Foreword

This report presents the final results of the 1991 Population Census. It contains information on the number of enumerated residents by age and sex in each District Board district and constituency area.

The 1991 Population Census comprised a 100 per cent enumeration of all persons by age and sex, and a one-in-seven sample enquiry on a broad range of demographic and socio-economic characteristics of the population. All households in Hong Kong were enumerated during a ten-day period from 15 to 24 March 1991. The census results provide a snapshot of the size and characteristics of the population on the census reference date of 15 March 1991. Information in this report is based on the 100 per cent enumeration of the population.

The final count of the 1991 Population Census shows a total of 5 761 784 persons. This total comprises 5 674 114 residents, 35 823 transients and 51 847 Vietnamese migrants on 15 March 1991. The resident population of 5 674 114 includes 5 522 281 enumerated residents and 151 833 residents who were temporarily away from Hong Kong at the time of the 1991 Population Census.

This report presents information on the age and sex of the enumerated resident population for each of the District Board districts and constituency areas. The figures exclude residents temporarily away from Hong Kong on the census reference date. Data on the entire resident population by District Board district and constituency area are shown in a separate table. A map pack entitled "Boundary Maps Complementary to Tabulations for District Board Districts and Constituency Areas" is published separately for reference.

Results of the 1991 Population Census are also available in other publications being released concurrently. A list of their titles are given at the end of this report. Further detailed analysis and interpretation of the census results will be published in 1992.

Explanatory Notes

Coverage of the report

The 1991 Population Census comprised a 100 per cent enumeration of all persons by age and sex, and a one-in-seven sample enquiry on a broad range of demographic and socio-economic characteristics of the population. The age and sex statistics tabulated in this report are obtained from the 100 per cent complete count. In preparing the tabulations, an adjustment has been made as necessary to allow for persons in non-contact households.

The figures on population by age and sex cover the enumerated resident population only. The following categories of persons are not included :

- (a) 151 833 residents who were temporarily away from Hong Kong;
- (b) 35 823 transients; and
- (c) 51 847 Vietnamese migrants which include Vietnamese refugees, Vietnamese migrants having been screened out and those pending determination of refugee status, ex-China Vietnamese illegal immigrants, Vietnamese migrants rescued by ocean-going vessels and children born in Hong Kong to the above categories of Vietnamese migrants.

Figures on the entire resident population (i.e. all residents usually living in Hong Kong, including those who were temporarily away), distributed by District Board district and constituency area are shown in a separate table which compares it with the enumerated resident population.

Definition of terms

Resident Population — Residents who were usually living in Hong Kong, including those who were temporarily away, on the reference date of 15 March 1991.

Enumerated Resident Population — Residents who were present in Hong Kong on the reference date of 15 March 1991. Figures do not include transients, Vietnamese migrants and residents who were temporarily away from Hong Kong.

There is a total of 19 districts : 4 in Hong Kong Island; 6 in Kowloon and New Kowloon and 9 in the New Territories. For the purpose of the 1991 Population Census, population by District Board district refer to persons living on land only, i.e. persons enumerated on marine vessels are excluded.

Constituency Areas — These geographical areas are declared by the Governor-in-Council under the Electoral Provisions Ordinance, Chapter 367 on 24 July 1990 for District Board elections. There is a total of 210 constituency areas : 39 in Hong Kong Island; 69 in Kowloon and New Kowloon and 102 in the New Territories.
