordination of all statistical work and fieldwork related to the By-census operation. The Census Data Section was responsible for the design of the questionnaires and matters related to data processing and data dissemination. The Census Field Section was engaged in updating the registers of quarters and segments, organising fieldwork, training temporary and deploying field workers and supervising the enumeration. The Census Administrative Services Section was responsible for arranging accommodation, recruiting temporary staff and administering the accounts, stores and stationery, printing and publicity of the project.

統計調查設計

2.3 二零零六年中期人口統計包括 向全港約十分一住戶的成員搜集多方面 人口及社會經濟特徵的詳細抽樣訪問。

2.4 中期人口統計只採用了一種問卷(即長問卷)搜集所需資料。長問卷涵蓋年齡、性別、住戶類型和屋宇單位類型這些基本的問題,以及有關人口的社會和經濟特徵資料及住戶和屋宇單位特徵資料的詳細問題。訪問項目的詳情載於第三章「中期人口統計內容」內。附錄 II 載有這份問卷的參考版本。長問卷所搜集到的資料提供估算人口基本和詳細特徵的資料來源。

中期人口統計的法定地位

2.5 二零零六年中期人口統計是按照《普查及統計(2006 年人口普查)令》的規定而進行。該法令由行政章議根據香港法例第 316章管查及統計條例》第 9條制定。根據寫中國人士必須提供資料以填寫中級對可識別個別住戶或個別人士的資料的表格(即問卷),而本處料有個別人士或個別住戶資料的表格,亦銷額於二零零七年七月十四日或之前銷毀。

Survey Design

2.3 The 2006 Population By-census consisted of a detailed sample enquiry to about one-tenth of households in Hong Kong on a broad range of demographic and socio-economic characteristics of their household members.

2.4 The By-census used only one type of questionnaire, viz. the "Long form", for collecting the required information. The "Long form" covered basic questions on age, sex, type of household and type of quarters and detailed questions on the socioeconomic characteristics of the population and on the characteristics of households and quarters. Details on the topics of enquiry are given in Chapter 3 "Bycensus Content". Specimen of the questionnaire is given in Appendix II. The information collected in the "Long form" provided the source for compiling estimates on the basic and detailed characteristics of the population.

Legal Status of the By-census

2.5 The 2006 Population By-census was conducted under the Census and Statistics (2006 Population Census) Order, made by the Chief Executive in Council under section 9 of the Census and Statistics Ordinance (Laws of Hong Kong, Chapter 316). Under this Ordinance, persons specified to give information for the purpose of the By-census are obliged to supply information for completing the by-census schedule (i.e. questionnaire). The same Ordinance stipulates that their answers are to be treated in strict confidence and that no information relating to any identifiable person or household will be released. It is also stipulated that all completed schedules have to be destroyed not later than 14 July 2007.

個人資料的保障

2.6 二零零六年中期人口統計搜集 所得的資料會編製成統計數據,供發布 及分析研究之用。個別人士和個別住戶 的資料絕對不會洩露。

個別人士的姓名/用以識別的 2.7 稱號並沒有記錄在儲存中期人口統計結 果的電腦檔案內。記錄在問卷上個別人 士的姓名/用以識別的稱號乃自願提 供,因此所得的姓名/用以識別的稱號 一般都不完整(例如只有姓或名或英文 名),以方便在中期人口統計期間在有需 要跟進訪問或澄清資料時識別被訪者。 所有已填報的問卷、包含個人或個別住 戶和屋宇單位資料的電腦資料檔案,以 及一切有關外勤工作記錄的中期人口統 計文件,已於二零零七年六月二十五日 至七月五日期間在本處職員嚴密監督下 銷毀。爲進一步確保個人及個別住戶的 資料無法從詳細統計表內的統計數字推 斷得到,有關檔案的詳細地理編碼均在 編整數據庫時刪除。所有上述方法旨在 保障受訪者在二零零六年中期人口統計 中所提供的個人及個別住戶資料得以絕 對保密。此等嚴謹保密措施亦於以前的 人口普查及中期人口統計時應用。

Protection of Personal Data

2.6 All information collected in the 2006 Population By-census was used for compiling statistics for publication and analyses. No individual personal and household information would be divulged.

2.7 No information the names/ οn identifications of individuals was recorded in the computer files of the by-census results. names/identifications of individuals as recorded in the questionnaires were voluntarily provided by the Hence, the names/identifications respondents. provided were not always in full (i.e. in the form of last name, first name or Christian name), but the information was sufficient to facilitate identifying the right respondent in follow-up interviews clarifications during the operation period. completed questionnaires, computer data files containing data of individual persons, households and quarters and all related fieldwork documents for the by-census operation were destroyed during 25 June to 5 July 2007 under the close supervision of staff of this To further ensure that individual personal or household information cannot be deduced from statistics contained in very detailed tabulations, the detailed geographic codes of individual records were also removed in the formation of dataset for processing. All these measures serve to protect the confidentiality of personal and household information provided by respondents to the 2006 Population Bycensus. Indeed, these strict personal data protection measures were also applied in previous censuses/bycensuses.

抽樣框

2.8 在點算陸上人口(不包括特殊 類別人士)方面,中期人口統計採用的 抽樣框包括兩部分。已建設地區(包括 新市鎮) 備有永久性屋宇單位檔案,詳 列各單位的地址,以供辨別。每個地址 均是獨一無二的,分別載列門牌、街道 名稱、大廈名稱、層數及單位號數等資 料。該檔案貯存在電腦系統內,以便修 訂及檢索。這檔案系統稱爲「屋宇單位 檔案庫」,於一九八四/八五年設立, 以便進行一九八六年中期人口統計。及 後該檔案定期更新,更新工作是根據房 屋署及屋宇署等方面有關拆卸舊樓及興 建新樓的資料進行。至於未建設地區, 則備有「小區檔案庫」。每個小區包括 八至十五個屋宇單位,並按一些自然或 容易辨識的分界,如小溪、行人路、小 巷及溝渠來劃分。在進行二零零六年中 期人口統計前,本處通過實地考察,進 行了一次更新小區樣本工作,把小區分 界重新劃分,並確保各新劃定的小區包 括數目相若的屋字單位。

- 2.9 本處備有一個「數碼化地圖系統」以支援二零零六年中期人口統計及其他住戶統計調查的外勤工作。透過向統計員提供更準確及最新的地理資料,使用數碼化地圖有助提高資料的素質。此外,亦大大節省製作外勤工作所需地圖的人力。
- 2.10 在點算水上人口方面,本處依據水道及海岸目標物的方位,把避風塘及船隻停泊處劃分爲一些水上小區。每個水上小區包括約 60 艘船艇。水上小區抽樣框是依據二零零五年七月中從空中拍攝的本港水域內所有停泊處的照片而建立的。

Sampling Frame

2.8 The sampling frame for the land enumeration (excluding the special class enumeration) of the By-census consists of two parts. For the builtup areas (including new towns), there is a list of permanent quarters, each of which can be identified by an address. Each address is unique with details on the house number, street name, building name, floor number and flat number. The list is stored in computer system for easy updating and retrieval. It is known as the "Register of Quarters", which was set up in 1984/85 for the 1986 Population By-census and updated regularly afterwards. The updating is based on information on the demolition of old buildings and the construction of new buildings, which is available from various sources including the Housing Department and the Buildings Department. For the non-built-up areas, there is a list of area segments known as the "Register of Segments". Each segment contains some 8 to 15 quarters and is delineated by some physical or easily identifiable boundaries such as streams, footpaths, lanes and ditches. updating exercise for the sampled segments was also performed before the 2006 Population By-census through field verification. The segment boundaries were re-delineated maintaining that the number of quarters in each segment is more or less the same.

- 2.9 A Digital Mapping System was maintained to support the use of digital maps in the operation of the 2006 Population By-census as well as other household surveys. The use of digital maps helped improve data quality through providing enumerators with more accurate and up-to-date geographical data. The manual efforts spent in producing operation maps were also greatly reduced.
- 2.10 For marine enumeration, marine sections were delineated by dividing the typhoon shelters and anchorages into small sections by fairways/firelanes in waters and bearings to landmarks on the coast. Each marine section consisted of about 60 vessels. The marine section frame was constructed based on the aerial photos of all anchorages in Hong Kong waters taken in mid-July 2005.

測試性統計調查

2.11 本處於二零零五年七月十五日至八月十六日進行了一項測試性統計調查,以徹底測試二零零六年中期人口現為明認,有充足時間作出改為明試性統計調查範圍包括三個地區(油學)。測試性統計調查範圍包括三個地區(油學)。測試完成後,本處評估了問卷設計及運作上各個環節。所汲取的經驗對改進中期人口統計的很多方面運作十分重要。

Pilot Survey

2.11 A Pilot Survey was conducted to test thoroughly the various operational aspects of the 2006 Population By-census in advance so that any defects in the system can be identified and rectified in good time. The Pilot Survey was conduct during 15 July to 16 August 2005 and covered 3 600 quarters in 3 areas (Yau Tsim Mong, Sham Shui Po and Tai Po). The questionnaire design and all aspects of the operation were evaluated after the Pilot Survey. The experiences gained were essential for improving many aspects of the By-census operation.

2.12

Field Organisation

following hierarchy:

There were 29 regular field staff working

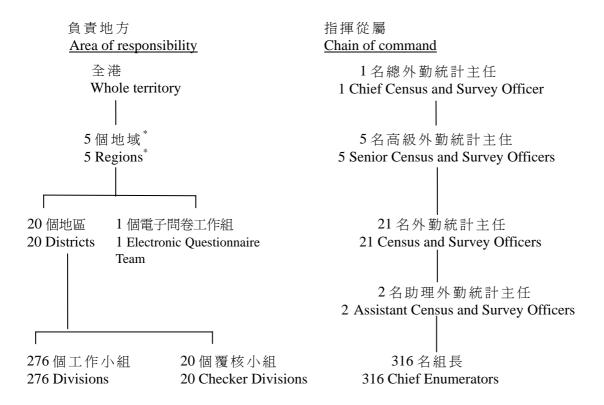

in the Census Field Section which was responsible for

planning and executing the By-census fieldwork.

The fieldwork was organised according to the

外勤統計工作組織架構

2.12 普查外勤統計組共有 29 個常設 外勤統計人員,負責策劃及執行中期人 口統計的外勤統計工作。外勤統計工作 的組織架構是按下列層級組成:

- * 五個地域是港島及離島、九龍東及西貢、九龍西及荃葵、新界西以及新界東。
- * The 5 regions were Hong Kong and Islands; Kowloon East and Sai Kung; Kowloon West and Tsuen Kwai; New Territories West; and New Territories East.

2.13 As illustrated above, the basic work unit was a division. A division responsible for enumeration comprised a chief enumerator, two assistance chief enumerators and enumerators. The chief enumerator was the head of a division. The assistant chief enumerators were responsible for editing completed questionnaires and assisting the chief enumerator to ensure proper completion of work. The enumerators had to visit all quarters in their assignment lists and conducted interviews to collect detailed information from all persons in all households found in the quarters. There was also an independent checker division in

2.14 每個地區皆設有工作站,站內平均有十五個小組。每個工作站亦設有五名工作站助理,負責操作工作站內的電腦系統。

招聘工作

2.15 臨時外勤工作人員都是專上學生和學校教師。外勤工作在二零零六年七月十五日至八月一日暑假期間進行,因此學校無需安排中期人口統計假期。

2.16 由二零零五年初起,本處開始 聯絡各專上院校,爲招聘專上學生作臨 時外勤工作人員作好準備。本處亦舉行 招聘講座,以喚起老師及學生的興趣, 積極參與中期人口統計。招聘期結束時 本處共接獲約81000份申請書。

訓練及甄選

2.17 本處會甄選申請擔任組長、助理組長及覆核員的人士,並邀請出席一個十一小時的訓練課程。其後他們須變與一項測驗,成績及格的才會被考慮聘用。統計員及工作站助理的訓練則分所階段進行。首先,經初步甄選的申請人會被邀請出席一個三小時的基礎訓練課程,並於訓練結束前參加一項簡短測驗;然後,合適的申請人會被甄選參加一個長達七小時的訓練課程。

each District responsible for the quality control work. The team comprised a chief enumerator and 6 checkers to conduct field checks to see if field visits had been completed and verify whether the information collected was accurate.

2.14 A field centre, which accommodated on average 15 divisions, was set up for each district. There were 5 centre assistants in each field centre who were responsible for operating the computer systems installed in the field centres.

Recruitment

2.15 All temporary field workers for the Bycensus were post-secondary students and school teachers. The fieldwork operation fell in summer vacation from 15 July to 1 August 2006 and arrangement for by-census holiday was therefore not required.

2.16 As from early 2005, liaison with post-secondary institutions started, paving the way towards the recruitment of post-secondary students as temporary field workers. Recruitment talks were launched to arouse the interest of teachers and students to participate in the By-census. By the end of the recruitment period, some 81 000 applications were received.

Training and Selection

2.17 Applicants for chief enumerator, assistant chief enumerator and checker were selected and invited to attend an eleven-hour training course. They had to pass a test administered at the end of the training before they were considered to be offered an appointment. On the other hand, the training of enumerators and centre assistants was conducted in two phases. First, selected applicants were invited to attend a three-hour introductory training course. After a short test administered at the end of the training, suitable applicants were selected to attend a training course lasted for seven hours.

- 2.19 本處採取了「培訓導師」的方法訓練獲聘的申請人。外勤統計組的外勤統計主任先訓練那些會受聘爲組長的教師;然後,接受過訓練的組長會訓練將受聘爲統計員的專上學生。外勤統計主任亦會直接訓練助理組長和覆核員。工作站助理則由統計主任訓練。
- 2.20 本處得到香港電台的協助,製作了一套十一集的訓練影片,以便劃一訓練。訓練課程並輔以標準化的訓練教案及習作。

- 2.18 Two factors had been considered in determining the number of applicants invited for training. On the one hand, the training cost would be higher if more applicants were trained. On the other hand, training more applicants would provide a larger reserve pool of temporary field workers to replace the drop-outs later. Balancing these two factors, about 8 300 applicants were invited for training. In selecting applicants for training, applicants were first categorised in priority groups based on objective criteria like past experiences in similar exercises. For applicants within the same priority group, their priorities were determined randomly.
- 2.19 A train-the-trainer approach was adopted to train the large number of applicants recruited. Census and Survey Officers of the Census Field Section first trained those teachers who would be recruited as chief enumerators. The trained chief enumerators in turn conducted training courses for post-secondary students who would become chief enumerators. **Training** for assistant enumerators and checkers were also conducted by the Census and Survey Officers whilst that for centre assistants was conducted by Statistical Officers.
- 2.20 In order to standardise the training, a set of 11 episodes of training film was produced with the assistance of Radio Television Hong Kong for the purpose. Standardised training manuals and exercises were also used in the courses.

學員正在接受訓練 Trainees were under training

2.21 在中期人口統計展開前,即二零零六年七月初,本處舉行複修課程,讓所有臨時外勤工作人員重溫訪問及點算方法,以及提醒他們重要的點算概念和工作方面的主要環節。

2.22 為更有效地與臨時外勤工作人員溝通,本處在二零零六年中期人口統計的互聯網網站上設立了一個網上告示板以通知工作人員最新的招聘及培訓資訊。同時,本處亦採用其他電子方式(如流動電話短訊及電郵)以加強與工作人員通訊的效率。

爲受訪者而設的服務

2.23 本處於二零零六年七月六日至 八月一日設立電話查詢中心。該中心每 日上午九時至晚上十一時運作以處理市 2.21 Refresher courses for all temporary field workers were held in early July 2006 shortly before the By-census operation. This helped temporary field workers review and recapitulate the methods of interviewing and enumeration and remind them the important concepts of enumeration and major aspects of the operation.

2.22 For more effective communication with the temporary field workers, an online notice board was set up on the Internet website of the 2006 Population By-census to inform the workers about the latest recruitment and training information. Also, other electronic means like mobile phone short message and email were adopted to enhance the efficiency of communication with the workers.

Services to Respondents

2.23 A telephone enquiry centre was set up from 6 July 2006 to 1 August 2006. The centre operated daily from 9 a.m. to 11 p.m. to handle enquiries from

民就二零零六年中期人口統計的查詢, 包括核實統計員身份、處理訪問預約及 回答一般查詢。

2.24 除了電話查詢中心外,本處亦 另設一條渠道供受訪者以電子化方式要 求預約訪問。受訪者可使用網上「要求 預約訪問服務」,透過互聯網自行新 增、更改、取消或查詢預約訪問要求, 而有關預約訪問要求的資料會轉交負責 的統計員跟進。

宣傳

2.25 二零零六年中期人口統計順利 進行,有賴市民合作提供所需的資料。 而受訪者提供準確的資料,更是確府報 大之事。因此,更是確府,更是政府統計處展所 大之事。因此,在政府統計處展所 大之事,以確保市民對二零, 大之事的重點包括加強市民對二零, 中期人口統計的關注、爭取資料 行、強調個人及個別住戶小心核計 的身分。主要的宣傳活動包括:

- (i) 舉行記者會;
- (ii) 向各區議會進行簡介;
- (iii) 在行人眾多地方張貼海報;
- (iv) 向各界人士派發宣傳信件、資料小冊子和便覽(對象包括互助委員會、業主立案法團及物業管理公司等);

the public on the 2006 Population By-census, including verifying identity of enumerators, handling appointments for interview and answering general enquiries.

2.24 In addition to the telephone enquiry centre, an additional channel was provided to respondents to request interview appointments via electronic mode. Respondents could use the online Appointment Request Service to make, change, cancel or enquire their appointment requests for interview over the Internet by themselves. Information on appointment requests was forwarded to the responsible enumerators for follow-up.

Publicity

2.25 Public cooperation in providing required information was vital to the smooth conduct of the 2006 Population By-census. Provision of accurate information by the public was an important factor in ensuring quality of the data collected. To this end, with the advice and assistance of the Information Services Department, a large-scale publicity programme comprising various activities was launched to secure the public cooperation. The main focuses of the publicity activities were to enhance public's awareness of the By-census, to solicit cooperation of the respondents, to emphasize the confidentiality of the information relating to individual persons and households, and to remind householders to check the identity of the enumerators. The major publicity activities included:

- (i) holding press conference;
- (ii) conducting briefings for the District Councils;
- (iii) putting up posters at popular spots;
- (iv) distributing publicity letters, information booklets and flyers to various parties (including mutual aid committees, owners' incorporations and property management companies);

(v) 接受傳播媒介訪問、播放電視 宣傳短片及電台宣傳聲帶和在 報章及交通工具刊登廣告;及

- (vi) 向學校進行宣傳,以增加中、 小學生對中期人口統計的認 識,所派發的宣傳資料包括教 室推廣活動教材、書籤和證件 套等。
- 2.26 宣傳工作在不同時間發揮不同 作用。例如,在二零零六年七月初,首 次推出中期人口統計海報,以及首次廣 播中期人口統計的政府宣傳,目的是通 知市民中期人口統計快將進行。中期人 口統計進行前和進行期間,在電視上播 放的政府宣傳片,則呼籲市民支持,並 提醒市民怎樣核實統計員的身分。爲確 保這些信息滲入社會各階層,宣傳計劃 透過多種媒介及方法進行,包括海報、 報紙廣告、地下鐵路及九廣鐵路車站及 車廂內的廣告、大型電視幕牆、電台及 電視的政府宣傳片、電視特別宣傳節目 及一項特別的教室推廣活動,以鼓勵學 生籲請其父母合作。

- (v) attending media interviews, broadcasting television and radio announcements and programmes, and placing advertisements in newspapers and transportation vehicles; and
- (vi) conducting schools publicity programmes to enhance the understanding of secondary and primary students on the By-census through the distribution of teaching kits, bookmarks, card holders etc.
- 2.26 At different times of the operation, the publicity work served different purposes. example, in early July 2006, the first By-census poster appeared and the first Announcement of Public Interest (API) was broadcast, both of which aimed at informing the public the coming of the By-census. Right before and during the operation, API on television solicited the support of the public and cautioned the public on how to check the identity of Census Officers. To ensure that the message permeated all sectors of the population, the publicity programme involved a wide range of media and methods. These included posters, newspaper advertisements, advertisements on MTR and KCR stations and train compartments, advertisements displayed at the big TV walls, APIs on radio and television, special publicity programme on television and a special promotion programme in schools which aimed at encouraging students to urge their parents to co-operate in the By-census.

大型電視幕牆正顯示有關二零零六年中期人口統計的廣告 Advertisement of the 2006 Population By-census displayed at big TV wall

2.27 此外,統計處亦設立二零零六年中期人口統計主題網站,以方便公眾人士於互聯網上取得有關二零零六年中期人口統計的資料。

2.28 所有居於有郵寄地址的屋宇單位的住戶,已預先獲書面通知有關中期人口統計的事宜。通知信亦列明到訪碼。計員的姓名及統計員身分證明書號不日之整,故此,有關的統計員於中期人住戶。整,故此,有關的統計員於中期人住戶的第一天將通知書送遞到這些住戶。此外,因大部分小區皆位於新界之時,不處亦發信給有關的鄉村代惠有關的作,及向村民傳遞有關信息。

2.27 A thematic website for the 2006 Population By-census was also set up for the public to access information about the 2006 Population By-census through the Internet.

2.28 All households living in quarters with postal addresses were notified in writing in advance of the By-census. The letter also gave the name and the Census Officer Certificate of Identity number of the Census Officer who would visit the household during the operation period. For temporary structures with incomplete addresses in segment areas, such notification letters were delivered to the households on the first day of the operation by relevant enumerators. Besides, as most of the segments were in villages in the New Territories, letters were sent to the concerned village representatives soliciting their support and co-operation and requesting them to relay the message to the residents.

2.29 本處向合作提供所需資料予中期人口統計的住戶派發磁石貼紀念品, 以示謝意。

2.29 As a token of appreciation, a magnetic sticker souvenir was distributed to household who cooperated in providing the required information to the By-census.

3. By-census Content

决定中期人口統計內容

- 3.1 在中期人口統計進行前,政府統計處於二零零三年三月廣泛諮詢各決策局、政府部門、主要機構及專上學院的有關學院/學系,有關中期人口統計的內容。統計督導委員會亦多次討論中期人口統計事項。
- 3.3 二零零三年九月,政府統計處 向各區議員諮詢中期人口統計事項。最 後,本處於二零零四年四月向立法會財 經事務委員會會議呈交「籌劃二零零六 年中期人口統計」諮詢文件,以供討 論。

考慮因素

- 3.4 在決定二零零六年中期人口統計所包括的數據項目時,本處主要考慮以下八個因素:
 - (i) 數據是否有用 有關數據應廣 泛被政府、研究人員及市民大 眾採用,針對某些特殊目標而 設的題目,不會包括在中期人

Determination of By-census Contents

- 3.1 Well before the By-census, extensive consultations on the By-census contents had been conducted in March 2003 with policy bureaux, government departments, prominent organisations and relevant faculties/departments in academic institutions. The Statistics Advisory Board also discussed the subject more than once.
- 3.2 Respondents to the consultation were first asked to indicate whether they would rate the topics covered in the 2001 Population Census as 'Essential', 'Desirable' or 'Not required'. Almost all topics in the 2001 Population Census were rated as 'Essential' or 'Desirable'. The respondents were also asked to suggest new topics for the By-census. Over 40 new topics were suggested by various respondents in the consultation exercise. Some of the topics suggested are "Hours of work", "Household structure like household with father/husband working", "Computer ownership and usage", "Whether in public housing waiting list" etc.
- 3.3 The consultation moved on to the District Council Members in September 2003. Finally, the consultation paper on "Plan for the 2006 Population By-census" was tabled for discussion at the meeting of the Panel on Financial Affairs of the Legislative Council in April 2004.

Factors Considered

- 3.4 In deciding the topics for the 2006 Population By-census, the following eight factors had been considered:
 - (i) Usefulness of data The data should be extensively used by government, researchers and the public. Hence topics which are for a very special purpose will

口統計內。

- (ii) 受訪者能否或是否願意作答一應包括受訪者能夠及願意提供足夠資料的項目。一些容易引起恐慌、帶岐視性質、被認爲侵犯私隱或一般受訪者不能提供正確答案的題目,都應避免。
- (iii) 題目容易爲統計員了解-無論 所發問的問題及有關答案,都 應爲一般統計員容易了解,而 無須爲這些題目提供長時間及 特殊的訓練。
- (iv) 是否有其他數據來源及資料搜集渠道 人口普查/中期人口統計的強項是能夠爲細小分區及特定人口分組提供可信的統計數據。可以從其他渠道有效地獲取資料的數據項目,不應包括在中期人口統計內。
- (v) 數據必須容易處理 考慮到成本效益及能及時發布結果,問題的答案必須能夠以簡單而成本低的程序處理。需要艱澀的編碼及數據審核的項目,都不是理想的項目。
- (vi) 與以往人口普查/中期人口統 計數據的可比性-盡量包括以 往人口普查及中期人口統計的 數據題目,方便分析轉變及趨 勢。
- (vii) 訪問需要在合理的時間內完 成-人口普查/中期人口統計 不應涵蓋太多問題,而問題亦

not be included in the By-census.

- (ii) Willingness and ability of the respondents to answer The topics should be such that the respondents will be willing and able to provide adequate information. Questions which are likely to arouse fear or prejudice, which may be regarded as intrusion into privacy and which are too difficult for the average respondents to answer accurately should be avoided.
- (iii) Ability of the enumerators to comprehend –

 The topics should be such that the average enumerators can easily comprehend both the questions and the answers without having undergone prolonged specialised training.
- (iv) Existence of other data source/data collection channel The strength of a population census/by-census lies in producing reliable statistics for small geographical areas and population subgroups. Topics for which the data can be obtained equally well or better from other sources/by other means should not be included in the By-census.
- (v) Processing efforts For cost efficiency and timeliness of results, answer to the questions must be amenable to data processing by simple and cheap procedures. Topics which call for laborious coding and editing are not favoured.
- (vi) Comparability of data with previous censuses/by-censuses – Previous topics should be maintained as far as possible for studying the direction and progress of changes.
- (vii) Keeping the interviewing time within reasonable length A population census/by-census cannot ask too many questions

不應太複雜和要求太多訪問提示; 只應包括一些簡單、直接 和探討事實的題目。

- (viii) 聯合國的建議及國際間的標準 聯合國的有關建議及國際間的標準,應盡量採納。

- or questions that require detailed probing. Only relatively simple, straight-forward fact-finding questions should be included.
- (viii) Recommendations of the United Nations and international practices The recommendations of the United Nations and international standards should be followed as far as possible.
- 3.5 It should be noted that the By-census is not an appropriate avenue for collecting data on special themes which require detailed and specialised questions to be asked. An example would be "Disability". As the questions often involve complex concepts and/or are sensitive in nature, they should only be handled by enumerators with considerable experience and relevant training. Since the By-census is an operation of a vast scale, involving thousands of enumerators, it is the universal practice that only the more "general" topics are tackled. Even if attempted, it cannot be expected that reliable data can be obtained for the special themes. A better alternative is to mount specialised, thematic surveys to collect such data.
- 3.6 Each topic suggested in the consultation exercises was carefully evaluated against these eight factors. For some of the suggested data items, they can actually be derived from other data items, e.g. "Household structure like household father/husband working" from "Economic activity status", "Type of household" and "Relationship to other members of the household". Some data items can also be obtained from other data sources or channels, e.g. "Hours of work" and "Whether in public housing waiting list" can be obtained from the General Household Survey and administrative records of the Housing Department respectively. For the rest of the suggested topics, they are related to specialised themes, which are more suitable for inclusion in the General Household Survey or other thematic surveys.

二零零六年中期人口統計數據項目

3.7 諮詢得來的每一個數據項目經過仔細評估後,本處制訂出一套二零零六年中期人口統計的數據項目。這些數據項目與二零零一年人口普查的相同。以下列出所包括的數據項目:

人口及社會特徵

出生年份和月份

性別

婚姻狀況

慣用語言

使用其他語言/方言的能力

國籍

種族

出生地點

教育特徵

就學情況

教育程度(最高就讀程度)

教育程度(最高完成程度)

修讀科目

上課地點

前卦上課地點的交通方式

內部遷移特徵

點算時刻身在何處

在港居住年期

五年前居住的地方

經濟特徵

經濟活動身分

行業

職業

是否有兼職

主要職業收入

兼職收入

其他現金收入(包括以現金形式收取 的租金)

Data Topics for the 2006 Population Bycensus

3.7 After assessing each topic in the consultation in detail, a list of topics for the 2006 Population By-census was drawn up. These topics were the same as those for the 2001 Population Census. They are as listed below:

Demographic and social characteristics

Year and month of birth

Sex

Marital status

Usual language

Ability to speak other languages/dialects

Nationality

Ethnicity

Place of birth

Educational characteristics

School attendance

Educational attainment (highest level attended)

Educational attainment (highest level completed)

Field of education

Place of study

Mode of transport to place of study

Internal migration characteristics

Whereabouts at reference moment

Duration of residence in Hong Kong

Place of residence 5 years ago

Economic characteristics

Economic activity status

Industry

Occupation

Whether having secondary employment

Earnings from main employment

Earnings from secondary employment

Other cash income (including cash income from rent)

工作地點

前卦工作地點的交通方式

房屋特徵

屋宇單位類型

居所類型

屋字單位住用情況

居所內廳房數目(包括客/飯廳、睡 房、其他房間、廚房、浴室/廁 所)

單位住戶數目(引申得出)

單位居住人數(引申得出)

居所租住權

租金(包括差餉、地租及管理費)

按揭供款或借貸還款

住戶特徵

住戶類型

是否住戶成員

與住戶其他成員的關係

住戶人數(引申得出)

住戶結構(引申得出)

住戶收入(引申得出)

3.8 自一九七一年人口普查以來各人口普查及中期人口統計所包括的數據項目,載列於附錄 I。

Place of work

Mode of transport to place of work

Housing characteristics

Type of quarters

Type of accommodation

Occupancy of quarters

Number of rooms in the residence (including living / dining rooms, bedrooms, other rooms, kitchens, bathrooms / toilets)

Number of households in quarters (derived)

Number of occupants in quarters (derived)

Tenure of accommodation

Rent (including rates, government rent and management fees)

Mortgage payment or loan repayment

Household characteristics

Type of household

Whether a member of the household

Relationship to other members of the household

Household size (derived)

Household composition (derived)

Household income (derived)

3.8 The topics included in past population censuses/by-censuses since 1971 are given in Appendix I for reference.

4. 資料搜集及處理

4. Data Collection and Processing

資料搜集

4.1 概括來說,二零零六年中期人口統計的資料是透過三項點算工作搜集所得:陸上人口、水上人口及特殊類別人士的點算工作。各項點算工作的詳情在下面逐一說明:

陸上人口點算

- 4.2 大部分的陸上人口點算採用了傳統的「面談訪問」方法,透過訪問搜集資料;統計員到訪工作分配表上的屋宇單位,利用長問卷訪問每個單位內所有住戶的成員。
- 4.3 在進行陸上點算工作時,所有 統計員須多次拜訪住戶,直至完成訪問 全部住戶成員。根據指引,統計員須於 不同日期和不同時間探訪同一個住戶, 以增加能跟住戶接觸的機會。另外,統 計員每次拜訪時,如未能接觸住戶,均 須留下通知信,要求戶主致電工作站預 約訪問。雖然設有這些措施,但在臨近 中期人口統計結束時仍餘下一些未能接 觸/沒有回應的個案。所以,二零零六 年八月一日上午,即中期人口統計的最 後一天,統計員留下自填問卷給所有未 能接觸/沒有回應的住戶,有關住戶須 於二零零六年八月十六日前填妥問卷, 寄回政府統計處。在 43 100 個未能接觸 /沒有回應的住戶中,約有 11 500 個住戶 (即 26.8%)填妥及寄回自填問卷。這些 填妥的自填問卷均用作估算所有未能接 觸/沒有回應人士的數目、年齡和性別 結構及地區分布。有關二零零六年中期 人口統計的點算結果載於下圖。有關未 能接觸/沒有回應個案的處理方法詳 情,請參看第五章。

Data Collection

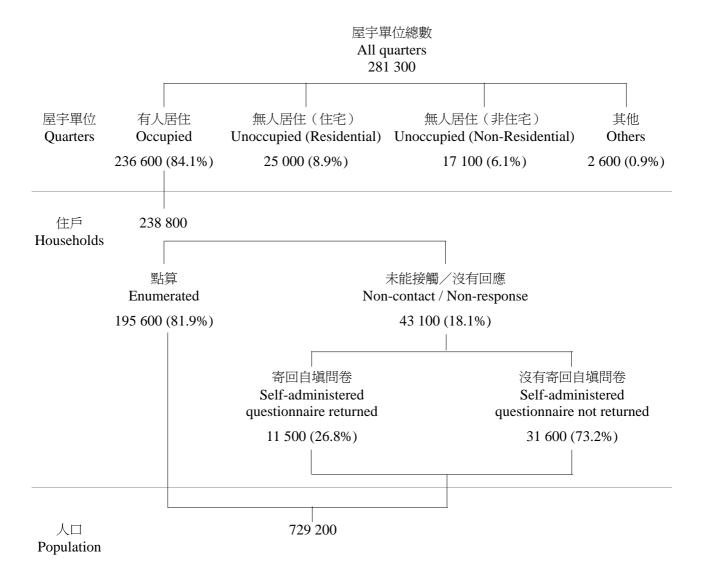

4.1 Broadly speaking, the 2006 Population Bycensus data were collected through three enumeration operations, viz. the land operation, the marine operation and the special class enumeration. Details on each type of operations are described below:

Land Enumeration

- 4.2 The traditional "Interviewer method" was adopted in data collection in most of the land enumeration. Enumerators visited the sampled quarters on their assignment list and enumerated persons living in all the households therein by using the "Long form" questionnaires (LF).
- 4.3 All enumerators in the land operation had to make repeated visits to each household until all members of the household were interviewed. They were instructed to visit a household at different times of a day and on different days so as to increase the chance of making contact with the household. Besides, for each visit in which a household could not be contacted, the enumerator had to leave a notification letter requesting the householders to call the field centre for making appointment. Despite all there these measures, were still some non-contact/non-response cases at the end of the operation. Therefore, in the morning of 1 August 2006 which was the last day of the By-census operation, a self-administered questionnaire (SAQ) was left with each of those non-contact/non-response households. They were asked to complete and return the SAQ by mail by 16 August 2006. Among the 43 100 non-contact/non-response households, some 11 500 (or 26.8%) households completed and returned These completed SAQs were then used to the SAO. estimate the number, age-sex structure geographical distribution of all the non-contact/

non-response persons. Enumeration results of the 2006 Population By-census are shown in the diagram below. For details on the treatment of non-contact/non-response cases, please refer to Chapter 5.

二零零六年中期人口統計的點算結果 Enumeration Results of the 2006 Population By-census

水上人口點算

4.4 水上人口點算工作亦採用「面談訪問」方法。一小隊統計員連同組長共乘一艘小船,在他們負責點算的水上小區內一起工作。組長派出統計員往水上小區內不同船艇進行訪問,而他則在船上監察整個水上小區的點算工作。組經點算的船艇會以紅色中期人口內的網點作識別,以確保在水上小區內的船艇在點算過程中不會重覆或遺漏。

Marine Enumeration

4.4 For the marine operation, enumeration was also conducted using the "Interviewer method". A small team of enumerators and the chief enumerator worked together on a small boat on the marine sections for which they were responsible. The chief enumerator supervised the overall enumeration of the whole marine section while enumerators were sent out to different vessels on the marine section to carry out their work. Each vessel enumerated was identified by a red By-census label to ensure that vessels within a section were neither duplicated nor omitted from the enumeration.

負責訪問水上人口的工作小組正準備出發工作 A division responsible for marine enumeration was preparing for their work

特殊類別人士的點算情況

4.5 本處作出特別安排,點算一些 其居住地方有出入限制或困難的「特殊 類別」人士,以便利有關工作。下面列 出這些「特殊類別」人士及其點算方 法:

Special Class Enumeration

4.5 For operational convenience, special arrangements had been made to enumerate some special groups of persons (called special classes) whose residence has restriction or difficulty of access. These special classes and the enumeration method for each of them are shown below:

特殊類別

Special class

(i) 精神科醫院、療養院及護養院的住 院病人

In-patients in psychiatric hospitals/infirmaries/ nursing homes

- (ii) 懲教機構的囚犯 Inmates in penal institutions
- (iii) 露宿者
 Street sleepers
- (iv) 在酒店/旅舍/賓館留宿的人士 Persons staying in hotels/guest houses
- (v) 遠洋輪船留宿的旅客 Passengers on board ocean going vessels

點算方法

Enumeration method

從院舍的行政記錄中抽取資料或透過特別 設計表格搜集資料

Information extracted from the administrative records or collected through a specially designed form from the institutions

從懲教署的行政記錄中抽取資料

Information extracted from the administrative records of the Correctional Services Department

從社會福利署的行政記錄中抽取資料 Information extracted from the administrative records of the Social Welfare Department

經酒店/旅舍/賓館的安排,由一般統計 員點算

Enumerated by ordinary enumerators with the arrangement of the management of hotels/guest houses

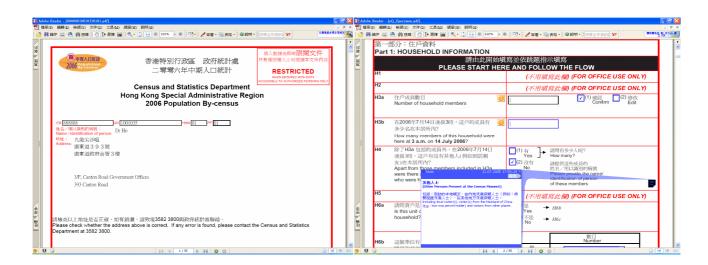

從入境事務處的行政紀錄取得有關人數 Simple head counts obtained from the administrative records of the Immigration Department

電子問卷

在二零零六年中期人口統計, 受訪者除可透過「面談訪問」方法外, 亦可選擇透過電子方法提供資料。受訪 住戶或受訪者若想利用「電子問卷」回 應,可以於外勤統計工作開始前,致電 到中期人口統計電話查詢中心登記,一 些基本的住戶和住戶成員資料會被記 錄,以便製成由不同密碼保護的個人 「電子問卷」。再由統計員將密碼信送 遞給已登記使用「電子問卷」的住戶, 受訪者便可利用特設的個人密碼在中期 人口統計的互聯網網站下載他/她們的 「電子問卷」,填妥後便可透過互聯網 傳送回二零零六年中期人口統計辦事 處。最後,約 4500 個住戶登記及完成 「電子問卷」,佔所有成功點算住戶約 百分之二。

Electronic Questionnaire

2006 Population By-census, 4.6 the In respondents were given an option to provide data through electronic means, in addition to through the "Interviewer method". Sampled households/ persons wishing to use the electronic questionnaires (e-Q) could call the telephone enquiry centre of the Bycensus Office for registration before commencement of the fieldwork. Some basic information of the household and its members was collected during the registration. Separate e-Q, protected by a unique password, was generated for each member of the Enumerators would then deliver the password letters to the registered households/persons. Using the password for each household member, respondent was able to download his/her e-Q from the By-census Internet website and return it after completion to the 2006 Population By-census Office through the Internet. Eventually, about 4500 households registered and completed the e-Q, accounting for about 2% of all successfully enumerated households.

二零零六年中期人口統計首次使用電子問卷

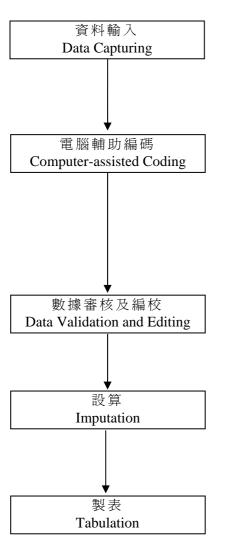

Electronic questionnaire was introduced in the 2006 Population By-census for the first time

數據輸入及處理

4.7 二零零六年中期人口統計的外勤工作於八月初完成後,共收回 283 500份長問卷(包括 4 500 份電子問卷)及11 900份自填問卷。雖然二零零六年中期人口統計只點算了約 238 800 個被抽中的住戶,但須處理的問卷有 295 400 份。這是由於擁有超過 6位成員的住戶,須使用多過一份問卷記錄他們的資料。此外,外勤工作人員亦須就無人居住的屋宇單位交回一份問卷,以作記錄。下圖簡單地描繪數據處理的程序。

Data Input and Processing

4.7 Enumeration of the 2006 Population Bycensus was completed in early August 2006. Altogether, 283 500 sets of LF (including 4 500 sets of e-Q) and 11 900 sets of SAQ were collected. Though only 238 800 sampled households were enumerated in the 2006 Population By-census, there were 295 400 questionnaires processed. This is because households with more than 6 members used more than one questionnaire to report their particulars. Also, questionnaires had to be completed for unoccupied quarters for record purpose. The data processing flow is illustrated briefly in the schematic diagram below:

- 問卷上的資料通過「智能字元識別」及「光學標記識別」技術直接輸入電腦
 - Information on the questionnaires was input into the computer directly using "Intelligent Character Recognition (ICR)" and "Optical Mark Recognition (OMR)" techniques.
- 部分問卷上的手寫答案,經資料輸入時掃描取得的電子 影像,配合編碼電子資料庫,可於電腦螢幕上直接進行 編碼

For some hand-written answers on the questionnaire, coding was performed directly on screen based on the clipped images of the long hand answers obtained through data capturing and the electronic data dictionary.

- 約 30 名編校員透過「數據審核及編校子系統」對未能通 過審核程序的數據進行聯機編校工作
 - Data rejected by validation rules in the "Data Validation and Editing Sub-system" were edited online by some 30 editors.
- 不同數據項目間的矛盾數值由設算電腦系統所算出的新 數值取代。

Inconsistent values between different data items were replaced by new values generated from the imputation computer system.

● 二零零六年中期人口統計的數據透過一個互動的製表系 統進行製表工作。

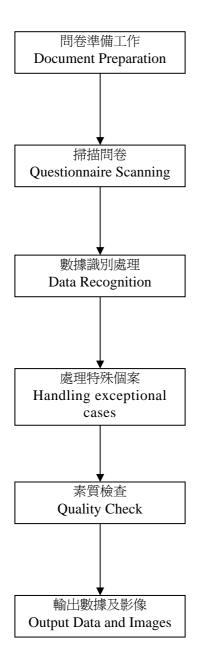

Tabulations on the 2006 Population By-census data were produced through a dynamic table generation system.

數據輸入

4.8 「智能字元識別」及「光學標記識別」技術應用於掃描所有問卷,然後將填在問卷上的數目字及標記轉化成電腦可讀的數據。下圖展示整個數據輸入的程序:

Data Capturing

4.8 The "Intelligent Character Recognition (ICR)" and "Optical Mark Recognition (OMR)" techniques were employed to scan all questionnaires and automatically convert the "numbers" and "marks" recorded on the questionnaires into computer readable data. The diagram below presents the whole data capturing process:

- 檢查問卷是否適合進行掃描 Checking the condition of questionnaires before scanning
- 將問卷冊切割爲 A4 散頁 Cutting the questionnaire booklet into A4 size loose sheet
- 利用高速掃描器掃描問卷
 Scanning questionnaires by high speed scanners
- 利用「智能字元識別」及「光學標記識別」技術將 掃描影像轉化爲電腦可讀數據 Converting scanned images into computer readable data using ICR/OMR techniques
- 人手輸入未能爲「智能字元識別」及「光學標記識別」辨認的影像 Manual data entry of unrecognized "ICR/OMR" images
- 抽查一個 2% 樣本檢查數據是否準確 Selecting a 2% sample to check the data accuracy
- 輸出數據及影像進行電腦輔助編碼、審核及分析 Outputting data and images for computer-assisted coding, data validation and analysis

4.9 由於有先進的掃描及數據識別技術,負責數據輸入工作的承辦商動用了三台高速掃描器及二十部電腦便能於一個半月內完成數據輸入工作。每個工作天的工作時間爲早上八時至晚上八時。平均每天處理 8 000 份問卷(相當於 96 000 張 A4 紙)。

4.9 With the advancement of scanning and data recognition technologies, 3 high speed scanners together with 20 computers were deployed by the data capturing contractor to complete the data capturing work within one and a half months' time. The production hours ran from 8:00 a.m. to 8:00 p.m. each working day. On average, 8 000 questionnaires (equivalent to 96 000 sheets of A4 paper) were processed everyday.

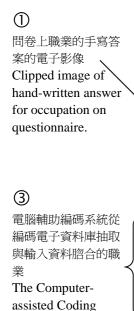

操作人員正利用高速掃描器掃描中期人口統計問卷 By-census questionnaires were being scanned by the high speed scanner

電腦輔助編碼

4.10 部分問卷上的手寫答案(包括 行業、職業、五年前居住的地方、上課 地點及工作地點),在資料輸入時會經 掃描轉化爲電子影像。編碼員可於電腦 螢幕上透過有關影像及編碼電子資料 庫,直接進行編碼,而無須翻查問卷及 有關的編碼手冊。下圖顯示職業的電腦 輔助編碼過程。

Computer-assisted Coding

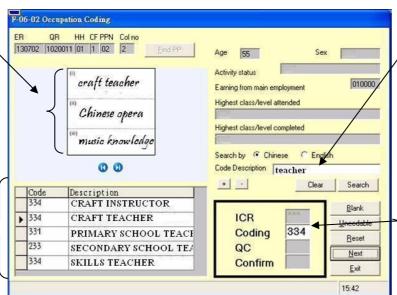

4.10 For some hand-written answers (including industry, occupation, place of residence 5 years ago, place of study and place of work) on the questionnaires, the images of the answers were clipped during the scanning process. Coding was performed on screen directly making use of the images and the electronic data dictionary instead of flipping through the questionnaires and the related coding manuals. The diagram below demonstrates how the coding for "Occupation" was performed through computer-assisted coding.

System extracted

input information from the electronic data dictionary.

relevant occupations matched with the

編碼員根據電子影像輸入部分職業資料 According to the clipped image, coder inputs part of the occupation information.

(4)

(2)

職業編碼(當編碼員 選取了一個正確的職 業後,系統會立即顯 示該職業的編碼) Assign occupation code (the system will display the occupation code when a correct occupation is selected).

數據審核及編校

4.11 經過資料輸入及電腦輔助編碼 後,約 30名編校員透過「數據審核及編 校子系統」進行聯機編校工作。這子 統包含 114條建基於過往人口普查/中期 人口統計及綜合住戶統計調查的審核準 則,以查驗不同數據項目的數值是否的 在錯誤及/或不合邏輯的地方。例如十 二歲女子報稱已婚及有一名三歲女兒, 編校員會翻查問卷,檢視年歲資料,以 作出所需更正。

Data Validation and Editing

After 4.11 the data capturing and computer-assisted coding, online editing work was performed by some 30 editors using the "Data Validation and Editing Sub-system". This subsystem contained 114 rules established based on editing rules of previous censuses/by-censuses and the General Household Survey for identifying errors and/or inconsistencies between the values of different data items. For example, if there was a 12-year old female reported to be married and with a 3-year old daughter, the editor would go through questionnaire and check the age information to see whether amendment is required.

編校員正進行聯機編校工作 An editor was performing online editing work

設算

4.12 設算階段首先分辨那些不同數據項目的數值間的矛盾情形,而這些矛盾不能利用人手更正。電腦自動根據一些設算準則的邏輯和算法所算出的新數值取替這些矛盾的數值。

製表

Imputation

4.12 The imputation stage first involved identifying those inconsistencies between the values of different data items which could not be corrected manually. The inconsistent values would then be replaced automatically by new values generated by the computer in accordance with the logic and algorithm of some prescribed imputation rules.

Tabulation

4.13 Tabulations of the 2006 Population Bycensus data were produced via a menu-driven dynamic system specially designed for generating statistical tables. The tabulations were produced by phase following a schedule which was worked out with reference to the publication time table, need of users and the complexity of the tables involved. There are two major categories of tabulations, viz. "Basic Tabulations" and "Core Tabulations". "Basic Tabulations" are some basic statistics the public are interested in; and "Core Tabulations" are tables which cover a broad range of socio-economic demographic characteristics of the population by geographical areas. These tabulations have been put on the thematic website for the By-census by phases for free download by users via the Internet.

5. 抽樣設計及估計方法

5. Sample Design and Estimation

5.1 統計處在二零零六年中期人口統計中,使用抽樣方法抽選全港約十分之一的屋宇單位,訪問單位內所有住戶以搜集有關人口及其社會和經濟特徵等詳盡資料。除一九六一年及一九七一年人口普查外,本處在一九六六年、一九七六年、一九八六年及一九九六年的中期人口統計及一九八一年、一九九一年及二零零一年的人口普查,均採用抽樣方法,搜集詳細資料。

抽樣單位

5.2 個人是訪問的基本單位。但在抽取樣本時,已建設地區及特殊類別是以屋字單位作爲抽樣單位,未建設地區則以「小區」作爲抽樣單位。有關二零零六年中期人口統計的抽樣框詳情,請參閱第二章。

樣本設計

5.3 在擬定抽樣設計時,成本、精確度、運作需求及實際可行性均予以適當考慮。詳細訪問的樣本的大小是以點算成本及要求的準確程度來決定。理論上,樣本愈大,抽樣誤差愈小,但成本則較高。一九八一年、一九九一年及二零零一年人口普查,以及一九八六年及一九六年中期人口統計結果的分析提供了不同大小樣本的準確程度資料。

5.1 In the 2006 Population By-census, sampling was used for the conduct of a detailed enquiry on a broad range of demographic, social and economic characteristics of the population. About one-tenth of all quarters in Hong Kong were sampled and all households therein were included in the enquiry. Except for the 1961 and 1971 Population Censuses, sampling was also adopted in the 1966, 1976, 1986 and 1996 Population By-censuses, and the 1981, 1991 and 2001 Population Censuses in connection with the enquiry of detailed characteristics of the population.

Sampling Unit

5.2 A person was the fundamental unit of enquiry. However, for sample selection, the sampling unit was basically a unit of quarters in the built-up areas and for special classes; and an "area segment" in the non-built-up areas. For more details on the sampling frames for the 2006 Population Bycensus, please refer to Chapter 2.

Sample Design

5.3 In determining the sample design, due consideration was given to cost, precision, operational implications and practical feasibility. The size of the sample depended on the cost of enumeration and the level of precision required. Theoretically, the larger the sample, the smaller would be the sampling error but the cost would be higher. Analysis of the results of the 1981, 1991 and 2001 Population Censuses, and the 1986 and 1996 Population By-censuses gave an indication of precision levels pertaining to different sample sizes.

- 5.4 爲使細小地區的統計數字更精 確,樣本設計採用了非劃一的抽樣比 率。本處從抽樣框抽選了一個非比例分 層等距樣本 (disproportionate stratified systematic sample)。除整體抽樣比例維持 在十分之一,在較細小的分層採用較大 的抽樣比率。陸上人口方面,分層方法 依據兩項因素來劃分。第一項分層有三 個部分:已建設地區、未建設地區和特 殊類別。第二項包括了 400 個分層,每 個分層爲一個區議會選區。分層抽樣方 法, 在特定的樣本規模下, 有助提高統 計結果的準確程度,並可提供按選區劃 分的充分準確估計數字,以方便地區管 理及規劃。
- 5.5 在已建設地區內,各個選區的抽樣比率由十分之一至全面點算不等。
- 5.6 至於未建設地區這分層,則以 小區爲抽樣單位。各個選區的抽樣比率 由十五分之一至全面點算不等。
- 5.7 對於特殊類別,本處一般採用全面點算而非抽樣統計,以簡化工作程序。但是,長期居住於酒店或賓館的賓客,則以五分之一的系統抽樣方法進行。
- 5.8 至於水上人口點算,則以全部水上小區的五分之一的抽樣比率選出船 艇進行統計。

- 5.4 In order that more precise estimates of small area statistics could be made, a sample design involving non-uniform sampling fractions was adopted. A disproportionate stratified systematic sample was drawn for enumeration. While maintaining an overall sampling fraction of one-inten, higher sampling fractions were adopted in smaller strata. For land population, stratification was based on two factors. The first stratification factor had three strata, viz. built-up areas, non-built-up areas and special classes. The second stratification factor had 400 strata, each referring to a District Council Constituency Area (CA). The stratification helps improve precision of the sample estimates and provides sufficiently precise estimates at the CA level for district administration and planning.
- 5.5 In the built-up areas, sampling fractions ranging from one-in-ten to full enumeration were adopted for different CAs.
- 5.6 In the stratum of quarters in non-built-up areas, area segment was used as the sampling unit. Sampling fractions ranging from one-in-fifteen to full enumeration were adopted for different CAs.
- 5.7 For the special classes, full enumeration was generally adopted to simplify the operation. However, in the case of long staying guests in hotels or guest houses, a one-in-five systematic sample was drawn.
- 5.8 For the marine population, an overall sampling fraction of one-in-five marine sections was applied for enumerating marine vessels.

估計程序

5.9 在匯總及分析原始數據前,執 行了以下兩項估計程序。

未能接觸個案的處理方法

- 5.10 根據有關法例,被抽選屋宇單位內的住戶中所有人士均須回答中期人口統計問題,遺漏資料與未能接觸個案有關。若統計員在中期人口統計期間於不同日期、時間探訪某住戶超過四次,仍未能接觸但案。空置屋宇單位不當作未能接觸個案的比率佔屋宇單位總數的15.1%。
- 5.11 對每個未能接觸的住戶,統計 員均會留下一份自填問卷給住戶填寫。 户主須於二零零六年八月十六日前,把 填妥的自填問卷寄回中期人口統計辦事 處。爲鼓勵住戶回覆,自填問卷只包括 簡單點算的問題。截至收回自填問卷的 指定日期, 共收回 11500份自填問卷, 佔所有留下的自填問卷的 26.8%。這些 寄回的自填問卷會按選區收集起來。每 份收回的自填問卷附上一個加權因子, 以估計該地區沒有交回自填問卷的住戶 內有關人口的年齡、性別及一些基本特 徵。若於選區 i 內,已發出的 D_i 份自填 問卷中有 R: 份收回,每份收回的自填問 卷便附上一個 D_i/R_i 的加權因子。
- 5.12 由於自塡問卷只包括一些基本問題,有關這些住戶的其他資料項目須由設算獲得。欠缺的項目是以「熱層」(hot-deck)的方法設算。利用自塡問卷上的數據與欠缺的相關變數資料,把收回自塡問卷分類爲不同的設算組別。在每個設算組別中,自塡問卷及受訪者問卷會根據地區次序排順及按次序處理。

Estimation Procedures

5.9 Two estimation procedures were executed before the raw data were tabulated and analyzed. These are described below.

Treatment of Non-contact Cases

- 5.10 By law, every person in households of the sampled quarters had to respond to the By-census questions. Missing information was related to noncontact cases. A household was classified as a noncontact case only if an enumerator had visited it for more than four times at different times on different days during the By-census period. Vacant quarters were not classified as non-contact cases. The noncontact rate was 15.1% of all quarters covered in the By-census operation.
- 5.11 For each non-contact household, a selfadministered questionnaire (SAQ) was left for the householder to complete. The householder was requested to mail back the completed SAQ to the Bycensus Office by 16 August 2006. To encourage response, the SAQ only contained some basic questions. After the prescribed period allowed for receiving SAQs, 11 500 SAQs were returned, amounting to 26.8% of all SAQs issued. returned SAQs were then grouped by CA. weighting factor was attached to each returned SAQ for grossing up the age, sex and some basic characteristics of the population in those non-contact households in that area which did not return SAQs. This meant that every returned SAQ in CA_i was given a weight of D_i/R_i if out of D_i SAQs despatched, R_i were returned.
- 5.12 As the SAQ contained only some basic questions, the remaining data items in the By-census questionnaire had to be imputed for those households who had returned SAQs. The "hot-deck" method was used for imputation. Information on the variables in the SAQ which correlated with the missing items was used to stratify returned SAQs into imputation classes. For each imputation class, the

在同一個設算組別中,受訪者問卷中的 數值會有系統地按次序被配爲自填問卷 中欠缺數據項目的設算值。

根據抽樣調查的估算方法

5.13 估算程序涉及以倍大因子(grossing-up factor)將所有記錄倍大至總體。倍大因子爲抽樣比率的倒數。這方法可根據樣本估算人口、住戶及屋字單位的參數。對於數目變數,匯總所有記錄的倍大因子會得出人口總數的估計。兩個變數的比率是以該兩個總數的比率估計的。

5.14 估算的倍大因子一般不一定是整數。若把這些因子直接運用於倍大過程,估算數字將包括小數。這問題不能以進位方式解決,否則會使不同統計,引用了兩個整數的倍大因子:「因子a」及「因子a+1」,「a」是因子 N/n,即抽樣比率的倒數的完整部分。這些因子隨機編配在抽樣調查中的個別記錄,而其比例使它們的總和與總數 N 一致。

標準誤差的估算方法

5.15 在估算標準誤差時,假設了一個簡單的隨機模型;亦即是指在抽樣框內,抽樣單位是隨機排列的,因此可採用簡單隨機抽樣的計算公式。

SAQs and the respondents' questionnaires were sorted by geographical area and treated sequentially. The value from the respondents' questionnaires in the same imputation class would then be assigned as the imputed value for the missing data item in SAQ systematically.

Estimation Based on Sample Enquiry

5.13 The estimation procedure involved grossing up of all response records by the grossing-up factors which were the reciprocals of the sampling The method was used to estimate fractions. parameters of population, households and quarters based on the sample. For count variables, aggregation of the grossing-up factors of all records would give an estimate of the population total. Ratios of two variables were estimated by taking the ratio of the two corresponding aggregated totals.

5.14 The grossing-up factors for estimation were usually not integers. If they were straightly applied in the grossing-up process, the estimates would contain fractions. This problem could not be overcome by rounding as it would lead to inconsistency of statistics among different crosstabulations. To overcome the problem, two integral grossing-up factors were introduced, viz. "Factor a" and "Factor a+1", where "a" was the integral part of the factor N/n, the reciprocal of sampling fraction. These factors were randomly assigned to individual records in such a proportion that their sum coincided with the required total N.

Estimation of Standard Errors

5.15 In estimating the standard errors, a simple random model was assumed, i.e. sampling units were randomly ordered in the frame. Hence, formulae for simple random sample were adopted.

5.16 估算過程中運用了不同的方法,這取決於變數是數目變數或兩個變數的比率,以及變數是否涉及已建設地區、未建設地區、特殊類別或水上小區。

樣本估算公式

5.17 以下載列估計樣本數值及其標準誤差的詳細公式。雖然這些公式只描述人口特徵的樣本估算數字,但它們亦適用於計算有關住戶及屋宇單位特徵的樣本估算。

5.16 Different estimators were used in the estimation process, depending on whether the variables were count totals or ratios of two variables, and whether the variables referred to built-up areas, non-built-up areas, special classes or marine sections.

Sample Estimation Formulae

5.17 Detailed estimation formulae for the sample estimates and the standard errors are given below. While this set of formulae confines to sample estimates of population characteristics only, they are also applicable to sample estimates for household and quarters characteristics.

(A) 數目變數

For count variables

(i) 已建設地區

For built-up areas

假設 4 : 屋宇單位的分層總數目

Let L_p : Total number of strata of quarters

 N_h : h 分層內的屋宇單位總數

 N_h : Total number of quarters in stratum h (h = 1, 2, ..., Lp)

 n_h : h 分層內被抽選屋宇單位數目

 n_h : Number of sampled quarters in stratum h

 y_{hi} : h 分層第 i 個被抽選屋字單位內有 Y 特徵人口的數目

 y_{hi} : Sample count of population having characteristic Y in the ith sampled quarters

in stratum h

 \hat{Y}_h : 估計 h 分層內有 Y 特徵人口的總數

 Y_h : Estimated population total having characteristic Y in stratum h

 Y_n :估計有Y特徵人口的總數

 Y_p : Estimated population total having characteristic Y

有Y特徵人口的總數, Y_p 的估算程式是

The population total having characteristic Y, Y_p is estimated by

$$\hat{Y}_p = \sum_{h=1}^{L_p} \hat{Y}_h = \sum_{h=1}^{L_p} \frac{N_h}{n_h} \sum_{i=1}^{n_h} y_{hi}$$

其方差爲

$$\operatorname{var}(\hat{Y}_{p}) = \sum_{h=1}^{L_{p}} \operatorname{var}(\hat{Y}_{h}) = \sum_{h=1}^{L_{p}} N_{h}^{2} \frac{(1-f_{h})}{n_{h}} \frac{1}{n_{h}-1} \sum_{i=1}^{n_{h}} (y_{hi} - \overline{y}_{h})^{2}$$

(ii) 未建設地區

For non-built-up areas

假設 L_s : 小區的分層總數目

Let L_s : Total number of strata of area segments

 N_h : h 分層內的小區數目 (h=1,2,....L_s)

 N_h : Total number of segments in stratum h (h = 1, 2, ..., L_s)

 n_h : h 分層內被抽選小區的數目

 n_h : Number of sampled segments in stratum h

 M_{hi} : h 分層第 i 個被抽選小區內的屋宇單位總數

 M_{hi} : Total number of quarters in the ith sampled segment in stratum h

y_{hii} : h 分層第 i 個被抽選小區的第 j 個屋宇單位內有 Y 特徵人口的數目

 y_{hij} : Sample count of population having characteristic Y in the jth quarters of the ith sampled segment in stratum h

 y_{hi} : h 分層第 i 個被抽選小區內有 Y 特徵人口的總數

 y_{hi} : Total sample count of population having characteristic Y in the ith sampled segment in stratum h

 $\stackrel{\wedge}{Y_h}$: 估計 h 分層內有 Y 特徵人口的總數

 \dot{Y}_h : Estimated population total having characteristic Y in stratum h

Ŷ : 估計有 Y 特徴人口的總數

 Y_s : Estimated population total having characteristic Y

有 Y 特徵人口的總數, Y_s的估算程式是

The population total having characteristic Y, Y_s is estimated by

$$\hat{Y}_s = \sum_{h=1}^{L_s} \hat{Y}_h = \sum_{h=1}^{L_s} \frac{N_h}{n_h} \sum_{i=1}^{n_h} y_{hi} = \sum_{h=1}^{L_s} \frac{N_h}{n_h} \sum_{i=1}^{n_h} \sum_{i=1}^{M_{hi}} y_{hij}$$

其方差爲

$$\operatorname{var}\left(\hat{Y}_{s}\right) = \sum_{h=1}^{L_{s}} \operatorname{var}\left(\hat{Y}_{h}\right) = \sum_{h=1}^{L_{s}} N_{h}^{2} \frac{\left(1 - f_{h}\right)}{n_{h}} \frac{1}{n_{h} - 1} \sum_{i=1}^{n_{h}} \left(y_{hi} - \overline{y}_{h}\right)^{2}$$

至於 where
$$f_h = \frac{n_h}{N_h}$$
 and $y_h = \frac{1}{n_h} \sum_{i=1}^{n_h} y_{hi}$

(iii) 特殊類別

For special classes

假設 L_c : 分層總數目

Let L_c : Total number of strata

 N_h : h 分層內的屋宇單位總數 (h = 1, 2, L_c)

 N_h : Total number of quarters in stratum h (h = 1, 2, ..., L_c)

 n_h : h 分層內被抽選屋宇單位的數目

 n_h : Number of sampled quarters in stratum h

 y_{hi} : h 分層第 i 個被抽選屋字單位內有 Y 特徵人口的數目

 y_{hi} : Sample count of population having characteristic Y in the ith sampled quarters

in stratum h

 $\stackrel{\hat{Y}_h}{}$: 估計 h 分層內有 Y 特徵人口的總數

 Y_h : Estimated population total having characteristic Y in stratum h

 $\stackrel{\widehat{Y}}{C}$: 估計有 Y 特徵人口的總數

Estimated population total having characteristic Y

有Y特徵人口的總數, Y_c 的估算程式是

The population total having characteristic Y, Y_c is estimated by

$$\hat{Y}_c = \sum_{h=1}^{L_c} \hat{Y}_h = \sum_{h=1}^{L_c} \frac{N_h}{n_h} \sum_{i=1}^{n_h} y_{hi}$$

其方差爲

$$\operatorname{var}\left(\hat{Y}_{c}\right) = \sum_{h=1}^{L_{c}} \operatorname{var}\left(\hat{Y}_{h}\right) = \sum_{h=1}^{L_{c}} N_{h}^{2} \frac{(1-f_{h})}{n_{h}} \frac{1}{n_{h}-1} \sum_{i=1}^{n_{h}} (y_{hi} - \overline{y}_{h})^{2}$$

至於
$$f_h = \frac{n_h}{N_h}$$
 及 $\frac{1}{y_h} = \frac{1}{n_h} \sum_{i=1}^{n_h} y_{hi}$

(iv) 水上人口

For marine population

假設 L_m :水上小區的分層總數目

Let L_m : Total number of strata of marine sections

 N_h : h 分層內的水上小區總數 (h=1,2,....L_m)

 N_h : Total number of marine sections in stratum h (h = 1, 2, ..., L_m)

 n_h : h 分層內被抽選水上小區的數目

 n_h : Number of sampled marine sections in stratum h

 Z_{hi} : h 分層第 i 個水上小區內被點算船艇的數目

 z_{hi} : Number of vessels enumerated in the ith sampled marine section in stratum h

 z_h : h 分層內被點算船艇的總數

 z_h : Total number of vessels enumerated in stratum h

 Z_h : 在二零零六年七月從空中拍攝的照片所得 h 分層內船艇的總數 Z_h : Total count of vessels in stratum h from aerial photos taken in July 2006

 y_{hi} : h 分層第 i 個被 抽 選 水上小區內有 Y 特徵人口的數目

 y_{hi} : Sample count of population having characteristic Y in the ith sampled marine section in stratum h

 y_h : h 分層內有 Y 特徵人口的總數

 y_h : Total sample count of population having characteristic Y in stratum h

 Y_h : 估計 h 分層內有 Y 特徵人口的總數

 Y_h : Estimated population total having characteristic Y in stratum h

 Y_m : 估計有Y特徵人口的總數

 Y_m : Estimated population total having of characteristic Y

根據在二零零六年七月從空中拍攝的照片,可找出在每一分層內的船艇數目,作爲估算有關變數時的控制總數。水上人口中有 Y 特徵人口的總數, Y_m 的估算程式是

Based on aerial photos taken in July 2006, photo count of vessels in each stratum was used as control variable in the estimation. The marine population total having characteristic Y, Y_m is estimated by

其方差爲

With variance

$$\operatorname{var}\left(\hat{Y}_{m}\right) = \sum_{h=1}^{L_{m}} \operatorname{var}\left(\hat{Y}_{h}\right) = \sum_{h=1}^{L_{m}} \frac{N_{h}^{2}(1-f_{h})}{n_{h}(n_{h}-1)} \sum_{i=1}^{n_{h}} (y_{hi} - r_{h}z_{hi})^{2}$$

至於
$$f_h = \frac{n_h}{N_h}$$

(v) 整體數目

Overall counts

假設 Y 是整體人口中有 Y 特徵人口的總數 Let Y be the overall population total having characteristic Y

而 Then
$$Y = Y_p + Y_s + Y_c + Y_m$$
 的估算程式是 $\hat{Y} = \hat{Y}_p + \hat{Y}_s + \hat{Y}_c + \hat{Y}_m$ is estimated by

其方差爲
$$\operatorname{var}(\hat{Y}) = \operatorname{var}(\hat{Y}_p) + \operatorname{var}(\hat{Y}_s) + \operatorname{var}(\hat{Y}_c) + \operatorname{var}(\hat{Y}_m)$$
 with variance

(B) 兩個變數的比率

For ratios of two variables

假設X是另一項特徵

Let X be another characteristic of interest

(i) 已建設地區

For built-up areas

假設 x_{hi} : h 分層第 i 個被抽選屋字單位內有 X 特徵人口的數目

Let x_{hi} : Sample count of population having characteristic X in the ith sampled quarters

in stratum h

 $\stackrel{\wedge}{X}$: 估計 \mathbf{h} 分層內有 \mathbf{X} 特徵人口的總數

 X_h : Estimated population total having characteristic X in stratum h

 $\stackrel{\wedge}{X}_p$: 估計有 X 特徵人口的總數

 X_p : Estimated population total having characteristic X

 $\stackrel{\wedge}{R_p}$: 估計有 $\mathbf Y$ 特徵人口總數及有 $\mathbf X$ 特徵人口總數的比率

 R_p : Estimate of the ratio of population total having characteristics Y and X

$$X_p$$
 的估算程式是 $\hat{X}_p = \sum_{h=1}^{L_p} \hat{X}_h = \sum_{h=1}^{L_p} \frac{N_h}{n_h} \sum_{i=1}^{n_h} x_{hi}$

比率
$$R_p = \frac{Y_p}{X_p}$$
 的估算程式是 $\hat{R}_p = \frac{\hat{Y}_p}{\hat{X}_p}$

其方差爲
$$\operatorname{var}\left(\stackrel{\land}{R}_{p}\right) = \frac{1}{\stackrel{\land}{X_{p}^{2}}} \left[\operatorname{var}\left(\stackrel{\land}{Y_{p}}\right) + \stackrel{\land}{R_{p}^{2}} \operatorname{var}\left(\stackrel{\land}{X_{p}}\right) - 2\stackrel{\land}{R}_{p} \operatorname{cov}\left(\stackrel{\land}{X}_{p}, \stackrel{\land}{Y}_{p}\right) \right]$$

及共差爲

and covariance

$$\operatorname{cov}(\hat{X}_{p}, \hat{Y}_{p}) = \sum_{h=1}^{L_{p}} N_{h}^{2} \frac{(1 - f_{h})}{n_{h}} \frac{1}{n_{h} - 1} \sum_{i=1}^{n_{h}} (x_{hi} - \overline{x}_{h}) (y_{hi} - \overline{y}_{h})$$

$$\stackrel{\text{\(\frac{\pi}{N}_{p}}, \hat{Y}_{p})}{=} \sum_{h=1}^{L_{p}} N_{h}^{2} \frac{(1 - f_{h})}{n_{h}} \frac{1}{n_{h} - 1} \sum_{i=1}^{n_{h}} (x_{hi} - \overline{x}_{h}) (y_{hi} - \overline{y}_{h})$$

$$\stackrel{\text{\(\frac{\pi}{N}_{p}}, \hat{Y}_{p})}{=} \sum_{h=1}^{L_{p}} N_{h}^{2} \frac{(1 - f_{h})}{n_{h}} \frac{1}{n_{h} - 1} \sum_{i=1}^{n_{h}} (x_{hi} - \overline{x}_{h}) (y_{hi} - \overline{y}_{h})$$

(ii) 未建設地區

For non-built-up areas

假設 x_{hi} : h 分層第 i 個被抽選小區內有 X 特徵人口的總數

Let x_{hi} : Total sample count of population having characteristic X in the ith sampled segment in stratum h

 $\stackrel{\wedge}{X_h}$: 估計 $\stackrel{\wedge}{h}$ 分層內有 $\stackrel{\wedge}{X}$ 特徵人口的總數

 X_h : Estimated population total having characteristic X in stratum h

 $\hat{\mathbf{Y}}_{\mathbf{X}}$: 估計有 \mathbf{X} 特徵人口的總數

 \hat{X}_s : Estimated population total having characteristic X

 $\stackrel{\wedge}{R}_{s}$: 估計有 Y 特徵人口總數及有 X 特徵人口總數的比率

 R_s : Estimate of the ratio of population total having characteristics Y and X

$$X_s$$
 的估算程式是 $\hat{X}_s = \sum_{h=1}^{L_s} \hat{X}_h = \sum_{h=1}^{L_s} \frac{N_h}{n_h} \sum_{i=1}^{n_h} x_{hi}$

比率
$$R_s = \frac{Y_s}{X_s}$$
 的估算程式是 $\hat{R}_s = \frac{\hat{Y}_s}{\hat{X}_s}$

其方差爲
$$\operatorname{var}\left(\hat{R}_{s}\right) = \frac{1}{\hat{X}_{s}^{2}} \left[\operatorname{var}\left(\hat{Y}_{s}\right) + \hat{R}_{s}^{2} \operatorname{var}\left(\hat{X}_{s}\right) - 2\hat{R}_{s} \operatorname{cov}\left(\hat{X}_{s}, \hat{Y}_{s}\right) \right]$$

及共差爲

and covariance

$$\cot\left(\hat{X}_{s}, \hat{Y}_{s}\right) = \sum_{h=1}^{L_{s}} N_{h}^{2} \frac{(1-f_{h})}{n_{h}} \frac{1}{n_{h}-1} \sum_{i=1}^{n_{h}} \left(x_{hi} - \frac{1}{x_{h}}\right) \left(y_{hi} - \frac{1}{y_{h}}\right)$$

$$\stackrel{\text{Ξ } \text{\uparrow}}{\text{\downarrow}} \frac{1}{x_{h}} = \frac{1}{n_{h}} \sum_{i=1}^{n_{h}} x_{hi}$$
where

(iii) 特殊類別

For special classes

假設 x_{hi} :h 分層第 i 個被抽選屋字單位內有 X 特徵人口的數目

Let X_{hi} : Sample count of population having characteristic X in the ith sampled quarters in stratum h

 $\stackrel{\wedge}{X}_h$: 估計 h 分層內有 X 特徵人口的總數

 X_h : Estimated population total having characteristic X in stratum h

 \hat{X}_c : 估計有 X 特徵人口的總數

 \hat{X}_c : Estimated population total having characteristic X

 \hat{R}_c : 估計有 Y 特徵人口總數及有 X 特徵人口總數的比率

 \hat{R}_c : Estimate of the ratio of population total having characteristics Y and X

 X_c 的估算程式是 $\hat{X}_c = \sum_{h=1}^{L_c} \hat{X}_h = \sum_{h=1}^{L_c} \frac{N_h}{n_h} \sum_{i=1}^{n_h} x_{hi}$

比率 $R_c = \frac{Y_c}{X_c}$ 的估算程式是 $\hat{R}_c = \frac{\hat{Y}_c}{\hat{X}_c}$

其方差爲

with variance $\operatorname{var}\left(\hat{R}_{c}\right) = \frac{1}{X_{c}^{2}} \left[\operatorname{var}\left(\hat{Y}_{c}\right) + \hat{R}_{c}^{2} \operatorname{var}\left(\hat{X}_{c}\right) - 2\hat{R}_{c} \operatorname{cov}\left(\hat{X}_{c}, \hat{Y}_{c}\right) \right]$

及共差爲

and covariance

$$cov(\hat{X}_{c}, \hat{Y}_{c}) = \sum_{h=1}^{L_{c}} N_{h}^{2} \frac{(1-f_{h})}{n_{h}} \frac{1}{n_{h}-1} \sum_{i=1}^{n_{h}} (x_{hi} - \bar{x}_{h}) (y_{hi} - \bar{y}_{h})$$

$$\stackrel{\text{Ξ $\rlap{$\rlap{$!}$}}}{\underset{\text{where}}{}} \frac{1}{x_{h}} \sum_{i=1}^{n_{h}} x_{hi}$$

(iv) 水上人口

For marine population

假設 x_{hi} :h 分層第 i 個被抽選水上小區內有 X 特徵人口的數目

Let X_{hi} : Sample count of population having characteristic X in the ith sampled marine section in stratum h

 x_h : h 分層內有 X 特徵人口的總數

 x_h : Total sample count of population having characteristic X in stratum h

 \hat{X} , :估計 h 分層內有 X 特徵人口的總數

 $\stackrel{\wedge}{X}_h$: Estimated population total having characteristic X in stratum h

 $\stackrel{\wedge}{X}_{\scriptscriptstyle{m}}$: 估計有 X 特徵人口的總數

 \hat{X}_m : Estimated population total having characteristic X

 \hat{R}_{m} : 估計有 Y 特徵人口總數及有 X 特徵人口總數的比率

 $\stackrel{\wedge}{R_m}$: Estimate of the ratio of population total having characteristics Y and X

$$X_m$$
 的估算程式是 $\hat{X}_m = \sum_{h=1}^{L_m} \hat{X}_h = \sum_{h=1}^{L_m} \frac{x_h}{z_h} Z_h$ is estimated by

比率
$$R_m = \frac{Y_m}{X_m}$$
 的估算程式是 $\hat{R}_m = \frac{\hat{Y}_m}{\hat{X}_m}$ is estimated by

其方差爲
$$\operatorname{var}\left(\hat{R}_{m}\right) = \frac{1}{\stackrel{?}{X_{m}}} \left[\operatorname{var}\left(\hat{Y}_{m}\right) + \stackrel{?}{R_{m}} \operatorname{var}\left(\hat{X}_{m}\right) - 2\stackrel{?}{R}_{m} \operatorname{cov}\left(\hat{X}_{m}, \stackrel{?}{Y}_{m}\right) \right]$$

及共差爲

and covariance

$$cov(\hat{X}_{m}, \hat{Y}_{m}) = \sum_{h=1}^{L_{m}} N_{h}^{2} \frac{(1-f_{h})}{n_{h}} \frac{1}{n_{h}-1} \sum_{i=1}^{n_{h}} (x_{hi} - \frac{1}{x_{h}}) (y_{hi} - \frac{1}{y_{h}})$$

$$\stackrel{\cong}{=} \hbar \hat{N}_{h} \frac{1}{x_{hi}} \sum_{i=1}^{n_{h}} x_{hi}$$
where

(v) 整體比率

Overall ratios

整體比率
The overall ratio
$$R = \frac{Y}{X} \quad \text{ is estimated by } \qquad \hat{R} = \frac{\hat{Y}_p + \hat{Y}_s + \hat{Y}_c + \hat{Y}_m}{\hat{X}_p + \hat{X}_s + \hat{X}_c + \hat{X}_m}$$

其方差爲

$$\operatorname{var}\left(\hat{R}\right) = \frac{1}{\left(\hat{X}_{p} + \hat{X}_{s} + \hat{X}_{c} + \hat{X}_{m}\right)^{2}} \left\{ \operatorname{var}\left(\hat{Y}_{p} + \hat{Y}_{s} + \hat{Y}_{c} + \hat{Y}_{m}\right) + \hat{R}^{2} \operatorname{var}\left(\hat{X}_{p} + \hat{X}_{s} + \hat{X}_{c} + \hat{X}_{m}\right) - 2\hat{R}\operatorname{cov}\left(\hat{X}_{p} + \hat{X}_{s} + \hat{X}_{c} + \hat{X}_{m}, \hat{Y}_{p} + \hat{Y}_{s} + \hat{Y}_{c} + \hat{Y}_{m}\right) \right\}$$

及共差爲

and covariance

$$cov\left(\hat{X}_{p} + \hat{X}_{s} + \hat{X}_{c} + \hat{X}_{m}, \hat{Y}_{p} + \hat{Y}_{s} + \hat{Y}_{c} + \hat{Y}_{m}\right)$$

$$= cov\left(\hat{X}_{p}, \hat{Y}_{p}\right) + cov\left(\hat{X}_{s}, \hat{Y}_{s}\right) + cov\left(\hat{X}_{c}, \hat{Y}_{c}\right) + cov\left(\hat{X}_{m}, \hat{Y}_{m}\right)$$

假設 by assuming
$$\operatorname{cov}(\hat{X}_a, \hat{Y}_b) = 0$$
 對所有 $a \neq b$ 及 $a, b = p, s, c, m$ for all

6. 資料素質及評估

6. Quality of Data and Evaluation

數據的品質控制

- 6.1 二零零六年中期人口統計是一項大型而複雜的工作。政府統計處設立了一套完整的核查系統,以控制在中期人口統計中所得資料的素質。當中包括以下幾個環節:
 - (i) 組長須在工作初段期間陪同統計 員進行訪問及觀察其工作情況, 並在有需要時給予補充訓練。其 後,組長會對表現在水準之下的 統計員加以留意,並詳盡檢查其 工作。
 - (ii) 助理組長詳細檢查所有收回的問卷,以確保所有填妥的問卷和數據編碼正確無誤。
 - (iii) 覆核員從已探訪的住戶中抽取樣本,再次探訪住戶及覆核問卷上的重要資料。從報稱是空置、已拆卸、建築中或無人居住的屋宇單位抽取的樣本亦會給覆核員驗證,以確定所報稱的情況。
 - (iv) 在外勤工作結束時,組長會查核 其工作小組內每名統計員的工 作,確保其工作妥當完成。
- 6.2 此外,中期人口統計亦採用了一系列措施減少誤差。這包括預備一個完善及最新的抽樣框、給予臨時外勤工作人員透徹及全面的訓練、全面審核已完成的問卷、正確處理未能接觸個案及將編碼、查驗正誤及審核等工作電腦

Quality Control of Data

- 6.1 The 2006 Population By-census is a large scale and complex operation. A comprehensive checking system was designed to control the quality of the data collected in the enumeration. It covered the following aspects:
 - (i) The chief enumerator had to accompany the enumerators and observe their work at the beginning of the operation and give them remedial training whenever necessary. Subsequently, those enumerators who performed below the average standard were given more attention and their work were inspected in greater detail.
 - (ii) The assistant chief enumerator scrutinized all questionnaires submitted to ensure that they were properly completed and that the data were correctly coded.
 - (iii) The checker revisited a random sample of the households enumerated and verified the key information recorded on the completed questionnaire. A random sample of quarters reported as vacant, demolished, construction in progress or unoccupied was also verified by the checker to confirm the status reported.
 - (iv) The chief enumerator checked the work of each enumerator in his division at the end of the fieldwork operation to ensure that all their assignments were completed.
- 6.2 Besides, a number of measures were adopted to help reduce errors. These included the preparation of a complete and up-to-date sampling frame, thorough and comprehensive training of temporary field workers, comprehensive checking of completed questionnaires, proper treatment of

化。

6.3 本處雖然已盡全力確保資料搜集、資料審核及處理各方面完善,並得出準確結果,但中期人口統計資料仍有機會存在些微誤差。因此評估統計資料素質和瞭解誤差的來源及大小是必須的,以便向資料使用者提示有關資料的可信賴程度。

誤差的來源和分類

6.4 中期人口統計資料的誤差包括 抽樣誤差和非抽樣誤差。在抽樣統計調 查中,統計數字是由抽選的樣本得來, 抽樣誤差必定存在於每一個抽樣統計調 查中。抽樣誤差是指若用同一方法重覆 地抽出樣本,從不同樣本取得的估計值 之間的差異。抽樣誤差是在抽樣過程中 可辨認及控制的差異原素。抽樣誤差取 決於樣本大小及抽樣方法。一般來說, 對某一指定的抽樣方法而言,樣本較 大,抽樣誤差較小。在中期人口統計 中,所有估計值均有抽樣誤差。但中期 人口統計所選擇的抽樣設計、樣本大小 及抽樣方法,確保了大多數變數的樣本 估計值,在實際應用時有足夠的精確 度。

6.5 非抽樣誤差與抽樣變異性無關。不完全的地理記錄及地圖、點算時不小遺漏了住戶或人口、問卷設計的問題、工作指引手冊不清楚、未能得到住戶合作提供準確資料、搜集入的錯誤等,均爲中期人口統計中可能會人對數等,以致統計結果出現偏差。

non-contact cases and computerised data coding, validation and editing.

Although every effort was made to ensure that the enumeration, data validation and processing were complete and the final results accurate, there remains a chance that some errors, however small, may still be found in the By-census data. Hence, it is essential to evaluate the data quality and recognize the source and magnitude of such errors. This will provide users with some indication of the level of confidence with which the data can be used.

Sources and Classification of Error

6.4 "Errors" found in the By-census data consist of sampling errors and non-sampling errors. Sampling errors are inherent in every sample survey where statistics are obtained from a sample. They refer to the variation of a sample estimate if samples are drawn repeatedly using the same method. They are the recognisable and controllable elements of variability in the sampling process. Sampling errors depend on sample size and sampling method. general, for a given sampling method, a larger sample will produce estimates with smaller sampling errors. In the By-census, all estimates are subject to sampling However, the choices of sample design, sample size and sampling method for the By-census ensure that the sample estimates for most variables would be sufficiently precise for most practical purposes.

6.5 Non-sampling errors are not related to sampling variability. Incomplete geographical records and maps, careless omission of households or persons in the enumeration, problems in the questionnaire design, obscurity in the instruction manuals, failure to gain full co-operation of householders in giving accurate answers, inaccurate recording and coding of information collected, and data capturing errors were possible sources of non-sampling errors in the By-census. Non-sampling errors could affect the count totals of the population, households or quarters. They could also

affect the classification of individual characteristics and cause bias in the results.

抽樣誤差

6.7 一個抽樣估計的精確度,亦可從它的「置信區間」反映出來。舉例來說,某一抽樣估計值的 95% 置信區間,其上下限分別在樣本估計值之上及之下相距兩個標準誤差,將有 95%的概率包括了整體的參數。換言之,若以同樣方法抽取一百個同樣大小的樣本,每個樣本計算其置信區間,可預期當中有九十五個置信區間將包括了整體的參數。

6.8 表 6.1 及表 6.2 列出一些變數的 樣本估計數字、估計標準誤差及 95% 的 置信區間。這些數字顯示在二零零六年 中期人口統計中一系列不同詳細程度的 變數的精確程度。

Sampling Errors

6.6 The particular sample selected for the 2006 Population By-census is one of all possible samples of that size which could have been selected from the same population using the same sampling method. Estimates derived from different samples would differ from each other. Sampling error is measured by the standard error, which is an average measure of the squared deviations of all sample estimates from their average value. It reflects the precision of the estimates. The magnitude of the standard error of a variable depends on the sample size, the sampling method and the intrinsic variability of the characteristic concerned. For the 2006 Population By-census, the sample design and the formulae for estimating the standard errors are given in Chapter 5.

6.7 The precision of a sample estimate can also be reflected by its "confidence interval". For example, the 95% confidence interval of a given sample estimate, with its upper and lower limits given by about "two times the standard errors" respectively above and below the sample estimate, would have a 95% probability of covering the population parameter. In other words, if similar confidence intervals were constructed for each of the 100 different samples of the same size selected using the same sampling method, one would expect that 95 of them would cover the population parameter.

6.8 Tables 6.1 and 6.2 show the sample estimates, the estimated standard errors and the 95% confidence intervals of some variables. They illustrate the range of precision of a spectrum of variables at various degrees of details for the 2006 Population By-census.

非抽樣誤差

6.9 雖然引入了各類預防措施,非抽樣誤差仍是不能避免。因此通常的強法,是評估非抽樣誤差的大小,供資料使用者在理解統計數字時作參考。其中一些評估的來源是預防非抽樣誤差措施(例如未能接觸住戶的處理)的副為正作而進行的。後者,所得的資料不會用作修訂中期人口統計結果。下面闡述六個評估研究:

未能接觸的住戶

6.10 爲確保點算沒有遺漏,在中期 人口統計期間執行了一些控制措施。統 計員的工作分配表,均附詳細位置圖以 方便外勤訪問;所有報稱無人居住的屋 宇單位均由覆核員再次探訪以作核實; 又從有人居住的屋宇單位中抽出一個樣 本,由覆核員再次訪問,以証實點算沒 有遺漏及所搜集的資料正確無誤。

雖然統計員均被指示,在尚未 6.11 完成某一住戶所有成員的訪問工作時, 應於不同時間及不同日期最少探訪住戶 四次,但仍會在中期人口統計期間未能 接觸一些住戶。在統計訪問期末,統計 員會留下一份自填問卷給每個未能接觸 的住戶,有關住戶需填妥及將問卷寄回 中期人口統計辦事處。本處則基於收回 的自填問卷上的統計資料,估計未有寄 回自填問卷的住戶及其成員的數目和特 徵資料。這是假設填妥寄回自填問卷的 住戶的資料,可代表未有回應自填問卷 的住戶的特徵。有關點算結果及根據自 填問卷估計未能接觸住戶的方法的詳 情,請參閱第四章及第五章。

Non-sampling Errors

6.9 Despite the introduction of various precautionary measures, non-sampling errors were inevitable. It is therefore a usual practice to assess the magnitude of non-sampling errors so that users can take them into account in interpreting the statistics. Some of these assessments are the by-product of precautionary measures such as treatment of non-contact households. Others such as the post enumeration survey are specifically done for the assessment purpose. In the latter case, no rectification would be made on the By-census results. Six assessment studies are presented below:

Non-contact Households

6.10 Control measures were implemented to ensure completeness of enumeration. The assignment list for enumerators was supplemented with detailed location maps to facilitate field visits. All quarters reported to be vacant were revisited by checkers. A sample of occupied quarters was also revisited by checkers to verify the completeness of enumeration and correctness of the data collected.

6.11 Although the enumerators were instructed to make at least four visits to locate households for enumeration at different times of a day and on different days, some households still could not be contacted during the By-census period. At the end of operation, By-census a self-administered questionnaire (SAQ) was left with each of those noncontact households for completion and return to the By-census Office. The household and personal characteristics of those non-contact households which did not return the SAQ were estimated based on the returned SAQs. This is made on the assumption that those who responded to the SAQs could represent those who did not respond. For more details on the enumeration results and the estimation method of noncontact households on SAQ, please refer to Chapters 4 and 5.

資料輸入誤差

6.12 二零零六年中期人口統計應用「智能字元識別」及「光學標記識別」 方法將問卷上的資料,直接輸入電腦。 第四章詳細描述數據輸入的程序。在這程序中,可能產生兩種誤差。其一是填 寫的誤差,其二是辨認的誤差。

6.13 填寫的誤差,主要是統計員忘記在問卷上填上智能字元識別或光學標記識別的方格、或在智能字元識別的數據項目方格上填寫錯誤的數值、或在目光學標記識別的數據項目方格上填寫。本處從問卷中抽取了一個 1%的獨立樣本,以查驗「智能字元識別」及「光學標記識別」方格上的填寫有否漏填、錯誤地填寫或填上多於一個答案,結果列於表 6.3。

6.14 辨認的誤差是指智能字元識別 或光學標記識別技術將有關方格的數 錯誤辨認了。爲了減低這種誤差,素質的過程中進行了嚴密的透程中進行了嚴密的技項的過程中進行了嚴密的技項目前智能字元識別的對據項目有能字元識別的數據項目有經濟之一,在數據輸入過程中的數據輸入過程中的數據不有對於之一,數學不可以表述。 要核對所有對於表述。最後本值,數數,在數據輸入過程中的數據所有對於之一,數據所有對於,在數據所有對於,在數據所有對於,在數據所有對於,在數據不可以表述。 數。有關結果顯示辨認的誤差極之小。 (表 6.3)

編碼錯誤

6.15 雖然二零零六年中期人口統計 採用電腦輔助編碼方法將問卷上五個數 據項目(行業、職業、上課地點、工作 地點及五年前居住地方)進行編碼,但 是這仍然有機會選取錯誤的編碼。因 此,在電腦化編碼的過程中加進了數條

Data Capturing Errors

6.12 "Intelligent Character Recognition (ICR)" and "Optical Mark Recognition (OMR)" techniques were adopted in the 2006 Population By-census to capture data directly from the questionnaires. Details on the data capturing process are described in Chapter 4. Two types of errors, viz. the marking error and the recognition error, could incur in this process.

6.13 Marking error occurred when the enumerators forgot to mark the ICR or the OMR boxes on the questionnaires or marked wrong value on an ICR data field or marked more than one box for a particular OMR data field. To assess the marking error, a 1% independent sample was randomly selected to check whether the markings on the ICR and OMR boxes were missing, wrongly marked or double marked. The result is shown in Table 6.3.

6.14 Recognition error refers to the value of the ICR or OMR box misread by the ICR and OMR technologies. To minimize this error, strict quality control was instituted during the data capturing process. Due to the constraint of the ICR technology at present time, the recognition for ICR data fields might have about 10% error rate. To ensure the accuracy rate for ICR data fields meeting the standard of 98%, operators were required to verify all ICR data fields and amend those wrong data during the data capturing stage. Finally, a 2% sample of all data fields was randomly selected for quality checking. Results of quality check showed that the recognition error was extremely small. (Table 6.3)

Coding Errors

6.15 Though computer-assisted coding was adopted in the 2006 Population By-census for coding of five data items (industry, occupation, place of study, place of work and place of residence 5 years ago) on the questionnaire, there was still a chance of getting the wrong codes. To reduce the coding error,

查驗守則進行範圍及一致性檢查,以減少誤差。已編碼的數據會經過一個素質查驗。這查驗在電腦輔助編碼過程中同時進行。電腦系統會自動從每一個編碼員完成的工作中,抽取一個 5%的樣本,由他的上級人員查驗編碼的準確性,並就錯誤的編碼作出修正。這個素質查驗結果顯示已編碼的數據質素良好。 (表 6.4)

記錄錯誤

6.16 任何的記錄或編碼錯誤,如經 所有素質控制措施後仍未被發現,大部 分應會在電腦審核程序中被辨別出來。 這程序包括兩個階段,即是資料查驗及 資料設算。資料查驗的目的,是確保 (甲)資料紀錄正確而沒有紀錄遺漏、 重覆或不依次序; (乙)所有編碼值均 在可接受的範圍內;及(丙)一些記錄 基本特徵的資料(例如一個人的年 齡),與其他特徵(例如教育程度和經 濟活動身分)沒有矛盾。每當發現錯 誤,電腦將拒絕接受該資料項目。審核 員將被拒的項目與問卷上的資料核對 後,在電腦終端機上改正。表 6.5 列出與 後兩種覆核有關的錯誤大小。

6.17 資料設算程序是全自動的。經 資料查驗過程找出每一紀錄中資料項目 之間所存在的矛盾後,資料設算程序按 一些預設的設算規則,將有關的資料項 目中除去舊值而配上新值。設算率提供 一個中期人口統計結果素質的量度。表 6.6 中列出部分數據項目的設算率。 a few validation rules had been built-in during the computerized coding process to perform range and consistency checks. There was also a quality check implemented on the coded data. The checking ran in parallel with the computer assisted coding work. A 5% sample of the work performed by each coder was selected automatically by the computer for his/her supervisor to verify the accuracy of the codes and to rectify the incorrect codes. The result of the quality check indicated that the coded data were of good quality. (Table 6.4)

Recording Errors

6.16 Any recording or coding error left undetected after passing through all the quality control measures would, to a certain extent, be identified in the computer editing process. The process consisted of two phases, viz. data validation and data imputation. Data validation aimed at ensuring that (a) the structure of the data record was correct and no record was omitted, duplicated or out of sequence; (b) all codes had values within the acceptable ranges; and (c) information recorded for some basic characteristics such as age of a person was consistent with other characteristics such as educational attainment and economic activity status. Whenever an error was detected, the data item would be rejected by computer. An editor would amend the rejected items on a computer terminal after checking against the original questionnaire. Table 6.5 shows the magnitude of the errors associated with the latter two types of validation checks.

6.17 The data imputation process was completely automatic. After identifying all the inconsistencies among data items of a record in the data validation run, the imputation process removed the old values and assigned new values to the concerned data items according to some prescribed imputation rules. The imputation rate provides a measure of the quality of the By-census results. Table 6.6 shows the imputation rates for some selected data items.

查點後的覆核統計調查

6.18 進行查點後的覆核統計調查的 目的在於評估中期人口統計結果的準確 性。本處在中期人口統計成功訪問的屋 宇單位中,隨機抽出約 0.6%,由外勤統 計組的常任外勤職員於二零零六年八月 二十一日至九月八日再次拜訪。和中期 人口統計的問卷比較,查點後的覆核統 計調查的問卷只包括查詢被選中屋宇單 位內住戶及人口數目的問題,但問題使 用的字眼則完全相同。查點後的覆核統 計調查是一項獨立工作,進行時並無參 考在中期人口統計原初填妥的問卷上的 資料。查點後的覆核統計調查進行後, 其結果與中期人口統計中搜集得的有關 資料相比,以評估點算結果的準確性。 查點後的覆核統計調查顯示在中期人口 統計中,多計或少計住戶及居民人口的 程度都是非常輕微。

五歲以下兒童的獨立人口估計

6.19 在人口普查或中期人口統計, 漏報嬰兒及少年兒童是頗常見的。由於 查點後的覆核統計調查是以原先中期人 口統計相同的方法和問卷設計進行,因 此在中期人口統計中漏報嬰兒的傾向, 亦可能於查點後的覆核統計調查中存 在。爲評估這方面的漏報,採用了一個 在中期人口統計時刻在香港的五歲以下 兒童的獨立人口估計,與中期人口統計 的點算結果比較。這獨立的估計,是透 過點算有關年齡組別在中期人口統計點 算日前五年內的出生人數,減去死亡人 數,再加上出入境淨差額而得的。這樣 的獨立估計的編算,是建基於一個完整 的出生和死亡登記系統及準確的人口流

Post Enumeration Survey

6.18 The purpose of conducting Enumeration Survey was to assess the accuracy of the By-census results. In the Post Enumeration Survey, about 0.6% of the occupied quarters which had been successfully enumerated in the By-census were randomly selected and re-visited by permanent field staff of the Census and Statistics Department during 21 August to 8 September 2006. When compared By-census questionnaires, the **Post** Enumeration Survey questionnaire included only questions to obtain the household and person count of the sampled quarters. The wordings of the questions used in the questionnaires of the Post Enumeration Survey and the 2006 Population By-census were identical. The Post Enumeration Survey was an independent exercise in which no reference was made to the original questionnaires completed in the Bycensus. The results obtained from the Post Enumeration Survey were then matched with the relevant information obtained in the By-census to assess the accuracy of the By-census enumeration. The Post Enumeration Survey revealed that the extent of over- or under-count of households and population enumerated in the By-census was very small.

Independent Population Estimate of Children Aged Under 5

6.19 Under-enumeration of infants and young children is quite common in a population census/by-census. As the Post Enumeration Survey interview was conducted using the same approach and questionnaire structure as the original By-census operation, the tendency to under-report infants during the By-census operation would remain in the Post Enumeration Survey. Therefore an independent population estimate of the number of children aged under 5 who were present in Hong Kong as at the Bycensus moment is compared with the By-census count to assess the extent of any such under-enumeration. This independent estimate can be obtained by counting the number of births minus the number of deaths, plus the balance of arrivals over departures for 動紀錄。與這獨立估計比較,二零零六年中期人口統計所得五歲以下兒童漏報4420人。漏報情況最嚴重的是一歲的嬰兒,其差距爲4078人。詳細的比較載於表6.7。

persons in the relevant age group for the five-year period before the reference date of the 2006 Population By-census. Such independent estimation is possible as civil registration of births and deaths is virtually complete in Hong Kong and population movements are accurately recorded. The estimate so obtained was larger than the 2006 Population By-census count of children aged under 5 by 4 420 only. The extent of undercount was largest for babies aged 1, with a difference of 4 078. Table 6.7 shows the detailed comparison.

分類問題

6.20 編製社會及經濟統計數字前, 必須將各單元分成不同組別,而針對某 些特定的特徵,各組包含的單元應盡 性質相同。在分類過程中,可能會遇 問題及出現差誤。通常很難將這些分類 差誤的幅度量化,除非存在相關參數的 獨立估值。下面所講述的,是關於所受 訪者的經濟活動身分及教育程度作分類 的問題。

(a) 失業

6.21 中期人口統計中用來識別失業人士的問題,主要目的是點算勞動人口的總數,亦即是從事經濟活動人口(由就業人口及失業人口組成的數目)(見第一冊第六章)。在就業人口及從事經濟活動人口方面,有關這些人口的分析可能還算滿意,但在失業人口方面卻不然。

根據定義,

人口=從事經濟活動人口(A)+ 非從事經濟活動人口(B),及

從事經濟活動人口(A) =

Classification Problems

6.20 In producing social and economic statistics, it is necessary to classify elements into different groups, each comprising elements as homogeneous as possible with respect to some specified characteristics. In the process of classifying objects, problems may be encountered and errors introduced. In general, it is difficult to quantify the magnitude of such classification errors unless independent estimates of relevant parameters are available. Some problems related to the classification of persons with respect to their economic activity status and educational attainment are briefly described below.

(a) Unemployment

6.21 Inclusion of the questions for identifying unemployed persons in the By-census mainly serves to complete the enumeration of the entire labour force, i.e. the economically active population (see Volume I Chapter 6). While the analysis in respect of the employed population and the economically active population is acceptable, it is considered not so for the unemployed population.

By definition,

Population =

Economically Active Population (A) + Economically Inactive Population (B), and

Economically Active Population (A) =

就業人口(X) + 失業人口(Y)

6.22 A、B及 X的數值頗大,較少受差誤影響,可以用作分析。但是 Y的估值較小,而其相聯的統計調查誤差可以頗大,所以不適宜用作分析。爲反映失業情況而特地設計的「綜合住戶統計調查」,應該是提供失業人口估計的可靠數據來源。

(b) 教育程度

6.23 二零零六中期人口統計所採用 的教育程度(最高就讀程度)及修讀科 目分類方法,除小量改動(如將專上教 育非學位課程細分爲文憑/證書課程及 副學位課程)以外,大致跟二零零一年 人口普查所採用的分類方法相同。但讀 者須留意中期人口統計在搜集有關專上 教育程度的詳細資料以作分類時,所面 對的必然限制,因爲其中所包括的課 程,在名稱、內容、分類及次分類方面 均較複雜。首先,要獲取足夠的資料以 辨別相近但在不同次分類的教育程度是 有困難的。其次,就某些並不在香港接 受教育的居民,他們的教育程度未必能 完全套入本港現時的教育程度分類。甚 至對一些在香港接受教育的居民,某個 特定教育程度的名稱、實際收生程度及 所包括的課程亦有可能隨著時間改變。 因此讀者在比較不同時期的教育程度統 計資料時,尤其是有關專上教育,應考 慮這些因素。

Employed Population (X) + Unemployed Population (Y)

A, B and X are quite large and they are less affected by errors. So, they are fine for analysis. However, the estimate for Y is relatively small and its associated survey errors can be relatively large, thus rendering it not suitable for analysis. The General Household Survey, which is devised specifically to reflect the unemployment situation, should be the reliable data source for obtaining estimates of the unemployed population.

(b) Educational Attainment

6.23 The classifications of educational attainment (highest level attended) and field of education in the 2006 Population By-census largely follow those adopted in the 2001 Population Census with minor changes (e.g. post-secondary non-degree course was splitted into Diploma/Certificate and subdegree course). Readers are reminded of the inherent limitations of the By-census in obtaining detailed information on educational attainment at the postsecondary level because of the complexity in terms of course name, content, groupings and sub-groupings of the courses covered. First, it might sometimes be quite difficult to obtain enough information to distinguish between similar levels of educational attainment but falling into different sub-groupings. Second, some residents did not receive education in Hong Kong and their educational attainment cannot perfectly fit into the present classification adopted in Hong Kong. Even for those who received education in Hong Kong, the name, actual admission levels and courses covered of a specific level of educational attainment might have changed over time. Readers should therefore take all these factors into account when comparing statistics on educational attainment over time, in particular those at post-secondary level.

7. 分類、概念及定義

7. Classifications, Concepts and Definitions

概要

7.1 二零零六年中期人口統計的數 據項目共分三類,計有屋宇單位、住戶 及個人項目。各類數據項目詳載於本 章,其編排方式如下:

數據項目名稱

定義:

爲數據項目提供廣泛的定義

涵蓋範圍:

說明有關數據項目所適用的人口範圍

問卷上的問題號數:

指出有關數據項目在問卷上所屬的問題 號數

答案分類:

顯示有關數據項目的答案分類。不過, 編製二零零六年中期人口統計結果時的 分類可能會有分別。

注意事項:

提供更多資料,幫助使用者對各項目有 更佳的認識。

屋宇單位資料

7.2 二零零六年中期人口統計共有兩個關於屋宇單位特徵的數據項目,分別是「**屋宇單位類型**」及「**屋宇單位住用情況**」。

Overview

7.1 Data topics for the 2006 Population Bycensus are divided into three categories, viz. quarters, household and personal topics. Detailed information for each data topic in respective category are given in this chapter in the following format.

Name of Data Topic

Definition:

Gives a comprehensive definition of the data topic.

Coverage:

Describes the population to which the data topic is applicable.

Question number on questionnaire:

Indicates the question number(s) to which the data topic is associated on questionnaire.

Response classification:

Show the response classifications of the data topic. However, the output classifications for the 2006 Population By-census results may be different.

Points-to-note:

Provides additional information which may help users to better understand the data.

Quarters Data

7.2 Two data topics on quarters characteristics are included in the 2006 Population By-census. They are **Type of quarters** and **Occupancy of quarters**.

屋宇單位類型

定義:

屋宇單位按所屬建築物的類型分類,而建築物則按其建築材料種類、興建用途及負責建築/管理的機構分類。

涵蓋範圍:

全港的屋宇單位

問卷上問題號數:

「**屋宇單位類型**」資料保存於政府統計 處編製的「屋宇單位檔案庫」及「小區 檔案庫」內。這兩個檔案庫載錄了全港 永久性屋宇單位及臨時建築物的資料。 統計員只需核對所提供的「**屋宇單位類** 型」資料是否正確便可。

答案分類:

- 011 房屋委員會甲類租住大廈 房屋 委員會單位
- 012 房屋委員會甲類租住大廈 前房 屋委員會單位
- 013 房屋委員會甲類租住大廈 政府 廉租屋單位
- 021 房屋委員會乙類租住大廈 第三 型大廈單位
- 031 房屋委員會乙類租住大廈 第四 型大廈單位
- 041 房屋委員會乙類租住大廈 第五 型大廈單位
- 051 房屋委員會乙類租住大廈 第六 型大廈單位
- 061 房屋委員會多層中轉房屋單位
- 071 房屋委員會租者置其屋計劃下的租 住房屋單位
- 072 房屋委員會租者置其屋計劃下購買 而沒有補地價(資助出售)的房屋單 位

Type of quarters

Definition:

Quarters are classified according to the type of building in which they are located. The buildings are classified by the type of construction materials; the purpose for which they are built; and the sector responsible for their construction / management.

Coverage:

All quarters in Hong Kong

Question number on questionnaire:

The information on **Type of quarters** is contained in the "Register of Quarters" and "Register of Segments", which comprise all permanent quarters and temporary structures in Hong Kong, maintained by the Census and Statistics Department. The enumerators are only required to verify the correctness of the **Type of quarters** data provided to them.

- O11 Quarters in Housing Authority Rental Blocks Group A - New Housing Authority Estates
- O12 Quarters in Housing Authority Rental Blocks Group A - Former Housing Authority Estates
- O13 Quarters in Housing Authority Rental Blocks Group A - Government Low Cost Housing Estates
- O21 Quarters in Housing Authority Rental Blocks Group B - Mark III Blocks

997 空置的公營屋宇單位(準備拆卸)

998 不適用 - 空地

999 興建中的屋宇單位

屋宇單位住用情況

定義:

即指屋宇單位在中期人口統計時是否有 人居住。有人居住的單位是根據有關的 人口統計範圍(即「居港人口方法」) 予以決定。至於確定爲無人居住的屋宇 單位,則會按其原定的住用類型(如住 宅或非住宅)作進一步區分。

涵蓋範圍:

全港被抽選進行訪問的屋宇單位

問卷上問題號數:

統計員會根據訪問結果及/或觀察所得 填報「**屋宇單位住用情況**」的資料。

答案分類:

- 1 有人居住(常住)
- 2 有人居住(不常住)
- 3 無人居住(住宅/船艇)
- 4 無人居住(非住宅)
- 9 不適用(如打通單位(不用訪問)、拆卸/建築中的單位及空地)

注意事項:

1. 在答案分類中,「有人居住」一項 被細分爲「有人居住」(常住)及 「有人居住」(不常住)兩類,以 便更清楚反映屋宇單位的用途,例 如作爲第二居所及度假屋。

- 997 Quarters vacated in public housing (pending for demolition)
- 998 Not Applicable Vacant Land
- 999 Quarters with construction in progress

Occupancy of Quarters

Definition:

Occupancy of quarters refers to whether the quarters is occupied or unoccupied at the time of the Bycensus. Occupied quarters are determined in relation to the population coverage (i.e. the Hong Kong Resident Population approach). In case of unoccupied quarters, it will be further distinguished according to the type of occupancy for which they are intended, i.e. residential or non-residential.

Coverage:

All sampled quarters in Hong Kong

Question number on questionnaire:

The information on **occupancy of quarters** is completed by the enumerators according to the enumeration results and / or observation.

Response classification:

- 1 Occupied (as usual residence)
- 2 Occupied (not as usual residence)
- 3 Unoccupied (residential / vessel)
- 4 Unoccupied (non-residential)
- 9 Not applicable (i.e. merged (not enumerated) quarters, quarters demolished / with construction in progress and vacant land)

Points-to-note:

 The response category "Occupied" is broken down into "Occupied (as usual residence)" and "Occupied (not as usual residence)" to better reflect the usage of quarters for purposes like second residence and holiday homes. 2. 統計員可能難於分辨單位是「無人居住」還是「有人居住(不常住)」,這點是可以理解的。爲使統計員能準確地報道「**屋字單位的住用情況**」,已特別加強在這方面的培訓。

住戶資料

7.4 須注意的是,「家庭」和「住戶」為兩個不同的社會單元。「家庭」一般透過婚姻、親屬或領養等關係組成。很多時,「家庭」會等同「住戶」,但兩者亦可能會有分別,因爲住戶成員之間不須有任何關係。「住戶」概念對規劃工作有重要影響,因爲無論房屋、消費品及服務等各方面的需求,通常都是以「住戶」作爲單元的。

7.5 二零零六年中期人口統計共有十 二個關於住戶的數據項目。 It is understood that the enumerators may have difficulties to identify whether the unit of quarters is unoccupied or occupied (not as usual residence). Training was strengthened to reinforce the enumerators to accurately report on the occupancy of quarters.

Household Data

The basic unit of enquiry in the 2006 7.3 Population By-census, as in previous censuses / by-censuses, was a household. In the By-census, all persons in all households found in a sampled unit of quarters were enumerated. Persons who live and make common provisions for essentials for living inside a unit of quarters are regarded as members of the same household. Thus, a person who shares a unit of quarters with another family but cooks his/her own meals and keeps his/her own account of household expenses is regarded as a one-person household. In this case, the family represents a separate household and the unit of quarters is said to have a "Degree of sharing" of two (households per quarters).

7.4 It must be noted that "family" and "household" are different social units. People forming a family related either by marriage, kinship or adoption. Most often a family coincides with a household but the two may, in effect, differ because members of the same household need not be related. The household concept has important implications for planning purposes, as the unit of demand for housing and for consumption of goods and services is often a household.

7.5 There are 12 household related data topics in the 2006 Population By-census.

住戶類型

定義:

住戶可劃分爲「家庭住戶」和「非家庭住戶」兩類。前者包含居於同一屋宇單位並共同分享膳食和開支的人士,無論他們是否有關係。後者則主要由居於院舍的人士所組成,這些院舍包括老人院、療養院、中途宿舍、機構的職員宿舍及學校宿舍等。

涵蓋範圍:

所有住戶

問卷上問題號數:

H2

答案分類:

- 1 家庭住戶
- 2 非家庭住戶

注意事項:

 由於非家庭住戶的性質特殊,所以 在分析住戶特徵時,一般只會以家 庭住戶作爲對象。

住戶人數

主要用途:

用以研究家庭住戶組成的趨勢。

定義:

指家庭住戶中的居港人口數目。

涵蓋範圍:

所有家庭住戶

問卷上問題號數:

由 P7-P18 等資料引申得出。

Type of Household

Definition:

Households can be distinguished into domestic and non-domestic households. Domestic households consist of people living in the same quarters, whether related or not, and sharing food and expenses. Non-domestic households mainly consist of people living in institutions such as homes for the aged, infirmaries, half-way houses, staff quarters of establishments and school dormitories.

Coverage:

All households

Question number on questionnaire:

H2

Response classification:

- 1 Domestic households
- 2 Non-domestic households

Points-to-note:

1. In view of the nature of non-domestic households, analysis on household characteristics usually confines to domestic households only.

Household Size

Major use:

For studying the trend of domestic household formation.

Definition:

Household size refers to the number of Hong Kong Resident Population living in the domestic household.

Coverage:

All domestic households

Question number on questionnaire:

Derived from information on P7-P18.

1 人、2 人、3 人、4 人、5 人、6 人…… 97 人、98 人及以上

注意事項:

1. 雖然非家庭住戶的人數亦有計算, 但這些資料沒有太大的分析價值。

住戶結構

定義:

單人住戶 - 只有一個人的家庭

未擴展的單核心家庭住戶 - 由一個家庭核心而無其他親屬組成的住戶。

垂直擴展的單核心家庭住戶 - 由一個家庭核心及一名或以上不同代的親屬所組成的住戶。這類住戶可包括或不包括其他屬同一代的親屬。

平向擴展的單核心家庭住戶 - 由 一個家庭核心及一名或以上同一代 親屬所組成的住戶。這個住戶內沒 有其他屬於另一代的親屬。 Response classification:

1, 2, 3, 4, 5, 6 ····· 97, 98 and over

Points-to-note:

 Household size is also calculated for non-domestic households. However, it is not meaningful to analyse these data.

Household Composition

Definition:

Household composition is derived from the information on relationship to the head of household of each person and the identification of spouse and parent-child relationships among members of the household. It shows the structure of a household in terms of the number of family nuclei and the relationship between a family nucleus and other related household members. A family nucleus refers to (i) a married couple and all of their never married children (if any); or (ii) a parent (either father or mother) with all of his or her never married children. The different categories of household composition are as follows:

One person – A family with only one person.

One unextended nuclear family – A household comprising one family nucleus without other related persons.

One vertically extended nuclear family – A household comprising one family nucleus with one or more related persons not of the same generation. It may or may not include other related persons of the same generation.

One horizontally extended nuclear family – A household comprising one family nucleus with one or more related persons of the same generation but without any other related persons of a different generation.

多個核心家庭的住戶 - 由兩個或 以上家庭核心所組成的住戶,其成 員可以有或沒有親屬關係。

有親屬關係人士的非核心家庭住戶 - 由一羣有親屬關係但未能形成一個家庭核心的人士所組成。這些住戶可包括或不包括一些沒有親屬關係的成員。

只包括無親屬關係人士住戶 - 由一羣無親屬關係人士所組成的住戶。

涵蓋範圍:

所有家庭住戶

問卷上問題號數:

由各人與戶主的關係 (P2)、配偶序號 (P3)及父母序號 (P4)等資料引申得出。

答案分類:

- 11 單人家庭
- 21 未擴展的單核心家庭 - 全部人有親屬關係
- 22 未擴展的單核心家庭 - 有無親屬關係的人
- 31 垂直擴展的單核心家庭 - 全部人有親屬關係
- 32 垂直擴展的單核心家庭 - 有無親屬關係的人
- 41 平向擴展的單核心家庭 - 全部人有親屬關係
- 42 平向擴展的單核心家庭 - 有無親屬關係的人
- 51 有另一代的多核心家庭 - 全部人有親屬關係
- 52 有另一代的多核心家庭 - 有無親屬關係的人

Two or more nuclear families – A household comprising two or more family nuclei whose members may or may not be related in any way.

Related persons forming no nuclear family – A household comprising related persons with or without unrelated persons who do not form a family nucleus

Unrelated persons only – A household comprising unrelated person(s).

Coverage:

All domestic households

Question number on questionnaire:

Derived from information on relationship to the head of household of each person (P2), spouse-serialnumber (P3) and parent-serial-number (P4).

- 11 One person households
- 21 Households consisting of one-unextended family nucleus without unrelated persons
- Households consisting of one-unextended family nucleus with unrelated persons
- 31 Households consisting of one-verticallyextended family nucleus without unrelated persons
- 32 Households consisting of one-verticallyextended family nucleus with unrelated persons
- 41 Households consisting of one-horizontallyextended family nucleus without unrelated persons
- 42 Households consisting of one-horizontallyextended family nucleus with unrelated persons
- 51 Households consisting of two-or-more family nuclei in different generations without unrelated persons
- 52 Households consisting of two-or-more family nuclei in different generations with unrelated persons

- 61 有垂直擴展同一代的多核心家庭 - 全部人有親屬關係
- 62 有垂直擴展同一代的多核心家庭 - 有無親屬關係的人
- 63 無垂直擴展同一代的多核心家庭 - 全部人有親屬關係
- 64 無垂直擴展同一代的多核心家庭 - 有無親屬關係的人
- 71 多個核心家庭 - 有多個無親屬關係的核心家庭
- 81 非核心家庭 - 全部人有親屬關係
- 82 非核心家庭 - 有無親屬關係的人
- 83 非核心家庭 - 全部人無親屬關係
- 91 由非常住成員組成的住戶
- 99 非家庭住戶

居所類型

定義:

指家庭住戶在屋宇單位內的佔用範圍。 各「**居所類型**」如下:

> 全個單位 - 整個屋宇單位由一個 家庭住戶獨自使用。

> 廳房 - 屋宇單位內有多於一個家庭住戶同住,這包括佔用單位內一個或以上房間以及其他閣仔及/或床位的住戶。

- 61 Households consisting of two-or-more family nuclei in the same generation with vertically extended family nucleus and without unrelated persons
- 62 Households consisting of two-or-more family nuclei in the same generation with vertically extended family nucleus and with unrelated persons
- 63 Households consisting of two-or-more family nuclei in the same generation without vertically extended family nucleus and without unrelated persons
- 64 Households consisting of two-or-more family nuclei in the same generation without vertically extended family nucleus and with unrelated persons
- 71 Households consisting of two-or-more unrelated family nuclei
- Non-family nucleus households with related persons only
- Non-family nucleus households with unrelated persons and related persons
- Non-family nucleus households with unrelated persons only
- 91 Households composed of only non-usual household members
- 99 Non-domestic households

Type of Accommodation

Definition:

Type of accommodation refers to the part of quarters that is occupied by the domestic household. The different categories of **type of accommodation** are as follows:

Whole quarters – The whole unit of quarters is used by one domestic household exclusively.

Rooms / cubicles — There are more than one domestic households sharing the unit of quarters. This includes household occupying one or more rooms / cubicles together with other cockloft(s) and / or bedspace(s) in the quarters.

閣仔 - 指商店或屋宇內架起的平台或小樓台,通常用作貯物,但有時亦會作居住用途。

床位

非住宅單位內沒有間隔的居所 — 如貨倉、店舗、工場和酒樓(如侍應晚上利用摺床在酒樓大堂度宿。)

非屋宇單位

涵蓋範圍:

所有家庭住戶

問卷上問題號數:

H6

答案分類:

- 1 全個單位
- 2 廳房
- 3 閣仔
- 4 床位
- 5 非住宅單位內沒有間隔的居所
- 6 非屋宇單位
- 9 不適用

居所租住權

定義:

指住戶現居單位所屬情況。各有關定義 如下:

自置,有按揭供款或借貸還款 - 住戶擁有居住單位的業權,並需就該單位的按揭供款或借貸還款。

Cocklofts – A cockloft is a raised platform or a kind of gallery inside a shop or house usually built for storage purpose but may sometimes be used as a place for accommodation.

Bedspaces

Accommodation in non-residential quarters with no area partitioned off – In such places as godowns, warehouses, shops, workshops and restaurants (For example, waiters staying overnight on camp beds in the main hall of restaurants.)

Unsheltered accommodation

Coverage:

All domestic households

Question number on questionnaire:

H6

Response classification:

- 1 Whole quarters
- 2 Rooms / cubicles
- 3 Cocklofts
- 4 Bedspaces
- 5 Accommodation in non-residential quarters with no area partitioned off for living purpose
- 6 Unsheltered accommodation
- 9 Not applicable

Tenure of Accommodation

Definition:

The terms and conditions under which accommodation is held by a household. The different terms are defined as follows:

Owner-occupier, with mortgage payment or loan repayment – A household which owns the quarters it occupies with mortgage payment or loan repayment paid for the quarters.

自置,沒有按揭供款及借貸還款 -住戶擁有居住單位的業權,但無需 就該單位支付按揭供款及借貸還 款。

全租 - 住戶向居於別處的人士租用整個單位自住,沒有分租,單位內也沒有其他的住戶。

合租 - 兩個或以上的住戶分別向居 於別處的人士租用部分單位居住。

二房東 - 住戶向居於別處的人士租 用整個單位,並把部分單位分租予 其他住戶。

三房客 - 住戶向居於同一單位內的 人士租用單位的一部分居住。

由僱主提供(包括職員宿舍) - 現居 單位爲住戶成員的僱主所提供,亦 包括以象徵式租金向僱主租用單位 的住戶。但獲僱主提供房屋津貼而 自行租用地方居住者,則不屬此類 別。

冤交租金 - 住戶免費在單位內居住 (不論是否獲得業主同意),但不包 括獲僱主提供居所的住戶。

涵蓋範圍: 所有家庭住戶

問卷上問題號數:

H7

Owner-occupier, without mortgage payment and loan repayment – A household which owns the quarters it occupies without any mortgage payment or loan repayment for the quarters.

Sole tenant – A household which rents the whole quarters it occupies from someone who lives outside the quarters without sharing it with other household(s) or subletting.

Co-tenant – Two or more households each of which rents part of a quarters from someone who lives outside the quarters.

Main tenant – A household which rents the whole quarters it occupies from someone who lives outside the quarters and sublets part of it to other household(s).

Sub-tenant – A household which rents part of the quarters from someone who lives in the same quarters.

Provided employer (including staff by quarters) - A household which occupies an accommodation provided by the employer of one of the household members. This also includes households occupying quarters leased from employers at a nominal rent. If a household member uses housing allowance by his employer for renting accommodation, the tenure is not considered as provided by employer.

Rent free – A household which occupies an accommodation free, with or without the owner's permission. This excludes households occupying accommodation provided by employers.

Coverage:

All domestic households

Question number on questionnaire:

H7

- 1 自置,有按揭供款或借貸還款
- 2 自置,沒有按揭供款及借貸還款
- 3 全和
- 4 合租
- 5 二房東
- 6 三房客
- 7 由僱主提供(包括職員宿舍)
- 9 不適用

注意事項:

1. 圖 7.1 顯示了居所租住權的分類情 況。

居所內廳房數目

定義:

涵蓋範圍:

所有家庭住戶

問卷上問題號數:

H6

Response classification:

- 1 Owner-occupier with mortgage payment or loan repayment
- 2 Owner-occupier without mortgage payment and loan repayment
- 3 Sole tenant
- 4 Co-tenant
- 5 Main tenant
- 6 Sub-tenant
- 7 Provided by employer (including staff quarters)
- 8 Rent free
- 9 Not applicable

Points-to-note:

 Chart 7.1 illustrates the classification of tenure of accommodation.

Number of Rooms in the Residence

Definition:

A room is a space in the quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 2 metres, of a size large enough to hold a bed for an adult, that is at least 4 square metres. The number of rooms in the residence includes bedrooms, dining rooms, living rooms, store rooms, study rooms, utility rooms, servants' rooms, kitchens, bathrooms / toilets and other separate spaces used for or intended for domestic purposes, so long as they meet the criteria of walls and floor space. Rooms partially divided because of fixed or movable partitions or because of their use (e.g. Living-and-Dining rooms without fixed partitions) are counted as separate rooms. Passengerways, verandahs and lobbies are not counted, even if they meet the criteria.

Coverage:

All domestic households

Question number on questionnaire:

H6

0個、1個、2個、3個、4個、5個、6個 或以上及共用房間

注意事項:

- 不包括只作商業用途的房間,但商 住兩用房間則計算在內。
- 2. 統計員須先記錄該住戶「**自用**」的 各類房間數目。如沒有自用房間, 只有與其他住戶共用的房間,則統 計員只需記下房間類型爲「共用」 便可,而無需進一步搜集資料,因 爲「共用」的情況已足以反映其居 住擠迫程度。

住戶每月按揭供款及借貸還款

定義:

「**住戶每月按揭供款及借貸還款**」指住 戶爲其居所支付二零零六年七月份的按 揭及借貸月供金額,包括因第一按、第 二按、房屋貸款或其他有關贖回所居屋 宇單位的特別還款計劃而償還的款項, 但不包括差餉、地租、水費、電費、氣 體燃料費、電話費及管理費。

涵蓋範圍:

所有居於自住有按揭供款或借貸還款屋 字單位的家庭住戶

問卷上問題號數:

H9a

Response classification:

0, 1, 2, 3, 4, 5, 6+ and shared room

Points-to-note:

- Rooms solely used for business purpose are not included. However, rooms used partly for business and partly for domestic purpose are counted.
- 2. Enumerators are instructed to record the number of each type of rooms used **exclusively** by the household in the first place. In case there is no exclusively used room but only room(s) shared with other household(s), the enumerator is only required to mark down the type of room being "shared". It is considered not necessary to capture further details in this regard as the "shared" status is sufficient to reflect the degree of overcrowding.

Monthly Household Mortgage Payment and Loan Repayment

Definition:

Monthly household mortgage payment and loan repayment refers to the total monthly mortgage payment and loan repayment paid by the household for the quarters they occupied in July 2006. It includes payments for first mortgage, second mortgage, home equity loan or some other special payment schemes in order to redeem the quarters occupied but excludes payments for rates, government rent, water, electricity, gas, telephone and management fees.

Coverage:

All domestic households who owned their occupied quarters with mortgage payment or loan repayment

Question number on questionnaire:

H9a

000000 0元 000001 1元 000002 2元

. . .

000123 123 元

. . .

999999 不適用

注意事項:

- 把居住單位抵押而取得的貸款,其 還款不算作按揭供款及借貸還款。
- 若所供款項涉及住宅和非住宅(如 貯物室、工場等)兩部分,則應記 錄按比例計算的住宅部分供款額。
- 3. 如受訪者對提供確實的供款資料有 所猶疑,會出示一張載錄供款組別 的提示冊,以便他/她選出適當的 答案。

尚餘按揭供款或借貸還款年期

定義:

指按揭單位尙餘的按揭供款或借貸還款 年期。如該單位涉及多項按揭或貸款條 款,則只需取其中尙餘供款或還款年數 最長者作爲答案。

涵蓋範圍:

所有居於自住有按揭供款或借貸還款屋 字單位的家庭住戶

問卷上問題號數:

H9a

Response classification:

000000 \$0 000001 \$1 000002 \$2

• • •

000123 \$123

. . .

999998 \$999998 and above999999 Not applicable

Points-to-note:

- Repayment for loans obtained from taking the quarters as deposit is not included in the mortgage payment and loan repayment.
- 2. If the amount of mortgage payment includes the accommodation together with non-residential areas like storeroom, workshops, the amount reported should be apportionated according to the proportion of area for residential purpose.
- 3. In case the respondent has reservation in giving the exact amount, a prompt card containing payment groups is presented to him / her for choosing the appropriate answer.

Outstanding Mortgage Payment / Loan Repayment Period

Definition:

Outstanding mortgage payment / loan repayment period refers to the number of years the mortgage payment or loan repayment period of the quarters still last. If more than one mortgage or loan term is involved, only the one involving the longest outstanding mortgage or loan period is required.

Coverage:

All domestic households who owned their occupied quarters with mortgage payment or loan repayment.

Question number on questionnaire:

H9a

88 少過一年

01 一年但少過兩年

02 兩年但少過三年

... ...

30 三十年及以上

99 不適用

住戶每月收入

定義:

指住戶成員於二零零六年六月份的總收入(包括他們由所有工作獲得的現金收入及其他現金收入)。[詳情可參考個人數據項目之「收入」一欄。]

涵蓋範圍:

所有家庭住戶

問卷上問題號數:

P40、P42 及 P43

答案分類:

H9b

可根據以下方式引申得出:把「**住戶每 月租金**」總額減去二房東分租部分單位 給三房客而得的租金收入。

答案分類:

0000000元0000011元0000022元

• • •

000123 123 元

. . .

999998 999998 元及以上

999999 不適用

Monthly Household Rent

Definition:

Monthly household rent is the net amount paid by a household for occupying an accommodation in July 2006. It includes rates, government rent and management fee for that month but excludes payments for water and electricity. For a main tenant, rent is the net amount he paid after deducting the rent he received from his sub-tenant(s) for subletting part of the quarters. Zero rent households include households living in accommodation of friends or relatives without paying any rent with or without permission, main tenant households with total rental receipts from sub-tenant(s) greater than or equal to rent paid, and those households whose quarters were provided free by employers.

Coverage:

All domestic households who rent their accommodation or whose quarters were provided free by employers.

Question number on questionnaire:

H9h

Monthly household rent is derived from the gross monthly household rent after deducting the rent income the main tenant received from his / her sub-tenant(s) for subletting part of the quarters.

Response classification:

000000 \$0 000001 \$1 000002 \$2

• • •

000123 \$123

個人資料

7.6 二零零六年中期人口統計共設 二十四個個人數據項目,這些項目大致 可分爲四類,計有人口及社會特徵、教 育特徵、經濟特徵及內部遷移特徵。

人口及社會特徵

7.7 在二零零六年中期人口統計中,用以收集香港人口及社會特徵資料的數據項目共有八個。各項目的定義、涵蓋範圍及答案分類詳載於下文。

年齡

定義:

指一個人出生後所度過完整年數。答案 由出生年月引申得出。

涵蓋範圍:

居港人口

問卷上問題號數:

P6

答案分類:

按年計(由0至100歲及以上)

注意事項:

- 1. 出生年月以西曆計算。
- 如受訪者無法提供出生年月,會收 集以下資料代替:

Personal Data

7.6 There are a total of 24 personal data topics in the 2006 Population By-census which can be broadly categorised into 4 groups, namely demographic and social characteristics, educational characteristics, economic characteristics, and internal migration characteristics.

Demographic and Social Characteristics

7.7 In the 2006 Population By-census, 8 data topics are included to collect the demographic and social characteristics of the Hong Kong population. The definition, coverage and output classification of each data topic are detailed in the following paragraphs.

Age

Definition:

Age is the number of complete years a person has passed since birth. It is derived from month and year of birth.

Coverage:

Hong Kong Resident Population

Question number on questionnaire:

P6

Response classification:

Single years (0 - 100+)

Points-to-note:

- 1. The month and year of birth are recorded in western reckoning.
- 2. For those persons who cannot provide their month and year of birth, the following information is obtained as an alternative:

- 根據農曆計算的出生年月;
- 根據十二生肖計算的出生年份;
- 大約歲數;或
- 受訪者認爲最接近的估算。
- 3. 爲確保能算出準確的歲數,會追問 在西曆七月出生的受訪者於七月十 四日是否已過生日。

- month and year of birth according to lunar calendar;
- year of birth according to the "Animal" cycle;
- rough age; or
- best estimate according to respondent.
- 3. To ensure exact age can be computed, respondents born in July will be probed whether they have passed their birthdays or not on 14 July.

性別

涵蓋範圍:

居港人口

問卷上問題號數:

P5

答案分類:

- 1 男
- 2 女

婚姻狀況

定義:

受訪者在中期人口統計訪問時所報稱的「**婚姻狀況**」,而有關的婚姻或離婚事件是否有經過合法登記或儀式,並未有 查核。

涵蓋範圍:

十五歲及以上的居港人口

問卷上問題號數:

P19

答案分類:

- 1 從未結婚
- 2 已婚(喪偶/離婚/分居除外)
- 3 喪偶
- 4 離婚
- 5 分居

Sex

Coverage:

Hong Kong Resident Population

Question number on questionnaire:

P5

Response classification:

- 1 Male
- 2 Female

Marital Status

Definition:

The **marital status** of a person is recorded according to the status reported by respondents in the By-census. There is no check on whether the marriage or divorce had undergone any legal registration or ceremony.

Coverage:

Hong Kong Resident Population aged 15 and over

Question number on questionnaire:

P19

Response classification:

- 1 Never married
- 2 Now married (except widowed / divorced / separated)
- 3 Widowed
- 4 Divorced
- 5 Separated

91

2006 Population By-census Main Report : Volume II

注意事項:

- 1. 報稱的「**婚姻狀況**」反映了受訪者 自己認爲的情況。他/她無需提交 任何法律文件供查證之用。因此, 報稱「已婚」的人士可能包括未經 合法登記的同居夫婦。
- 2. 十五歲以下人士的婚姻狀況會視爲「從未結婚」。

出生地點

定義:

指一個人的出生所在地。

涵蓋範圍:

居港人口

問卷上問題號數:

P8

答案分類:

- 11 香港
- 31 中國內地
- 32 澳門
- 33 台灣
- 34 英國
- 41 日本
- 42 南韓
- 43 新加坡
- 44 菲律賓
- 45 泰國
- 46 馬來西亞
- 47 印尼
- 48 印度
- 49 巴基斯坦
- 50 孟加拉
- 51 斯里蘭卡
- 52 越南
- 53 尼泊爾
- 57 澳洲
- 58 新西蘭

Points-to-note:

- 1. The **marital status** reported reflects the status as regarded by the respondent. He / she is not required to produce any legal documents for verification of his / her answer. Hence, persons reported to be "now married" may include persons living together as husband and wife who are not legally married.
- 2. The marital status of all persons aged under 15 are considered as "Never married".

Place of Birth

Definition:

The **place of birth** is the country in which the person was born.

Coverage:

Hong Kong Resident Population

Question number on questionnaire:

P8

- 11 Hong Kong
- 31 The mainland of China
- 32 Macao
- 33 Taiwan
- 34 United Kingdom
- 41 Japan
- 42 South Korea
- 43 Singapore
- 44 Philippines
- 45 Thailand
- 46 Malaysia
- 47 Indonesia
- 48 India
- 49 Pakistan
- 50 Bangladesh
- 51 Sri-Lanka
- 52 Vietnam
- 53 Nepal
- 57 Australia
- 58 New Zealand

- 59 其他亞洲及大洋洲國家

- 64 葡萄牙
- 65 西班牙
- 66 荷蘭
- 67 俄羅斯及獨聯體國家(即前蘇聯加 盟共和國)
- 68 瑞士
- 69 其他歐洲國家
- 71 美國
- 72 加拿大
- 79 其他中美洲及南美洲國家
- 89 非洲國家
- 99 不適用:指非住戶常住成員

- 59 Other Asian and Oceanian countries
- 60 Ireland Republic
- 61 France
- 62 Germany
- 63 Italy
- 64 Portugal
- 65 Spain
- 66 Netherlands
- Russia and Countries of the Commonwealth of Independent States (i.e. states of the former Soviet Union)
- 68 Switzerland
- 69 Other European countries
- 71 United States of America
- 72 Canada
- 79 Other Central and South American countries
- 89 African countries
- 99 Not applicable: for non-usual members of the household

種族

完美:

一個人的「**種族**」由自我確認來決定, 通常以社會和文化爲基礎。

涵蓋範圍:

居港人口

問卷上問題號數:

問卷 P9a/P9b/P9c

答案分類:

- 01 華人
- 02 菲律賓人
- 03 印尼人
- 04 日本人
- 05 尼泊爾人
- 06 泰國人
- 07 印度人
- 08 巴基斯坦人
- 09 孟加拉人
- 10 斯里蘭卡人
- 11 越南人

Ethnicity

Definition:

The **ethnicity** of a person is determined by self-identification; normally on a social and cultural basis.

Coverage:

Hong Kong Resident Population

Question number on questionnaire:

P9a / P9b / P9c

- 01 Chinese
- 02 Filipino
- 03 Indonesian
- 04 Japanese
- 05 Nepalese
- 06 Thai
- 07 Indian
- 08 Pakistani
- 09 Bangladeshi
- 10 Sir-Lankan
- 11 Vietnamese

- 12 韓國人
- 19 其他亞洲人
- 21 白人
- 31 黑人
- 89 其他
- 99 不適用:指非住戶常住成員

注意事項:

 如受訪者報稱爲混血兒,他/她須 提供詳細資料,以便分類。

國籍

定義:

「**國籍**」與個人的居住地、種族或出生 地有關。「**國籍**」不一定與該人的旅行 證件有關。

涵蓋範圍:

居港人口

問卷上問題號數:

P10a/P10b/P10c/P10d

答案分類:

- 01 無國籍
- 11 中國籍(永久居留地是香港)
- 31 中國籍(永久居留地不是香港)
- 34 英國籍
- 41 日本籍
- 42 南韓籍
- 43 新加坡籍
- 44 菲律賓籍
- 45 泰國籍
- 46 馬來西亞籍
- 47 印尼籍
- 48 印度籍
- 49 巴基斯坦籍
- 50 孟加拉籍
- 51 斯里蘭卡籍
- 52 越南籍
- 53 尼泊爾籍

- 12 Korean
- 19 Other Asian
- 21 White
- 31 Black
- 89 Others
- 99 Not applicable: for non-usual members of the household

Points-to-note:

 In case a person reported to be of mixed ethnic groups, he / she is requested to report the details to facilitate classification.

Nationality

Definition:

Nationality may be related to a person's place of residence, ethnicity or place of birth. It may not necessarily be related to a person's travel document.

Coverage:

Hong Kong Resident Population

Question number on questionnaire:

P10a / P10b / P10c / P10d

- 01 Stateless
- 11 Chinese (place of domicile Hong Kong only)
- 31 Chinese (place of domicile other than Hong Kong)
- 34 British
- 41 Japanese
- 42 South Korean
- 43 Singaporean
- 44 Filipino
- 45 Thai
- 46 Malaysian
- 47 Indonesian
- 48 Indian
- 49 Pakistani
- 50 Bangladeshi
- 51 Sri-Lankan
- 52 Vietnamese
- 53 Nepalese

- 57 澳洲籍
- 58 新西蘭籍
- 59 其他亞洲及大洋洲國家的國籍
- 60 愛爾蘭籍
- 61 法國籍
- 62 德國籍
- 63 意大利籍
- 64 葡萄牙籍
- 65 西班牙籍
- 66 荷蘭籍
- 67 俄羅斯籍及獨聯體國家(即前蘇聯 加盟共和國)的國籍
- 68 瑞士籍
- 69 其他歐洲國家的國籍
- 71 美國籍
- 72 加拿大籍
- 79 其他中美洲及南美洲國家的國籍
- 89 非洲國家的國籍
- 99 不適用:指非住戶常住成員

注意事項:

- 如受訪者聲稱擁有多個一個國籍, 會以他/她最常報稱的一個國籍作 爲答案。
- 2. 根據中華人民共和國國籍法,凡在中國內地或香港出生,並具有中國血統的香港居民及前居民,都被視爲中國籍。除非他/她曾經採取行動,放棄中國籍(但實際上極少這些人曾經這樣做)。

慣用語言

定義:

指在家中日常交談所用的語言/方言, 但不適用於五歲以下兒童或失去語言能 力的人士。

- 57 Australian
- 58 New Zealander
- 59 Nationality of people in other Asian and Oceanian countries
- 60 Irish
- 61 French
- 62 German
- 63 Italian
- 64 Portuguese
- 65 Spanish
- 66 Dutch
- 67 Russian and Nationality of people in countries of the Commonwealth of Independent States (i.e. states of the former Soviet Union)
- 68 Swiss
- 69 Nationality of people in other European countries
- 71 American
- 72 Canadian
- 79 Nationality of people in other Central and South American countries
- 89 Nationality of people in African countries
- 99 Not applicable: for non-usual members of the household

Points-to-note:

- If a person claims to have more than one nationality, he / she is requested to report the most commonly claimed one.
- 2. Under the Nationality Law of the People's Republic of China, Hong Kong residents and former residents who are of Chinese descent and born in the mainland of China or Hong Kong are of Chinese nationality unless specific action has been taken to give up the Chinese nationality (few people with such and similar background have actually done so).

Usual Language

Definition:

The **usual language** is the language / dialect a person used in daily communication at home. This is not applicable to persons aged under 5 or mute persons.

涵蓋範圍:

五歲及以上的居港人口,但不包括失去 語言能力的人士。

問卷上問題號數:

P21

答案分類:

- 01 廣州話(即俗稱的廣東話)
- 02 潮州話
- 03 四邑話(新會、開平、恩平、台山)
- 04 客家話
- 05 普通話(國語)
- 06 福建話
- 07 上海話
- 08 其他中國方言
- 34 英語
- 41 日語
- 42 韓國語
- 44 菲律賓語(他加祿語)
- 45 泰語
- 46 馬來語
- 47 印尼語(印度尼西亞語)
- 48 印地語(印度)
- 49 烏爾都語(巴基斯坦)
- 50 孟加拉語(孟加拉)
- 51 僧加羅語(辛哈拉語)(斯里蘭卡)
- 52 越南語
- 53 尼泊爾語
- 59 其他亞洲及大洋洲語
- 60 愛爾蘭語
- 61 法語
- 62 德語
- 63 意大利語
- 64 葡萄牙語
- 65 西班牙語
- 66 荷蘭語
- 67 俄語
- 69 其他歐洲語言
- 88 失去語言能力人士
- 91 其他別處未分類的語言
- 99 不適用(指五歲以下人士或非住戶 常住成員)

Coverage:

Hong Kong Resident Population aged 5 and over, excluding mute persons.

Question number on questionnaire:

P21

- 01 Cantonese
- 02 Chiu Chau
- 03 Sze Yap (San Wui, Hoi Ping, Yan Ping, Toi Shan)
- 04 Hakka
- 05 Putonghua (Mandarin)
- 06 Fukien
- 07 Shanghainese
- 08 Other Chinese dialects
- 34 English
- 41 Japanese
- 42 Korean
- 44 Filipino (Tagalog)
- 45 Thai
- 46 Malay
- 47 Indonesian (Bahasa Indonesia)
- 48 Hindi (India)
- 49 Urdu (Pakistan)
- 50 Bengali (Bangladesh)
- 51 Sinhalese (Sinhala) (Sri-Lanka)
- 52 Vietnamese
- 53 Nepali
- 59 Other Asian and Oceanian languages
- 60 Irish
- 61 French
- 62 German
- 63 Italian
- 64 Portuguese
- 65 Spanish
- 66 Dutch
- 67 Russian
- 69 Other European languages
- 88 Mute persons
- 91 Other languages not elsewhere classified
- 99 Not applicable (for persons aged under 5 or non-usual members of the household)

注意事項:

1. 對於五歲及以上未懂說話或不能清 楚講話的兒童,會以其家中較年長 兒童或母親所說語言作爲他/她的 「**慣用語言**」。

使用其他語言/方言的能力

定義:

若受訪者在日常生活中(如讀書、工作或回答問路者),能夠使用某種語言/方言與人進行簡單交談,則他/她可算具備「使用該種語言/方言的能力」。如受訪者除慣用語言外,尚能說其他語言/方言,則他/她可算具備「使用其他語言/方言的能力」。

涵蓋範圍:

五歲及以上的居港人口,但不包括失去 語言能力的人士。

問卷上問題號數:

P22

答案分類:

與「**慣用語言**」相同,只有「88 失去語言能力人士」一項除外,因該項不會在「**使用其他語言/方言的能力**」中出現。

注意事項:

1. 除慣用語言外,每個受訪者可記錄 最多其他三種語言/方言。如受訪 者能使用四種以上語言/方言,則 會要求他/她指出說得最流利的三 種語言/方言。

Points-to-note:

 For a child aged 5 and over who has not yet learnt to speak or cannot speak clearly, the usual language is recorded to be the same as that spoken by the elder child or that of mother.

Ability to Speak Other Languages / Dialects

Definition:

If a person is able to conduct a short conversation with a particular language / dialect in everyday life activities such as responding when being asked for direction, studying at school or using at work, he is deemed to have the **ability to speak the language** / **dialect**. A person who is capable of speaking languages / dialects other than the usual language possesses the **ability to speak other languages** / **dialects**.

Coverage:

Hong Kong Resident Population aged 5 and over, excluding mute persons.

Question number on questionnaire: P22

Response classification:

Same as **usual language** except "88 Mute persons" which is not present in **ability to speak other languages / dialects**.

Points-to-note:

1. Apart from the usual language, a maximum of three other languages / dialects can be recorded for each respondent. In case a person can speak more than four languages / dialects, he / she is asked to indicate the three most fluent in speaking.

教育特徵

7.8 二零零六年中期人口統計共有 六個與「**教育特徵**」有關的數據項目。 各數據項目的涵蓋範圍及問題流程載於 表 7.1 及圖 7.2。

7.9 二零零六年中期人口統計在二零零六年七月至八月(學校暑假期間)進行,故此所有有關教育特徵的數據項目,是根據在二零零六年上半年的情況作訪問。

就學情況

定義:

「**就學情況**」是指某人接受教育的情況。

涵蓋範圍:

居港人口

問卷上問題號數:

P23(iv)

答案分類:

- 1 求學階段(全日制課程)
- 2 求學階段(部分時間制課程)
- 3 求學階段(遙距課程)
- 4 已完成所修讀課程的最高程度
- 5 中途退學,未完成所修讀課程的最 高程度
- 9 不適用(指從未受教育人士或非住戶常住成員)

注意事項:

- 1. 只計算就讀正式課程的學生。「**正 式課程**」須符合以下準則:
 - (i) 爲期最少一個學年

Educational Characteristics

7.8 There are six data topics related to **educational characteristics** in the 2006 Population By-census. The coverage of each education data topic and the question flow are illustrated in Table 7.1 and Chart 7.2.

7.9 In the 2006 Population By-census which was conducted in July to August 2006 (i.e. during the summer vacation for schools), data topics related to educational characteristics were thus enquired with reference to the first half of 2006.

School Attendance

Definition:

School attendance is the status of a person in acquiring education.

Coverage:

Hong Kong Resident Population

Question number on questionnaire: P23(iv)

Response classification:

- 1 Studying (Full-time)
- 2 Studying (Part-time)
- 3 Studying (Distance learning course)
- 4 Completed the highest level of course attended
- 5 Withdrawn from the highest level of course without completion
- 9 Not applicable (for persons with no schooling or non-usual members of the household)

Points-to-note:

- 1. Only persons studying formal course are counted as school attendance. A **formal course** must satisfy the following criteria:
 - (i) it lasts for at least one academic year;

- (ii) 具備指定入學資格(香港公開大學提供的課程除外);及
- (iii) 設有考試或指定評核成績的 程序。
- 2. 「**全日制課程**」包括半日制的日校 課程(如小學下午班),以及廠校交 替制課程或實習課程。
- 3. 「部分時間制課程」包括由大學、香港專業教育學院、香港教育學院、香港教育學院、大學校外進修部、大學專業進修學院、夜校及其他教育機構開辦的日間部分時間給假調訓課程或晚間課程,並符合「正式課程」條件者。
- 4. 「遙距課程」包括函授課程或遙距 學習課程,只要符合「正式課程」 的條件便可。香港公開大學所提供 的課程包括在內。

教育程度

定義:

「**教育程度**」包括最高就讀程度及最高 完成程度。

- (ii) it requires specific academic qualifications for entrance (this condition, however, can be waived for courses offered by the Open University of Hong Kong); and
- (iii) it includes examination(s) or specific academic assessment procedure(s).
- 2. **Full-time courses** include half-day day schools (e.g. p.m. session of primary school), and work placement of sandwich or work-study programmes.
- 3. Part-time courses include part-time day release courses and evening courses offered by the Universities, Hong Kong Institute of Vocational Education, Hong Kong Institute of Education, University Extra-mural Departments, School of Professional and Continuing Education of Universities, evening schools and other educational institutions which fulfills the criteria of a formal course.
- 4. **Distance learning courses** include correspondence or distance-learning courses which fulfill the criteria of a formal course. This includes the courses offered by the Open University of Hong Kong.

Educational Attainment

Definition:

Educational Attainment comprises the highest level attended and the highest level completed.

- (a) 「最高就讀程度」:指受訪者 在學校或其他教育機構修讀 「達到」的最高教育水平, 不論他/她有否完成該課 程。計算教育程度時,只包 括正式課程,即須最少爲期 一個學年、具指定學歷資格 才可入讀(不包括香港公開 大學主辦的非學位/學位/ 研究生課程),以及設有考試 或指定的評核成績程序。
- **(b)** 「最高完成程度」:指受訪者 在學校或其他教育機構修讀 「並已完成」的最高教育水 平,不論他/她有否通過有 關課程的考試或評核。只包 括正式課程,即須最少爲期 一個學年、具指定學歷資格 才可入讀(不包括香港公開 大學主辦的非學位/學位/ 研究生課程),以及設有考試 或指定的評核成績程序。

涵蓋節圍:

問卷上問題號數: P23(i) / P24a(i) / P24b(i)

答案分類:

居港人口

- 01 未受教育
- 02 幼稚園/幼兒園
- 11 小一(第一班)
- 12 小二(第二班)
- 13 小三(第三班)

- (a) Highest level attended: Highest level attended is the highest level of education ever attained by a person in school or other educational institution, regardless of whether he had completed the course. Only formal courses are counted as educational attainment. A formal course shall be one that lasts for at least one academic year, requires specific academic qualifications for entrance (except sub-degree degree post-graduate courses offered by the Open University of Hong Kong) and includes examinations or specific academic assessment procedures.
- **(b) Highest level completed:** Highest level completed is the highest level of education completed by a person in school or other educational institution, regardless of whether he / she had passed the examinations or assessments of the Only formal courses are course. counted for the highest level of education completed. A formal course shall be one that lasts for at least one academic requires specific academic year, qualifications for entrance (except sub-degree / degree / post-graduate courses offered by the Open University Kong) includes Hong and specific academic examinations or assessment procedures.

Coverage:

修讀科目

定義:

指受訪者最高就讀/完成程度時所修讀 的課程科目。若涉及的科目超過一個, 則只記錄他/她認爲最重要的一個。

涵蓋範圍:

居港人口,但不包括從未受教育人士及 只在就讀/曾攻讀學前、小學或中學課程(包括毅進計劃)的人士。

問卷上問題號數:

P23(iii) / P24a(ii) / P24b(ii)

答案分類:

- 02 藝術 包括音樂、繪圖及繪畫、雕刻、戲劇、舞蹈、馬戲、攝影及電影攝影、剪接、音樂製造、電影錄像學、電台及電視製作、印刷及出版、設計及手工藝、產品創新科技
- 03 人文學科 包括文化、文學、語言及語言學、傳譯及翻譯、人文學科、歷史、哲學、神學、宗教、考古學及倫理學
- 04 社會及行爲科學 包括經濟學、 經濟學歷史、社會學、人類學(形 體人類學除外)、理論心理學、臨 床心理學、人口統計學、地理學 (自然地理學除外)、政治學、區域 研究、人種學、未來學、和平與戰 鬥、人權、通識教育、環球研究、 國際關係學、社會科學、性別研究

Field of Education

Definition:

Field of education refers to the subject of the courses to which a person's education attainment (highest level / class attended or highest level / class completed) was related. If a person had attended / completed courses in more than one field of education, only the field which he / she considered the most important was recorded.

Coverage:

Hong Kong Resident Population excluding persons with no schooling and those studying / having studied pre-primary, primary or secondary education (incl. Project Yi Jin) only.

Question number on questionnaire:

P23(iii) / P24a(ii) / P24b(ii)

Response classification:

- O2 Arts Including studies in music; drawing and painting; sculpturing; drama; dance; circus; photography and cinematography; editing; music production; film / video, radio and TV production; printing, publishing and illustrating; art, design and craft skills; product innovation technology
- O3 Humanities Including studies in culture; literature; languages and linguistics; interpretation and translation; liberal arts; history; philosophy; theology; religion; archaeology and ethics
- O4 Social and behavioral sciences Including studies in economics, economic history; sociology; anthropology (except physical anthropology); pure psychology; clinical psychology; demography; geography (except physical geography); political science; regional studies; ethnology; futurology; peace and conflict; human rights; liberal studies; global studies; international studies; social studies; gender studies

- 05 生物科學 包括生物學、植物學、細菌學、毒物學、微生物學、種物學、昆蟲學、鳥類學、遺傳學、生物化學、生物物理學、生態學及其他相關科目;不包括臨床科學、獸醫
- 06 物理科學 包括天文學、太空科學、物理學、化學、綜合/普通科學、地質學、地球物理學、礦物學、形體人類學、自然地理及其他地球科學、氣象學及其他大氣科學、天氣研究、海洋科學、火山學、古生態學
- 07 數學及統計學 包括數學、運籌學、數學分析學、數量分析學、精算學、統計學及其他相關科目
- 08 師資訓練及教育研究 包括教育學院、工商師範學院課程、教育文憑書課程、教育學位課程、教育、課程發展與評估、課程與指導、教學評估、教學研究及其他教育科學學位課程
- 09 會計及秘書課程 包括會計、核 數、稅務學、秘書職務(公司行政 秘書學除外)、速記、打字、簿記
- 10 商業行政及財政管理 包括零售 及傳銷、廣告、公共關係、病房地產、銀行業務、應用經濟學、市場學、金融學及投資學、估價、採辦學及供應學、保險學、公司行政秘書學、人事行政管理、公共及商業行政、管理科學、商業物流學學、爾際貿易、商品經銷學、風險管理學

- O5 Life sciences Including studies in biology; botany; bacteriology; toxicology; microbiology; zoology; entomology; ornithology; genetics; biochemistry; biophysics; ecology; other allied sciences; excluding clinical and veterinary sciences
- 06 Physical sciences - Including studies in science; astronomy and space physics; chemistry; integrated / general science; geology; geophysics; mineralogy; physical anthropology; physical geography and other geosciences; meteorology and other atmospheric sciences including climatic research; marine sciences; vulcanology; palaeoecology
- 07 Mathematics and statistics Including studies in mathematics; operations research; numerical analysis; quantitative analysis; actuarial science; statistics and other allied fields
- O8 Teacher training and education science –
 Including studies in colleges of education;
 technical teacher training courses; diploma /
 certificate of education courses and university
 degree courses in education; curriculum
 development and evaluation; curriculum and
 instruction; educational assessment and
 evaluation; educational research and other
 education science
- O9 Accountancy and studies in secretarial skills Including studies in accountancy; auditing; taxation; secretaryship (except company secretaryship); shorthand; typing; book-keeping
- 10 administration **Business** and financial management - Including studies in retail and sales; advertising; public relations; real estate; banking; applied economics; marketing; finance and investment; valuation; purchase and supply; insurance; company secretaryship; personnel administration; public and business administration; management studies; business logistics; decision sciences; international trade; merchandising; risk management

- 11 電腦課程 包括系統設計、電腦程序編製、電子遊戲開發、電腦應用、資料處理、萬維網科技、多媒體科技、資訊科技、互聯網科技、網絡及運作系統(軟件發展)
- 12 健康衞生課程 - 包括藥物、中醫 藥學、針灸學、護理、聽力學、解 剖學、醫療生物科技、流行病學、 細胞學、組織學(細胞)、生理學、 **免疫學、免疫血液學、病理學、麻** 醉學、兒科學、產科學、婦科學、 傳染病學、內科學、外科、神經 學、精神病學、職業治療、物理治 療、腫瘤學、放射學、眼科學、醫 療服務、公眾健康服務、衞生、藥 劑、藥理學、配藥學、治療學、復 康學、補缺學、視光學、營養學、 牙醫助理、牙醫衞生助理、牙科技 術室員、齒髓病學、矯形學、法醫 學、牙醫學、獸醫、臨床科學
- 13 建築 包括建築設計、城市設計、結構建築、園林建築學、社區規劃、製圖學
- 14 運輸及物流服務 包括航海技術、船長、航海科學、機司、航空交通管理、鐵路運作、道路汽車指揮操作、郵寄服務、物流及運輸運作
- 15 環境保護 包括環境的保護及管制、環境衞生、空氣及污水管制、職業健康及安全科技、勞工保護及保安

- 11 Computing Including studies in system design; computer programming; computer game development; computer application; data processing; web technology; multimedia technology; information technology; internet technology; networks and operating system (software development only)
- 12 Health – Including studies in medicine; Chinese medicines; acupuncture; nursing; audiology; anatomy; biomedical science; epidemiology; cytology; histology; physiology; immunology and immunhoaematology; pathology; anaesthesiology; paediatrics; obstetrics and gynaecology; infectious diseases; internal medicine; surgery; neurology; psychiatry; occupational therapy; physical therapy; oncology; radiology; ophthalmology; medical services including public health services; hygiene; pharmacy; pharmacology; dispensing studies; therapeutics; rehabilitation; prosthetics; optometry; nutrition; dental services including dental assisting, dental hygienist; dental laboratory technician; endodontics; orthotics; forensic medicine; odontology; veterinary; clinical sciences
- 13 Architecture Including studies in architecture and town planning; structural architecture; landscape architecture; community planning; cartography
- 14 Transport and logistics services Including studies in seamanship; ship's officer; nautical science; air crew; air traffic control; railway operations; road motor vehicle operations; postal service; logistics and transport operations
- 15 Environmental protection Including studies in environmental conservation; environmental health; control and protection; air and water pollution control; safety and health; labour protection and security

- 16 營造、土木及結構工程 包括建築工藝,例如測量、木工、泥水、批盪、砌磚、敷設水管及喉管裝配、污水處理、供水及處理、土木及結構工程、屋宇裝備工程、土壤力學、繪圖技術、設施管理、室內設計、土地、建築及物業管理
- 17 機械及輪機工程、生產及工業工程、化學工程、生物科技 包括機械工程、航空工程、採礦工程、汽車機械、汽車科技、造船及維修、造船工程、生產工程、自動化工程學、產品設計工程、塑膠模工藝、工具及模具技術、能量及化學工程、生物科技、工業工程
- 18 電機及電子工程 包括電機及電子工程、冷凍及空氣調節、電視/ 收音機技工學、無線電訊、光通 訊、航海電子、電腦工程
- 19 紡織及製衣技術 包括紡織/製 衣技術,例如染色技術、織物及成 衣製造、時裝及服裝設計
- 20 生產及製造學 包括食品及飲品 處理、鞋業、皮革、冶金學、煉油、鐘錶製造、光學、原料(木、 紙、塑膠、玻璃)、採礦學
- 21 法律 包括地方法官、法律學(一般、國際、勞工、商業、海事)、 法理學、法律歷史
- 22 新聞及資訊學 包括新聞學、傳播學、媒體學、圖書館技術、圖書館學、博物館技術、收藏室技術、文件編製技巧、檔案科學

- Including studies in building technology such as surveying; carpentry; bricklaying; plastering and tiling; plumbing and pipe-fitting; sewerage; water supply and treatment; civil and structural engineering; building services engineering; soil mechanics; draughtsmanship; facility management; interior design; land; building and estate management
- Mechanical and marine engineering, production 17 industrial and engineering, chemical engineering, biotechnology - Including studies mechanical engineering; aeronautical engineering; engineering; mining motor mechanics; vehicle technology; ship building and repairs; naval architecture; production engineering; automation engineering; product engineering and design; plastic mould technology; tool and die technology; energy and chemical engineering; biotechnology; industrial engineering
- 18 Electrical and electronic engineering Including studies in electrical and electronic engineering; refrigeration and air-conditioning; television / radio mechanics and servicing; telecommunications; optical communications; marine electronics; computer engineering
- 19 Textiles and clothing technology Including studies in textile technology / clothing technology such as dyeing; fabric and garment manufacturing; fashion and dress design
- 20 Manufacturing and processing Including studies in food and drink processing; footwear; leather; metallurgy; petroleum refinery; watch and clock making; optics; materials (wood; paper; plastic; glass, etc.); mining and extraction
- 21 Law Including studies in local magistrates; law (general; international; labour; commercial; maritime, etc.); jurisprudence; history of law
- Journalism and information Including studies in journalism; communication; media studies; library technician and science; technicians in museums and similar repositories; documentation techniques; archival sciences

- 23 社會服務 包括傷殘照顧、兒童 護理、青年服務、老人服務、輔導 及其他福利服務
- 24 個人服務 包括酒店及飲食業管理學、旅遊業管理學、體育與康樂、娛樂事業營運學、理髮學、美容護理、清潔、洗衣、乾洗、化粧服務、家居科學、家務服務
- 25 保安服務 包括警力、法律執 行、犯罪學、防火、救火、民間保 安、軍事學
- 26 其他課程 包括農業學、林學、 術數學、個人發展、實驗室技術及 其他服務行業
- 99 不適用(指非住戶常住成員或從未 受教育人士或一般學前、小學及中 學教育課程(包括毅進計劃))

注意事項:

- 正就讀/曾攻讀學前、小學或中學 課程(包括毅進計劃)者的「修讀 科目」視爲「99不適用」。
- 2. 「最高就讀程度」及「最高完成程度」兩個項目均有搜集「**修讀科**目」的資料。

上課地點

定義:

指在本港修讀全日制課程者所讀學校或 教育機構的地點。

- 23 Social services Including studies in care of the disabled; child care; youth services; gerontological services; counselling; welfare not elsewhere classified
- 24 Personal services Including studies in hotel and catering; travel and tourism; sports and leisure; entertainment business operations; hairdressing; beauty treatment and other personal services including cleaning; laundry; dry-cleaning; cosmetic services; domestic science; housekeeping services
- 25 Security services Including studies in police work and related law enforcement; criminology; fire-protection and fire fighting; civil security and military
- 26 Other programmes Including studies in agricultural programmes; forestry; numeracy; personal development; laboratory technicianship and other service trades
- 99 Not applicable (for non-usual members of household or persons with no schooling or general programmes for pre-primary, primary and secondary education (including Project Yi Jin))

Points-to-note:

- The **field of education** for persons studying / having studied pre-primary, primary or secondary education including Project Yi Jin are regarded as "99 Not applicable".
- Data on field of education are collected for both highest level attended and highest level completed.

Place of Study

Definition:

The **place of study** of a person refers to the geographical area in Hong Kong where the school or educational institution is located and the person concerned has to go there to attend full-time course.

涵蓋範圍:

在本港修讀全日制課程的居港人口

問卷上問題號數:

P25

答案分類:

學校的名稱及詳細地址,以便按小規劃統計區/街段進行編碼(請參考第八章內有關「小規劃統計區/街段」的分類)。

注意事項:

- 1. 只收集**全日制**學生在港上課地點的 資料。受訪者須提供學校的名稱及 詳細地址。在香港以外地區讀書 者,則無需提供學校或教育機構的 地址。
- 2. 「上課地點」的編碼方式,已由一 九九六年中期人口統計按主要分區 劃分,擴展至二零零一年人口音查 及二零零六年中期人口統計按小規 劃統計區/街段劃分,此舉有助進 行深入研究,以及和「前赴上課地 點的交通方式」一項作分析對照之 用。

前赴上課地點的交通方式

定義:

指在港修讀全日制課程者前赴上課地點 常用的交通方式。如涉及的交通方式超 過一種,則應全部予以記錄(但最多只 記三種)。只有經常徒步上學而無需乘搭 任何交通工具者,才可選「只需步行」 作爲答案。

Coverage:

Hong Kong Resident Population studying full-time in Hong Kong

Question number on questionnaire: P25

Response classification:

School name and detailed address for coding to Tertiary Planning Unit / Street Block (TPU / SB) level (Refer to Chapter 8 for classification on TPU / SB).

Points-to-note:

- Information on the place of study in Hong Kong is collected from students studying full-time only. They are asked to provide the name of school and its detailed address. For those students studying outside Hong Kong, the addresses of their schools / educational institutions are not required.
- 2. Coding of the **place of study** was extended from Broad District in the 1996 Population By-census to TPU/SB in the 2001 Population Census and the 2006 Population By-census to facilitate indepth study and cross-analysis with mode of transport to place of study.

Mode of Transport to Place of Study

Definition:

Mode of transport to place of study refers to the type(s) of transport a full-time student studying in Hong Kong usually used to travel to his / her place of study. For a person who uses more than one mode of transport to go to school, all modes of transport used (up to a maximum of three) are recorded. "On foot only" is reported only if the person usually walks to school and does not use any other mode of transport.

涵蓋範圍:

在本港修讀全日制課程的居港人口

問卷上問題號數:

P26

答案分類:

- 01 私家車/客貨車
- 02 電單車
- 03 貨車/輕型貨車
- 04 的士
- 05 小輪/船艇
- 06 地鐵 本地線
- 07 地鐵 機場快線
- 08 九廣鐵路 東鐵(包括馬鐵)
- 09 九廣鐵路 西鐵
- 10 輕鐵
- 11 綠色專線小巴/專線小巴
- 12 紅色小巴
- 13 專利巴士
- 14 接駁巴士
- 15 屋邨/大廈巴士
- 16 電車
- 17 山頂纜車
- 18 校車/褓姆車
- 19 單重
- 20 只需步行
- 21 其他
- 99 不適用(指在本港修讀非全日制課程者或非住戶常住成員)

注意事項:

- 1. 只有在本港就讀全日制課程者才須 提供「**前赴上課地點的交通方式**」 的資料。
- 採用一般方式搜集資料,並記錄所有前赴上課地點的交通方式(但最多只記三種)。如所使用的交通方式超過三種,則只記錄涉及路程最長的三種。

Coverage:

Hong Kong Resident Population studying full-time in Hong Kong

Question number on questionnaire:

P26

Classification:

- 01 Private car / Passenger van
- 02 Motorcycle
- 03 Goods vehicle / Van
- 04 Taxi
- 05 Ferry / Vessel
- 06 MTR Local Line
- 07 MTR Airport Express Line
- 08 KCR East Rail (including Ma On Shan Rail)
- 09 KCR West Rail
- 10 Light Rail
- 11 Green minibus
- 12 Red minibus
- 13 Franchised bus
- 14 Feeder bus
- 15 Residential coach service
- 16 Tram
- 17 Peak tram
- 18 School bus / School van
- 19 Bicycle
- 20 On foot only
- 21 Others
- 99 Not applicable (for non-full-time students studying in Hong Kong or non-usual members of household)

Points-to-note:

- Only full-time students studying in Hong Kong were required to provide information on their mode of transport to place of study.
- 2. Data are collected under an usual approach and all modes of transport to place of study (up to a maximum of three) are recorded. If a person uses more than three types of transport to go to school, three of them with the longest distance travelled are recorded.

經濟特徵

7.10 人口的「**經濟特徵**」主要包括市民的經濟活動身分、行業、職業及收入。這些資料,特別是失業統計數字,其實可從持續進行的綜合住戶統計調查中得到,但該調查所收集的就業人口資料未及全面,所以必須透過人口普查/中期人口統計來收集這些經濟數據。

7.11 二零零六年中期人口統計共有 八個經濟數據項目。

經濟活動身分

定義:

人口可劃分爲「從事經濟活動人口」 (即勞動人口)及「非從事經濟活動人 口」兩大類。

從事經濟活動人口:包括就業人士(即工作人口)及失業人口。

工作人口指符合以下條件的十五歲及 以上人士:

- (甲) 在中期人口統計前七天內有從 事工作以賺取薪酬或利潤;或
- (乙) 在中期人口統計前七天內有一 份正式工作。

工作人口可按就業身分劃分爲:

僱員 - 爲賺取工資、薪金、佣金、小費或實物報酬而爲僱主(私人公司或政府)工作,包括家庭傭工、外發工和支薪家庭從業員。

Economic Characteristics

7.10 **Economic characteristics** of the population mainly involve the people's economic activity status, industry, occupation and income. Indeed such information, particularly unemployment statistics, is available from the continuous General Household Survey. It is essential to collect economic data in population censuses / by-censuses because the General Household Survey do not collect such comprehensive information on the employed persons.

7.11 There are eight economic data topics in the 2006 Population By-census.

Economic Activity Status

Definition:

The population can be divided into two main groups, economically active population (i.e. the labour force) and economically inactive population as follows:

Economically active population: This comprises the employed (that is the working population) and the unemployed.

The working population refers to persons aged 15 and over who had

- (a) been engaged in performing work for pay or profit during the seven days before the Bycensus; or
- (b) formal job attachment during the seven days before the By-census.

The working population can be distinguished by the employment status as follow:

Employee – A person who works for an employer (private companies or government) for wage, salary, commission, bonus, tips or payment in kind. Domestic helpers, outworkers and paid family workers are also included here.

僱主 - 從事本身業務/職業時 爲賺取利潤或費用而工作,及 最少僱用一人爲其工作的人。

自營作業者 - 從事本身業務/ 職業時爲賺取利潤或費用而工 作,並沒有僱用他人或受僱於 人的人。

無酬家庭從業員 -爲有關家庭 生意工作但無收取報酬的人, 亦算作就業人士。報酬不包括 膳宿和零用錢。

失業人口基本上指十五歲及以上人士(甲)在中期人口統計前七天內並無職位,且並無爲賺取薪酬或利潤而工作;(乙)在中期人口統計前七天內隨時可工作;及(丙)在中期人口統計前三十天內有找尋工作。

非從事經濟活動人口:指在中期人口統計前七天內並無職位亦無工作的人,但不包括在該七天內正在休假和失業的人。而料理家務者、退休人士及所有十五歲以下人士則包括在內。

料理家務者 - 照顧家庭而無收 取報酬的人。 Employer – A person who works for profit or fees in his / her own business / profession and employs one or more persons to work for him / her.

Self-employed – A person who works for profit or fees in his / her own business / profession, neither employed by someone nor employing others.

Unpaid family worker – A person who works for no pay in a family business is also considered as employed. Food and lodging and pocket money are not counted as pay.

Unemployed population refers basically to persons aged 15 and over who should (a) not have had a job and should not have performed any work for pay or profit during the seven days before the By-census; (b) have been available for work during the seven days before the By-census; and (c) have sought work during the thirty days before the By-census.

Economically inactive population: This comprises persons who have not had a job and have not been at work during the seven days before the By-census, excluding persons who have been on leave / holiday during the sevenday period and persons who are unemployed. Persons such as home-makers, retired persons and all those aged below 15 are thus included.

Home-maker - A person who looks after the home without pay.

退休人士 - 以前有工作,但現 因年老而沒有繼續工作的人。

經濟自給者 - 無須爲生計而工作的人,他們的生活費通常依靠收租、儲蓄、投資收益或匯款等。

其他非從事經濟活動人士 - 其他未有分類的非從事經濟活動人士,如非受薪的宗教工作者,以及因長期患病或殘疾而不能工作或沒有找尋工作的人。

圖 7.3 解說有關人口的經濟結構。

涵蓋範圍:

所有十五歲及以上的居港人口

問卷上問題號數:

P27 - P35

答案分類:

11 僱員

12 外發工

Student – A person who is studying full-time in school or other educational institution (as for the 2006 Population Bycensus, students refers to those who had been studying in the first half of 2006 and would continue to study full-time in the academic year after the By-census [i.e. July 2006]). Persons who are self-studying, or studying informal courses in miscellaneous training institutes or studying evening courses and were not working during the seven days before the By-census are also included in this category. Student workers are classified as economically active persons and are not included in this group.

Retired person – A person who has worked previously but is not currently working because of old age.

Of independent means – A person who does not have to work for a living. The cost of living is generally borne by rental receivable, savings, investment returns or remittances.

Other economically inactive person – Economically inactive persons not elsewhere classified, e.g. unpaid religious workers and persons who cannot work or do not seek work because of permanent sickness or disablement.

Chart 7.3 illustrates the economic structure of the population.

Coverage:

Hong Kong Resident Population aged 15 and over

Question number on questionnaire: P27-P35

Response classification:

11 Employees

12 Outworkers

- 13 僱主
- 14 自營作業者(小販)
- 15 自營作業者(其他)
- 16 無酬家庭從業員
- 21 可隨時上工的工作尋找者
- 22 不可隨時上工的工作尋找者
- 23 等候上新工者
- 24 期待返回原有工作崗位而不尋找工 作者
- 25 沒有適合工作而不尋找工作者
- 31 料理家務者
- 32 學生
- 33 經濟自給者
- 34 退休人士
- 35 住院人士
- 36 暫時生病/受傷而不尋找工作者
- 37 長期生病/傷殘
- 38 其他非從事經濟活動人士
- 99 非常住住戶成員

注意事項:

- 1. 根據國際勞工組織的建議,可以透 過「有沒有工作」、「是否在找尋 工作」、「是否可隨時上工」等問 題,將人口劃分爲三個類別(就業 人士、失業人士、非勞動人口)。
- 人口普查/中期人口統計中有關失業人士的問題之發問次序是根據國際勞工組織的建議而訂定。便集一次。 這些問題的數量,較用以搜集一數字的「綜合住戶統計調查」對於一個大業人士估計數字較不準確。使用數據人士在研究共業問題時,應常以「綜合住戶統計調查」所得的數據爲依據。

- 13 Employers
- 14 Self-employed (Hawkers)
- 15 Self-employed (Others)
- 16 Unpaid family workers
- 21 Job-seekers who are available for work
- Job-seekers who are not available for work because of temporary sickness/injury
- Persons waiting to take up new jobs/businesses
- 24 Persons not seeking work because they expect to return to original jobs
- 25 Persons not seeking work because suitable work is not available/difficult to get a job
- 31 Home-makers
- 32 Students
- 33 Persons of independent means
- 34 Retired persons
- 35 Inmates in penal institutions, in-patients in psychiatric hospitals/ infirmaries/ convalescent hospitals
- 36 Persons not seeking work because of temporary sickness / injury
- 37 Permanent sickness / disablement
- 38 Other inactive persons
- 99 Non-usual household member

Points-to-note:

- According to the International Labour Organisation, the population can be classified into three categories (employed, unemployed, not in labour force) through questions on "any work", "seeking work" and "available for work".
- 2. The sequence of questioning to determine the unemployed in censuses / by-censuses follows that of the International Labour Organisation recommendations. Nevertheless, the number of questions included were less than that for the General Household Survey, which is designed for collecting unemployment statistics. Users of data who wish to study unemployment situation are advised always to refer to statistics obtained from the General Household Survey.

行業

定義:

在點算時刻前的七天內,受訪者的工作機構主要生產的貨品或提供的服務類別。

涵蓋範圍:

工作人口

問卷上問題號數:

P36a/P36b

答案分類:

二零零六年中期人口統計所採用的行業 分類,大體上是依照「香港標準行業分 類」的主要行業組別而訂定的。

- 111 農作物種植業
- 112 飼養家畜業(家禽除外)
- 113 飼養家禽及採蛋業
- 114 其他農業生產
- 121 海洋捕魚業
- 122 養魚業
- 211 金屬礦開採業
- 219 採石及其他採礦業
- 311 食品製造業
- 313 飲品製造業
- 314 煙草製品業
- 320 服裝製品業(鞋類除外)
- 323 皮革製造及皮革製品業(鞋類及服 裝製品除外)
- 324 鞋類製造業(橡膠、塑膠及木質鞋 類除外)
- 325 紡織業
- 326 梭織業
- 327 針織業
- 328 紡織品漂染、印染及整理業
- 329 紡織製成品製造業(服裝製品除外)
- 331 木材及水松製品業(傢具除外)
- 341 紙張及紙品製造業

Industry

Definition:

The main kind of goods or services produced by the establishment in which a person worked during the seven days before the reference moment.

Coverage:

Working population

Question number on questionnaire:

P36a / P36b

Response classification:

The industry classification adopted in the 2006 Population By-census generally follows the major industry group of the "Hong Kong Standard Industrial Classification".

- 111 Crops
- 112 Livestocks except poultry
- 113 Poultry and eggs
- 114 Agricultural products, not elsewhere classified
- 121 Marine fishing
- 122 Culture fishery
- 211 Metal ore mining
- 219 Mining, not elsewhere classified
- 311 Food
- 313 Beverage industries
- 314 Tobacco manufactures
- 320 Wearing apparel except footwear
- 323 Leather and leather products, except footwear and wearing apparel
- 324 Footwear, except rubber, plastic and wooden footwear
- 325 Spinning of textiles
- 326 Weaving of textiles
- 327 Knitting of textiles
- 328 Bleaching, dyeing, printing and finishing of textiles
- 329 Made-up textile goods except wearing apparel
- Wood and cork products, except furniture
- 332 Furniture and fixtures, except primarily of metal
- 341 Paper and paper products

- 342 印刷、出版及有關行業
- 351 化學品及化學產品製造業
- 353 石油及煤產品製造業
- 355 橡膠製品業
- 356 塑膠製品業
- 361 非金屬礦產製品業(石油及煤產品 除外)
- 371 基本金屬製造業
- 380 金屬製品業(機械及設備除外)
- 382 辦公室、會計及計算器材製造業
- 383 收音機、電視機及通訊設備與器材 製造業
- 384 電子零件製造業
- 385 家庭電器用具及電子玩具製造業
- 386 其他機械、設備、儀器及零件製造
- 388 運輸設備製造業
- 389 其他專業、科學、量度及控制用的 設備,與攝影及光學用品製造業
- 390 其他產品製造業
- 411 電力及燃氣業
- 412 水務業
- 511 新建造工程 地盤開拓及地基工程
- 519 新建造工程 地盤堪探工程
- 521 新建造工程 建築物上蓋建造及 土木工程
- 529 其他新建造工程
- 531 裝飾、修葺及保養工程
- 541 專門行業 興建工程及一般整理 工程
- 551 專門行業 電器及機械裝設工程
- 561 專門行業 燃氣及水務系統裝設 工程
- 591 專門行業 其他工程
- 611 批發業
- 621 零售業
- 631 進出口貿易業

- 342 Printing, publishing and allied industries
- 351 Chemicals and chemical products
- 353 Products of petroleum and coal
- 355 Rubber products
- 356 Plastic products
- 361 Non-metallic mineral products, except products of petroleum and coal
- 371 Basic metal industries
- 380 Fabricated metal products, except machinery and equipment
- 382 Office, accounting and computing machinery
- 383 Radio, television & communication equipment and apparatus
- 384 Electronic parts and components
- 385 Electrical appliances & houseware and electronic toys
- 386 Machinery, equipments, apparatus, parts and components, not elsewhere classified
- 388 Transport equipment
- 389 Professional & scientific, measuring & controlling equipment, not elsewhere classified, and photographic & optical goods
- 390 Manufacturing industries, not elsewhere classified
- 411 Electricity and gas
- 412 Water works and supply
- 511 New construction works Pre-erection works at building and construction sites
- 519 New Construction Works Site Investigation Works
- 521 New construction works Architectural and civil engineering works at building and construction sites
- 529 New construction works Miscellaneous new construction works
- 531 Decoration, repair and maintenance
- 541 Special trades Erection and general finishing
- 551 Special trades Electrical and mechanical fitting
- 561 Special trades Gas and water fitting
- 591 Special trades Miscellaneous
- 611 Wholesale
- 621 Retail
- 631 Import / export

- 641 飲食業
- 651 酒店及旅舍業
- 711 陸路客運業
- 712 陸路貨運業
- 713 陸路運輸輔助服務業
- 714 遠洋及沿岸海上運輸業
- 715 港內海上運輸業
- 716 海上運輸輔助服務業
- 717 空運業
- 718 其他與運輸有關的服務業
- 721 倉庫業
- 731 電話、電報及電訊服務業
- 732 其他通訊服務業
- 811 銀行業(包括有限制牌照銀行)
- 812 金融及投資公司
- 813 證券、期貨及金銀經紀、交易與服 務業
- 819 其他金融機構
- 821 保險業
- 831 地產業
- 832 機械及設備租賃業
- 833 法律服務業
- 834 會計、核數及簿記服務業
- 835 與建造及地產活動有關的建築、測量及工程策劃服務業
- 836 廣告及有關服務業
- 837 資料處理及製表服務業
- 838 與建造及地產活動無關的工程及技 術服務業
- 839 雜項商用服務業
- 910 公共行政
- 921 清潔及同類服務業
- 931 教育服務業
- 932 研究及科學機構
- 933 醫療、牙科、其他保健及獸醫服務
- 934 福利機構
- 935 商會、專業團體及勞工組織
- 936 宗教組織
- 939 其他社會及有關社區服務業
- 940 電影及其他娛樂服務業

- 641 Restaurants
- 651 Hotels and boarding houses
- 711 Land passenger transport
- 712 Land freight transport
- 713 Supporting services to land transport
- 714 Ocean and coastal water transport
- 715 Inland water transport
- 716 Supporting services to water transport
- 717 Air transport
- 718 Services incidental to transport
- 721 Storage
- 731 Telecommunication Services
- 732 Miscellaneous communication services, not elsewhere classified
- 811 Banking(include restricted licensed banks)
- 812 Finance and investment companies
- 813 Stock, commodity and bullion brokers, exchanges and services
- 819 Financial institutions, not elsewhere classified
- 821 Insurance
- 831 Real estate
- 832 Rental of machinery and equipment
- 833 Legal services
- 834 Accounting, auditing and bookkeeping services
- Architectural, surveying and project engineering services related to construction and real estate activities
- 836 Advertising and related services
- 837 Data processing and tabulating services
- 838 Engineering and technical services, not related to construction and real estate activities
- 839 Miscellaneous business services
- 910 Public administration
- 921 Sanitary and similar services
- 931 Education services
- 932 Research and scientific institutes
- 933 Medical, dental, other health and veterinary services
- 934 Welfare institutions
- 935 Business, professional and labour associations
- 936 Religious organisations
- 939 Miscellaneous social and related community services
- 940 Motion pictures and other entertainment services

- 942 圖書館、博物館及文化服務業
- 949 其他娛樂及康樂服務業
- 951 維修服務業
- 952 洗熨、乾洗、衣物修補及有關服務
- 953 家居服務業
- 959 其他個人服務業
- 960 國際及其他享有治外法權的機構
- 021 報稱的行業不能辨別或描述不足
- 099 不適用,包括失業或非從事經濟活動的人士

注意事項:

- 1. 如受訪者有超過一份工作,則以其 服務最久的機構所屬的行業來計 算。
- 若有關機構同時經營多種業務,則應記錄受訪者所直接參與的該種業務。如一家食品公司同時經營製餅工場及餅店,工場的員工應隸屬「食品製造業」,而餅店的員工則應隸屬「食品出售」。

職業

定義:

在點算時刻前的七天內受訪者所從事的 工作類別。

涵蓋節圍:

工作人口

問卷上問題號數:

P37

- 942 Libraries, museums, gardens and cultural services
- 949 Miscellaneous amusement and recreational services
- 951 Repair services
- 952 Laundry, dry cleaning and garment services
- 953 Domestic services
- 959 Miscellaneous personal services
- 960 International and other extra-territorial bodies
- O21 Industrial activities unidentifiable or inadequately described
- 099 Not applicable, including persons who are unemployed or economically inactive

Points-to-note:

- If a person has more than one job, his / her industry refer to the industry of the establishment which he works for the longest time.
- 2. For those establishments having more than one kind of business, the one he / she directly involved in should be reported. For example, those persons working in a food company with cake factory and cake shops. Persons working in the factory are classified as "food manufacturing", whilst those in cake shops as "food selling".

Occupation

Definition:

This refers to the kind of work a person performed during the seven days before the reference moment.

Coverage:

Working population

Question number on questionnaire:

P37

答案分類:

基本上是按照「國際標準職業分類(一九八八)」的主要及次要組別而進行分類,並略加修改以適應香港的情況。

- 111 高級政府官員
- 112 外國使節
- 113 議員及其他政治家
- 121 企業經理:商業機構、法定團體及 志願機構的董事長、主席、總經理 及行政總裁
- 122 企業經理:專職經理
- 123 資訊科技/電腦經理
- 131 小型機構經理
- 211 物理學家、化學家及有關專業人員
- 212 數學家、統計師及有關專業人員
- 214 建築師、城市設計師、交通設計師 及測量師
- 215 工程師及有關專業人員
- 221 生物科學專業人員
- 222 醫生
- 223 中醫
- 224 牙醫、獸醫及藥劑師
- 225 其他醫療專業人員(不包括護理)
- 231 大學及專上學院講師
- 232 專業教育學院、香港教育學院及其 他學院講師
- 233 中學教師
- 234 教育行政人員
- 235 其他教學專業人員
- 241 律師及法官
- 242 會計師及核數師
- 243 商業顧問、分析及有關專業人員
- 251 社會工作專業人員
- 252 翻譯及傳譯專業人員
- 253 新聞編輯及新聞記者
- 254 作家(新聞編輯及新聞記者除外) 及創作藝術家
- 255 宗教神職人員
- 256 圖書管理及有關專業人員
- 261 應用系統開發專業人員

Response classification:

The classification basically follows the major groups and the sub-major groups of the International Standard Classification of Occupations (1988) or ISCO-88 for abbreviation, with local adaptation in Hong Kong.

- 111 Senior government officials
- 112 Foreign diplomats
- 113 Councillors and other politicians
- 121 Corporate managers: directors, presidents, general managers and chief executives of business undertakings, statutory bodies and voluntary agencies
- 122 Corporate managers: functional managers
- 123 IT / Computer managers
- 131 Small business managers
- 211 Physicists, chemists and related professionals
- 212 Mathematicians, statisticians and related professionals
- 214 Architects, town planners, traffic planners and surveyors
- 215 Engineers and related professionals
- 221 Life science professionals
- 222 Medical doctors
- 223 Chinese medicine practitioners
- 224 Dentists, veterinarians and pharmacists
- 225 Other medical professionals (except nursing)
- 231 University and Post-secondary College lecturers
- 232 Lecturers in Institute of Vocational Education, Hong Kong Institute of Education and other colleges
- 233 Secondary school teachers
- 234 Educational administrators
- 235 Other teaching professionals
- 241 Lawyers and judges
- 242 Accountants and auditors
- 243 Business consultants, analysts and related professionals
- 251 Social work professionals
- 252 Translators and interpreters
- 253 News editors and journalists
- Writers (other than news editors and journalists) and creative artists
- 255 Members of religious orders
- 256 Librarians and related professionals
- 261 Application system development professionals

- 831 列車及機動車輛司機
- 832 農業用機器、推土機、吊機及其他 物料搬運機器操作員
- 833 船隻甲板水手及有關工人
- 911 街頭小販及有關工人
- 912 家庭雜務工人、清潔工及有關工人
- 913 信差、看更及保安人員
- 914 運輸業雜工
- 919 其他服務業非技術工人
- 921 採礦業及建造業雜工
- 922 製造業雜工
- 923 漁農業雜工
- 021 報稱的職業沒有分類、不能辨別或 描述不足
- 099 不適用、包括失業人士或非從事經濟活動人士

注意事項:

1. 職業分類主要以一個人在工作時所執行職責的類型爲準則。「技能」正是界定及說明這個概念的重要方法。因此,編碼方案亦可以說是一個以技能爲基礎的分類法。技能的定義是個人執行一組職務的能力,或符合一份職業在技術上的要求的能力。「技能」可以分作兩個層面加以說明:

- 817 Automated assembly-line operators
- 819 Other industrial plant operators
- 821 Metal and mineral products processing machine operators
- 822 Chemical products machine operators
- 823 Rubber and plastic products machine operators
- 824 Wood products machine operators
- Printing, binding, paperboard products machine operators
- 826 Textile products machine operators
- 827 Food and related products processing machine operators
- 828 Assemblers
- 829 Other stationary machine operators
- 831 Railway engine and motor vehicle drivers
- 832 Agricultural, earthmoving, lifting and other mobile materials-handling equipment operators
- 833 Ships' deck crews and related workers
- 911 Street vendors and related workers
- 912 Domestic helpers and cleaners and related workers
- 913 Messengers, watchers and security workers
- 914 Transport labourers
- 919 Other services elementary occupations
- 921 Mining and construction labourers
- 922 Manufacturing labourers
- 923 Agricultural and fishery labourers
- Occupations not classifiable, unidentifiable or inadequately described
- 099 Not applicable, including persons who are unemployed or economically inactive

Points-to-note:

1. The basic concept for the classification of occupation is "type of work performed" by individual. An important means for defining and describing this concept is "skill". Hence, the coding scheme can be regarded as a skill-based classification. Skill can be defined as the ability of an individual to perform a set of tasks or to fulfill the technical requirements of an occupation. It can be represented in two dimensions:

(甲) 技能的水平

(乙) 技能的專門性

一份職業的專門技能指執行職務所須具備特定的一門知識(即所執行職務有關的特定知識)以及所運用的工具或設備,所處理的材料及製成的產品或提供的服務。

- 2. 問卷內有關職業的部分共有三條題目,即職位的名稱、執行的職務及職位所需的資歷。其中執行的職務是爲量度「技能的專門性」,而所需的資歷是爲量度「技能的水平」。
- 3. 一份職業所需的技能指執行有關的職務時所需的技能,但不一定等於從事該項工作的人士所具備的技能。

收入

(包括每月主要職業收入/每月其他 就業(兼職)收入/其他現金收入)

(a) Skill level

The skill level relates to the depth of knowledge and understanding and the degree of dexterity and experience required before an individual can satisfactorily perform the set of tasks It can be measured as a involved. function of the amount of formal education, on-the-job training previous experience. In general, an occupation that involves more complex tasks than another will require a higher skill level than the other.

(b) Skill specialisation

The skill specialisation of an occupation is a function of the field of knowledge required (i.e. the subject matter essential to the tasks performing) and the tools or equipment used, materials worked with and goods or services produced, in relation to the tasks performed.

- 2. Information on occupation is collected using three questions in the questionnaire. They are related to job title, main tasks/duties performed and educational or professional qualification required by the job. Whilst the main tasks/duties performed is measuring the skill specialisation, the educational or professional qualification required by the job is measuring the skill level.
- 3. The skill requirements of an occupation are those needed for the performance of the tasks and are not necessarily the same as those possessed by the individual engaged in the work.

Income

(Including Monthly Income from Main Employment / Monthly Income from Other Employment / Other Cash Income)

定義:

「每月主要職業收入」- 對於僱主或自營作業者來說,這是指扣除營運開支後從主要業務所賺得的收入。對於僱主要後從主要業務所賺得的收入。對於僱棄工作所賺取的全部。 內包括薪金或工資、花紅、佣金、他 時工作補薪、房屋津貼、小賬及其他現金津貼,但不包括年終花紅及雙糧。在 二零零六年中期人口統計,所記金額以 二零零六年六月的收入計算。

「每月其他就業(兼職)收入」- 定義和每月主要職業收入一樣,但是指每月其他就業所得的收入。每月其他就業所得的收入。每月其他就業指在中期人口統計前三十天內某人所從事主要職業以外的工作。工作必須有報酬作爲補償。沒有補償的工作(如志願服務及家務)不包括在內。毋須積極參與工作及管理的商業投資不當作兼職。超時工作不作爲一種兼職。

「**其他現金收入**」- 指受訪者於二零零六年六月獲得的所有其他經常性現金收入。

涵蓋節圍:

「每月主要職業/兼職收入」 - 工作人口

「**其他現金收入**」 - 十五歲及以上的居 港人口

問卷上問題號數:

P40/P41/P42a/P42b/P43

答案分類:

000000 0元 000001 1元 000002 2元

. . .

000123 123 元

Definition:

Monthly income from main employment – For employers or self-employed persons, this is the amount earned excluding expenses incurred in running their main business. For employees, this is the total amount earned from their main employment including salary or wage, bonus, commission, overtime, housing allowance, tips and other cash allowances. New Year bonus and double pay are excluded. The amount recorded refers to the income for June 2006 in the 2006 Population By-census.

Monthly income from other employment - Same for monthly income from main employment except that it refers to monthly income from secondary employment. Secondary employment includes the work performed by a person in addition to his main employment during the thirty days enumeration. The work must be remunerated with compensation. Types of work without compensation such as voluntary services and housework are not Business investment which does not included. require active participation in operation management is not counted as secondary employment. Overtime work is not a kind of secondary employment.

Other cash income – This refers to all other recurrent cash incomes received by a person in June 2006.

Coverage:

Monthly income from main employment / other employment – Working population

Other cash income – Hong Kong Resident Population aged 15 and over

Question number on questionnaire: P40 / P41 / P42a / P42b / P43

Response classification:

000000 \$0 000001 \$1 000002 \$2

. . .

000123 \$123

...

注意事項:

1. 以下列出二零零六年中期人口統計 的「每月主要職業/兼職收入」及 「其他現金收入」所包含的元素。

主要職業/兼職收入包括:

<u>僱員</u>

- 工資
- 薪金
- 佣金
- 花紅
- 小費
- 加班津貼
- 勤工獎
- 房屋津貼
- 膳食津貼
- 教育津貼
- 其他現金津貼
- 公積金/強制性公積金僱員供款部分

僱主及自營作業者

從自營業務所得的純利或從店 鋪支取供家庭或個人使用的款項

其他現金收入包括:

- 利息
- 股息
- 租金收入
- 助學金(貸款除外)
- 定期/每月退休金
- 公共福利金(例如高齡津貼、傷 殘津貼)
- 綜合社會保障緩助(公共援助金)
- 獎學金
- 從非本戶人士(本地或海外)收 取的定期收入

. . .

999998 \$999998 and above999999 Not applicable

Points-to-note:

 The coverage of monthly income from main employment / other employment and other cash income by component in 2006 Population By-census is shown below.

Earnings from main employment / other employment includes:

For employee

- Wages
- Salary
- Commission
- Bonus
- Tips
- Overtime allowance
- Attendance allowance
- Housing allowance
- Meal allowance
- Education allowance
- Other cash allowance
- Employee's contribution to provident fund /Mandatory Provident Fund

For employer and self-employed

 Net earnings from self-owned business or amount drawn from enterprise for personal and household use

Other cash income includes:

- Interest
- Dividend
- Rental income
- Education grants (excluding loan)
- Regular/monthly pensions
- Social Security Allowance (e.g. Old Age Allowance and Disability Allowance)
- Comprehensive Social Security Assistance (Public assistance scheme)
- Scholarship
- Regular contribution from persons outside the household (local or abroad)

- 慈善機構的捐助
- 如受訪者剛上工,二零零六年六月份仍未有收入,則以其七月份預計所得的主要職業收入計算。
- 3. 這類題目的性質較爲敏感,如受訪者對提供確實收入表現猶疑,他/ 她可從提示冊中指出自己所屬的收入組別。提示冊內的答案分類是經過特別設計的,以確保搜集到詳盡的資料,並有助鼓勵受訪者作出積極的回應。

工作地點

定義:

涵蓋範圍:

工作人口

問卷上問題號數:

P38

• Contribution from charities

- In case a person just started working and has no income in June 2006, the expected income from main employment in July is recorded as an estimate.
- 3. In view of the sensitive nature of this topic, the respondent is shown a prompt book from which he can point out the income group he belongs if he has hesitation to provide the exact figure. The response classification on the prompt book is specially designed to ensure detailed data can be collected as well as to encourage responses.

Place of Work

Definition:

The place of work of a person refers to the district where the workplace of a person is located and the person concerned usually stayed or went there during the seven days before the By-census for business matters. For a person who has more than one job during the reference period, the place of work refers to that of his main employment. For a person who changes his work place day to day (e.g. construction site worker) or has many work places (e.g. doctor working in both hospital and clinic, mobile hawker), the place of work is where the person worked for the longest hours in the reference period. For a person who has no fixed place of work (e.g. salesman, driver) but needed to report duty every day, the location of the office or depot is the work place. For a cross-border truck driver who drives between Hong Kong and the Mainland and spends most of the working hours in the Mainland, then the Mainland is the place of work.

Coverage:

Working population

Question number on questionnaire:

P38

答案分類:

收集詳細地址資料,以便按小規劃統計區/街段進行編碼(請參考第八章內有關「小規劃統計區/街段」的分類)。

注意事項:

- 1. 受訪者的「**工作地點**」會按表 7.2內 的原則和優先次序予以記錄。
- 若受訪者並非在香港、內地或澳門 工作,則只記錄他/她是在香港以 外地區工作。
- 3. 「工作地點」的編碼方式,已由一九九六年中期人口統計按主要分區劃分,擴展至二零零一年人口普查及二零零六年中期人口統計按小規劃統計區/街段劃分,此舉有助深入研究,以及和「前赴工作地點的交通方式」一項作分析對照之用。

前赴工作地點的交通方式

定義:

指在本港境內有固定工作地點的受訪者 上班常用的交通方式。如所使用的交通 方式超過一種,則只記錄其中涉及路程 最長的三種。如受訪者經常步行上班而 無需乘搭交通工具,則只記錄「只需步 行」便可。

涵蓋節圍:

在本港有固定工作地點的工作人口

問卷上問題號數:

P39

答案分類:

01 私家車/客貨車

02 電單車

Response classification:

Detailed address for coding to Tertiary Planning Unit / Street Block (TPU / SB) level (Refer to Chapter 8 for classification on TPU / SB).

Points-to-note:

- The place of work of a person is recorded according to the principles in order of priority in Table 7.2.
- 2. For those persons not working in Hong Kong, the Mainland or Macao, their place of work are recorded as outside Hong Kong.
- 3. Coding of the **place of work** is extended from Broad District in the 1996 Population By-census to TPU/SB in the 2001 Population Census and the 2006 Population By-census to facilitate indepth study and cross-analysis with mode of transport to place of work.

Mode of Transport to Place of Work

Definition:

Mode of transport to place of work refers to the type(s) of transport a person with a fixed place of work in Hong Kong usually used to travel to his / her place of work. For a person who uses more than one type of transport to go to work, the three modes of transport travelled for the longest distance are reported. For a person who usually walks to work and does not use any mode of transport, his / her mode of transport is recorded as "On foot only".

Coverage:

Working population with fixed place of work in Hong Kong

Question number on questionnaire: P39

Response classification:

01 Private car / Passenger van

02 Motorcycle

- 03 貨車/輕型貨車
- 04 的士
- 05 小輪/船艇
- 06 地鐵 本地線
- 07 地鐵 機場快線
- 08 九廣鐵路 東鐵(包括馬鐵)
- 09 九廣鐵路 西鐵
- 10 輕鐵
- 11 綠色專線小巴/專線小巴
- 12 紅色小巴
- 13 專利巴士
- 14 接駁巴士
- 15 屋邨/大廈巴士
- 16 電車
- 17 山頂纜車
- 18 公司巴士/小巴
- 19 單車
- 20 只需步行
- 21 其他
- 99 不適用(指無固定工作地點或工作 地點是本居所或工作地點並非在香 港、非從事經濟活動人士及失業人 士或非住戶常住成員)

注意事項:

- 1. 二零零六年中期人口統計是根據通常的方式搜集有關「**前赴工作地點 的交通方式**」的資料。如所使用的 交通工具超過一種,則只記錄其中 涉及路程最長的三種常用工具,但 以三種爲限。
- 2. 這個項目不適用於在家工作的人士。

內部遷移特徵

7.12 有關內部遷移特徵的項目共有兩個,即「**在港居住年期**」和「**五年前居住的地方**」。

- 03 Goods vehicle / Van
- 04 Taxi
- 05 Ferry / Vessel
- 06 MTR Local Line
- 07 MTR Airport Express Line
- 08 KCR East Rail (including Ma On Shan Rail)
- 09 KCR West Rail
- 10 Light Rail
- 11 Green minibus
- 12 Red minibus
- 13 Franchised bus
- 14 Feeder bus
- 15 Residential coach service
- 16 Tram
- 17 Peak tram
- 18 Company bus / van
- 19 Bicycle
- 20 On foot only
- 21 Others
- 99 Not applicable (for no fixed place of work, work at home or place of work outside Hong Kong, economically inactive and unemployed persons or non-usual members of household)

Points-to-note:

- Data on mode of transport to place of work are collected under an usual approach in the 2006 Population By-census. If more than one mode is used, a maximum of three usual modes are recorded according to the longest distance travelled within the trip.
- 2. The data topic is not applicable to persons working at home.

Internal Migration Characteristics

7.12 There are two topics on internal migration characteristics, namely **Duration of residence in Hong Kong** and **Place of residence 5 years ago**.

7.13 搜集這兩項資料,有助研究兩次普查之間的人口內部遷移情況。尤其是可以把「**在港居住年期**」的資料結合其他數據項目,從而識別一些人口小組,如新來港人士、外籍人口等。此舉有助深入分析上述人口小組的社會經濟特徵,而這些資料可能無法從其他數據來源取得。

在港居住年期

定義:

計算受訪者在港居住的總年數(以整年計),離港超過六個月或以上的期間不計 算在內。

涵蓋範圍:

居港人口

問卷上問題號數:

P11a/P11b

答案分類:

- 89 少過一年
- 01 一年但少過二年
- 02 二年但少過三年

:

- 50 五十年及以上
- 99 不適用(指非住戶常住成員)

五年前居住的地方

定義:

指受訪者在點算時刻前五年經常居住的 地址。這數據搜集所得的資料與現居地 區的資料配合使用,有助研究香港人口 在過去五年的內部遷移情況。 7.13 It is useful to collect data on these two topics to study the internal mobility of the population during the intercensal period. In particular, the information on **Duration of residence in Hong Kong** can be used jointly with other data topics to identify population sub-groups like new arrivals to Hong Kong and foreign population. This would facilitate indepth analysis on the socio-economic characteristics of these population sub-groups where such information may not be available from other data sources.

Duration of Residence in Hong Kong

Definition:

Duration of residence in Hong Kong measures the total number of complete years for which a person has lived in Hong Kong. Any period of temporary absence from Hong Kong for six months or more was not counted in reckoning the duration.

Coverage:

Hong Kong Resident Population

Question number on questionnaire:

P11a / P11b

Response classification:

- less than one year
- 01 one year but less than two years
- 02 two years but less than three years

:

- 50 50 years and over
- 99 Not applicable (for non-usual members of household)

Place of Residence 5 Years Ago

Definition:

The address a person usually resided 5 years before the reference moment is **his / her place of residence 5 years ago**. Information collected is used jointly with the area of current residence to study internal mobility of the Hong Kong population between the past 5 years.

涵蓋範圍:

五歲及以上的居港人口

問卷上問題號數:

P20a

答案分類:

須記錄五年前的詳細居住地址,以便按小規劃統計區/街段進行編碼(請參考 第八章內有關「小規劃統計區/街段」 的分類)。

注意事項:

- 1. 「五年前居住的地方」只向五歲及以上而五年前並非居於現住地址的人士搜集資料。他/她們需提供五年前居住的街道/屋邨及大廈的號碼及名稱。
- 2. 「五年前居住的地方」的編碼方式,已由一九九六年中期人口統計按主要分區劃分,擴展至二零零一年人口普查及二零零六年中期人口統計按小規劃統計區/街段劃分,以助對內部遷移的深入研究。

Coverage:

Hong Kong Resident Population aged 5 and over

Question number on questionnaire: P20a

Response classification:

Detailed address 5 years ago is required for coding to Tertiary Planning Unit / Street Block (TPU / SB) level (Refer to Chapter 8 for classification on TPU / SB).

Points-to-note:

- 1. Information on **place of residence 5 years ago** is collected from all persons aged 5 and over who are not living in the present address 5 years ago. They are asked to provide the number and name of the street / estate and building they lived 5 years ago.
- 2. Coding of the **place of residence 5 years ago** was extended from Broad District in the 1996 Population By-census to TPU/SB in the 2001 Population Census and the 2006 Population By-census to facilitate indepth study on internal migration.
- 7.14 The above paragraphs describe 38 data topics in details. The data topics are not exactly the same as those in Appendix I. This is because some data topics such as "Relationship to head of household" and "Whether a member of household" are used to derive data about "Household composition" and "Household size" and are not described here. On the other hand, some data topics such as "Mortgage payment and loan repayment to income ratio" is derived from "Monthly Mortgage payment and loan repayment" and "Monthly household income", are not included in the data topics in Appendix I.

8. 地區分界系統

8. Geographical Demarcation Systems

緒言

8.1 地區分界系統是編製和發放以 地區爲基礎的統計數字時不可缺少的。 二零零六年中期人口統計採用了兩套基 本分界系統來發放中期人口統計結果。

小規劃統計區/街段系統

- 8.2 「小規劃統計區/街段系統」 由規劃署制訂,以作城市規劃用途。根 據這個系統,全港陸地先按等級分爲 9 個「總規劃統計區」,之下叉分爲 52 個 「次規劃統計區」,之下叉再分爲 287 個「小規劃統計區」。位於市區及新市 鎮的各個「小規劃統計區」會按街道網 劃分爲若干個「街段」。同樣地,位於 鄉郊的「小規劃統計區」亦會劃分爲較 小的村落統計區。
- 8.3 各「小規劃統計區」/「街段」的人口數目皆不相同。基於精確的理例性戶資料保密的理規數小的「街樓」/「街樓」/「街段」編製詳細統計數字。這些「小規劃統計區」/「街段」編合成小規劃統計區」/「街段」期合成小規劃統計區」/「街段」均在二零零点,到,供發布統計資料之用。就「小規劃統計區」/「街段」均在二零零組合,詳情列於表 8.1。

Introduction

8.1 Geographical demarcation systems are essential for the compilation and dissemination of statistical data on a geographical basis. Two basic demarcation systems are adopted for disseminating the 2006 Population By-census results.

Tertiary Planning Unit / Street Block System

- 8.2 The Tertiary Planning Unit / Street Block (TPU / SB) system is devised and used by the Planning Department for town planning purpose. The whole land area of Hong Kong is divided hierarchically into 9 Primary Planning Units (PPU) at the first level, 52 Secondary Planning Units (SPU) at the second level and 287 Tertiary Planning Units (TPU) at the third level. Each TPU in urban areas and new towns are sub-divided into a number of Street Blocks (SB) following grids of streets. Similarly, the remaining TPUs in rural areas are divided into smaller units called Village Clusters (VC).
- 8.3 TPU/SBs vary in size (in terms of the number of residents). In order to safeguard the confidentiality of data relating to individual persons and households and for precision reason, detailed statistical data are not shown for those TPU/SBs with a small number of residents. In such cases, adjacent TPUs are grouped into TPU groups and SBs are grouped into SB groups for data dissemination. For both TPU and SBs, there are two levels of aggregation in the 2006 Population By-census. They are detailed in Table 8.1.

表 8.1: 「小規劃統計區」/「街段」組別的組合

Table 8.1: Aggregation of Tertiary Planning Unit and Street Block groups

	組合程度 Level of aggregation	組別數目 Number of groups
小規劃統計區 TPUs		
小規劃統計區-大合倂組 Large TPU groups	有一萬名及以上居民的小規劃統計區 TPU groups with 10 000 residents and over	147
小規劃統計區-小合倂組 Small TPU groups	有一千名及以上居民的小規劃統計區 TPU groups with 1 000 residents and over	204
街段 SBs		
街段-大合併組 Large SB groups	有一千名及以上居民的街段 SB groups with 1 000 residents and over	1 639
街段-小合併組 Small SB groups	有四百名及以上居民的街段 SB groups with 400 residents and over	2 221

8.4 「小規劃統計區-大合併組」的統計表將有按較多數據項目分析或較詳細分類的統計數字,而「小規劃統計區-小合併組」、「街段-大合倂組」及「街段-小合倂組」的統計表,其數據項目則較少或分類較簡單。

8.4 While statistics are cross-tabulated by more data items or with more refined groupings in the Large TPU groups, cross-tabulations will be in less details and less refined groups for Small TPU groups, Large SB groups and Small SB groups.

區議會分區/選區系統

8.5 「區議會分區/選區系統」是 爲方便分區行政及選舉之用。全港地 海域被分爲 18 個區議會分區,然後再 為 400 個選區。二零零六年中期 是 400 個選區。二零零六年中 區 3 400 個選區。二零零六年中 區 547 單分 區 6 6 的 是 121 號表 是 121 是

District Council District / Constituency Area System

8.5 District Council District The Constituency Area (DC / CA) system is developed for district administration and election purposes. whole land and sea areas of Hong Kong are divided into 18 District Council Districts (DCs) which are further divided into 400 Constituency Areas (CAs). The DC boundaries and CA boundaries adopted in the 2006 Population By-census were based on those declared in the Declaration of Constituencies (District Councils) Order 2003 (L.N. 121 of 2003) made by the Chief Executive in Council under section 6 of the District Councils Ordinance (Cap. 547) for the District Council Election held on 23 November 2003. On the other hand, population living on board vessels are 會分區亦可分爲新市鎮及其他地區,新 市鎮界線乃採自規劃署及土木工程拓展 署訂定的新市鎮發展範圍。全港共有十 二個新市鎮,即是葵涌、青衣、荃灣、 屯門、元朗、天水圍、粉嶺/上水、 埔、沙田、馬鞍山、將軍澳及北大嶼 山。新市鎮分界亦用作發布二零零六年 中期人口統計結果。

collectively known as "marine population" without further breakdown into DC/CAs. DCs in the New Territories can also be divided into new towns and other areas. The delineation of the areas in the New Territories into new towns is adopted from the boundaries developed by the Planning Department and the Civil Engineering and Development Department for new town development purposes. There are 12 new towns namely Kwai Chung, Tsing Yi, Tsuen Wan, Tuen Mun, Yuen Long, Tin Shui Wai, Fanling/Sheung Shui, Tai Po, Sha Tin, Ma On Shan, Tseung Kwan O and North Lantau. New town boundaries are also adopted in the dissemination of the 2006 Population By-census results.

註釋: (1) 此表不包括有關人口範圍的數據題目(如「過去六個月有否超過五個月喺在香港」、「未來六個月總共會有多少時間在香港」、「現時在香港通常的居所」,以及「如非多數時間在香港居住,是否香港永久性居民及多數時間不在香港的原因」)。而在「按揭供款或借貸還款」、「其他現金收入」及「居所內的廳房數目」三個數據項目之下,則設有多條數據題目。

Notes: (1) Data topics on population coverage (i.e. 'Had you stayed in Hong Kong for more than 5 months in the past 6 months', 'Total amount of time that will be spent in Hong Kong in the coming 6 months', 'Usual accommodation in Hong Kong at present', and 'If not usually living in Hong Kong, whether a Hong Kong permanent resident, Hong Kong non-permanent resident or visitors and reason for usually not stayed in Hong Kong') are not included in this table. The data topics 'Mortgage payment or loan repayment', 'Other cash income' and 'Number of rooms in the residence' include more than one data items.

獲取政府統計處刊物及其他統計產品的方法

Means of Obtaining Publications and Other Statistical Products of the Census and Statistics Department

網站

用戶可以在政府統計處網站 (www.censtatd.gov.hk/products_and_services/ products/publications/index_tc.jsp) 免費下載統 計刊物。

政府統計處刊物的印刷版於政府新聞處的政府書店 (www.bookstore.gov.hk) 網站有售。

郵購服務

本處大部分的刊物均附有郵購表格,供訂購或 按期訂閱刊物的印刷版。請填妥郵購表格,連 同所需費用和郵費的支票或匯票寄回辦理。郵 購 表 格 亦 可 在 政 府 統 計 處 網 站 下 載 (www.censtatd.gov.hk/products_and_services/ other_services/provision_of_stat/mail_ordering_ of_publications/index_tc.jsp)。

銷售中心

市民可親臨政府統計處刊物出版組購買刊物的印刷版和唯讀光碟產品,並即時提取。刊物出版組的地址是:

香港灣仔港灣道十二號 灣仔政府大樓十九樓

電話:(852) 2582 3025 圖文傳真:(852) 2827 1708

該組並設有閱讀區,讓使用者翻閱陳列的統計處各類的刊物。閱讀區也備有統計處編製的宣傳/教育單張和小冊子,歡迎索閱。

Website

Users may download statistical publications free of charge from the website of the Census and Statistics Department (www.censtatd.gov.hk/products_and_services/products/publications/index.jsp).

Print versions of publications of the Census and Statistics Department are available for sale online at the Government Bookstore of the Information Services Department (www.bookstore.gov.hk).

Mail Order Service

A mail order form for ordering or subscribing to print versions of publications is available in most of the Department's publications. Completed form should be sent back together with a cheque or bank draft covering all necessary cost and postage. The order form is also available for downloading from the website of the Department (www.censtatd.gov.hk/products_and_services/other_services/provision_of_stat/mail_ordering_of_publications/index.jsp).

Sales Centre

Print versions of publications and CD-ROM products are available for purchase and collection on the spot at the Publications Unit of the Census and Statistics Department at the following address:

19/F Wanchai Tower 12 Harbour Road, Wan Chai, Hong Kong.

Tel.: (852) 2582 3025 Fax: (852) 2827 1708

The Unit also provides a reading area where users may browse through various publications of the Department on display. Publicity/educational leaflets and pamphlets of the Department are also available for collection.
